(1) Every employee of the state whose services are covered by an agreement entered into under 19-1-401 and 19-1-402 must be required to pay, for the period of coverage, contributions with respect to wages equal to the amount of employee tax that would be imposed by the Federal Insurance Contributions Act if the services constituted employment within the meaning of that act. The liability arises in consideration of the employee's retention in the service of the state or entry into service.

(2) The contribution imposed by this section must be collected by deducting the amount of the contribution from wages paid, but failure to make the deduction does not relieve the employee from liability for the contribution.

(2) (a) The administrative expenses of the retirement systems administered by the board must be paid from the investment earnings on the pension trust fund of the public employees' retirement system's defined benefit plan, except as otherwise provided in this section. The board shall compute the administrative expenses attributable to each retirement system or plan administered by the board and transfer that amount from each retirement system's or plan's pension trust fund to the pension trust fund of the public employees' retirement system's defined benefit plan in a manner that ensures that the public employees' retirement system's defined benefit plan trust fund is fully compensated for expenditures made on behalf of other systems or plans so that there is no actuarial impact on the fund.

(1) As required by Article VIII, section 15, of the Montana constitution, each system must be funded on an actuarially sound basis. For the purposes of this section, "actuarially sound basis" means that contributions to each retirement plan must be sufficient to pay the full actuarial cost of the plan.

(2) (a) For a defined benefit plan, the full actuarial cost includes both the normal cost of providing benefits as they accrue in the future and the cost of amortizing unfunded liabilities over a scheduled period of no more than 30 years.

(b) For the defined contribution plan, the full actuarial cost is the contribution defined by law that is payable to an account on behalf of the member.

19-2-701. Service credit. (1) Service credit for all covered employment with each employer will be credited to a retirement system on a cumulative basis for all purposes, including but not limited to calculation of benefits and application of any maximum hour restrictions, limitations, or requirements. A member may not be credited with more than full-time service credit as a result of this cumulation of service credit. Subject to the provisions of chapters 3, 5 through 9, and 13, a member must receive 1 month of service credit for each full month of service under rules adopted by the board.

(2) Service credits must be used in calculating a retirement or survivorship benefit.

(3) A retired member is not eligible to earn service credit.

History: En. Sec. 21, Ch. 265, L. 1993; amd. Sec. 6, Ch. 370, L. 1997; amd. Sec. 15, Ch. 562, L. 1999.

19-2-702. Membership service. A member who is not retired must receive membership service for all periods of service, regardless of hours worked or compensation received during that service. The membership service must be used to determine:

(1) whether a member is vested;

(2) when the member is eligible for service retirement, early retirement, or disability retirement; or

(3) the eligibility of beneficiaries for survivorship benefits.

History: En. Sec. 22, Ch. 265, L. 1993; amd. Sec. 7, Ch. 370, L. 1997; amd. Sec. 7, Ch. 429, L. 2003.

19-2-703. No duplication of benefits for same service. (1) A member may not receive service credit or membership service in more than one retirement system, plan, or program under Title 19 for the same service.

(2) A member may not receive service credit or membership service in more than one retirement system, plan, or program in Title 19 for the same period of military service.

19-2-704. Purchasing service credits allowed — payroll deduction. (1) Subject to the rules promulgated by the board, an eligible member may elect to make additional contributions to purchase service credits as provided by the statutes governing the retirement system.

(2) Subject to any statutory provision establishing stricter limitations, only active or vested inactive members are eligible to purchase or transfer service credit, membership service, or contributions or to redeposit amounts withdrawn under 19-2-602.

(3) An eligible member who wishes to redeposit amounts withdrawn under 19-2-602 or who is eligible to purchase service credit as provided by the statutes governing the retirement system to which the member belongs may elect to make a lump-sum payment by personal check or rollover of funds from another eligible plan, to make installment payments, or to make a combination of a lump-sum payment and installment payments.

(4) Installment payments must be made by personal check paid directly to the board unless the member elects to make payments by irrevocable payroll deduction. The minimum installment period for payments is 3 months, and the maximum installment period is 5 years. If a member making installment payments by personal check ceases to make those payments, the board shall prorate the service credit based on the amount paid.

(5) To elect installment payments by irrevocable payroll deduction, the member shall file with the board and the member's employer an irrevocable, written application and authorization for payroll deductions. The application and authorization:

(a) must be signed by the member and the member's employer;

(b) must specify the dollar amount of each deduction and the number of deductions to be made, subject to any maximum amounts or duration established by state or federal law;

(c) may not give the member the option of receiving the deduction amounts directly instead of having them paid by the employer to the board; and

(d) must specify that the additional contributions being picked up, although designated as employee contributions, are being paid by the employer directly to the board in lieu of contributions paid directly by the employee.

(6) If the board notifies the employer that a proper written application and authorization has been filed with the board, the employer shall initiate the payroll deduction as follows:

(a) An employer shall pick up the member's elective additional contributions made pursuant to a payroll deduction authorization. The contributions picked up by the employer must be paid from the same source as is used to pay compensation to the member and must be included as part of the member's earned compensation before the deduction is made.

(b) Employee contributions, even though designated as employee contributions for state law purposes, are paid by the member's employer in lieu of contributions paid directly by the member to the board.

(c) The member may not choose to receive the contributed amounts directly instead of having them paid by the employer to the board.

(d) The effective date of the employer pickup and payment pursuant to this section is the date on which the employee's additional contribution is first deducted from the employee's compensation. However, the effective date may not be prior to the date that the member properly completes the written application and authorization for payroll deductions and files it with the board. The pickup may not apply to any additional contributions made before the effective date or to any contributions related to compensation earned for services rendered before the effective date.

(e) Installment payments initiated by contract prior to July 1, 1999, may be paid by payroll deduction only if the member files a written application and authorization for payroll deductions pursuant to this section. If the member does not file a written application and authorization for payroll deductions pursuant to this section, the installment contract payments agreed to by the member must be paid by the member directly to the board.

(f) A member may file more than one irrevocable payroll deduction agreement and authorization as long as a subsequent deduction authorization does not amend a previous irrevocable authorization. A member may not prepay an amount under an irrevocable payroll deduction agreement without terminating employment, except when a member becomes a member of another retirement system by an authorized election and the service purchase is in accordance with 19-2-715.

(7) If a member terminates employment or dies before completing all payments required by a payroll deduction authorization filed pursuant to this section, the deduction authorization expires and the board shall prorate the service credit based on the amount paid unless further payment is made as provided in this subsection. In the case of a termination from employment, the member may make a lump-sum payment for up to the balance of the service credit remaining to be purchased, subject to the limitations of section 415 of the Internal Revenue Code. In the case of death of the member, the payment may be made from the member's estate subject to the limitations of section 415 of the Internal Revenue Code.

19-2-706. Additional service credit for active member involuntarily terminated from employment. (1) The provisions of subsection (3) apply to an employee of the state or university system if:

(a) the employee is an active member of the public employees' defined benefit plan or the game wardens' and peace officers', sheriffs', firefighters' unified, or highway patrol officers' retirement system;

(b) the employee has involuntarily terminated from employment because of elimination of the employee's position as a result of privatization, reorganization of an agency, closure of or a reduction in force at an agency, or other actions by the legislature or, in the case of a member who is a legislator, the legislator is terminated from office in either one of the houses of the legislature because of term limits;

(c) the employee is eligible for service retirement or early retirement under the applicable provisions of the retirement system to which the member belongs; and

(d) the employee waives the rights and benefits for which the employee would otherwise be eligible under the State Employee Protection Act.

(2) The cost of each year of service credit purchased under this section is the total actuarial cost of purchasing the service credit based on the most recent actuarial valuation of the retirement system.

(3) The employer of an eligible member under subsection (1) shall pay a portion of the total cost of purchasing up to 3 years of additional service credit that the member was qualified to purchase under 19-3-513, 19-6-804, 19-7-804, 19-8-904, or 19-13-405. The employer-paid portion must be calculated using the formula A x B x C when:

(a) A is equal to a maximum of 3 additional years of service credit that the member is eligible to purchase;

(b) B is equal to the sum of the employer and employee contribution rates in the member's retirement system; and

(c) C is equal to the member's gross compensation paid during the immediate preceding 12 months of membership service. The employer may not be charged more than the total actuarial cost of the service credit purchased.

(4) The member shall pay the difference, if any, between the full actuarial cost of the service credit to be purchased and the contribution required from the employer under subsection (3). The member may elect to purchase less than the full amount of service for which the member is eligible under this section, but the election may not reduce the amount of the employer's contribution as calculated under subsection (3).

(5) The board may allow an employer to pay the contributions required under subsection (3) in installments for up to 10 years and may charge interest at a rate set by the board pursuant to 19-2-403.

(6) (a) A member who has received additional service credit under this section and who returns to employment for the same jurisdiction for 960 or more hours in a calendar year in any retirement system forfeits the additional service credit. The employer's contribution to purchase that member's additional service credit, minus the proportional amount of retirement benefits related to the additional service purchased under this section and already paid, must be credited to the employer.

(b) As used in subsection (6)(a), the term "same jurisdiction" means all agencies of the state, including the university system.

The total amount of the rollover to the retirement system may not exceed the amount of service credit that the member is allowed to purchase as a member of that system. The rollover must be completed prior to the member's retirement.

(2) The accumulated contributions to be transferred by the member may include both taxed contributions and tax-deferred contributions and interest. However, if less than all of the member's accumulated contributions on deposit in a pension trust fund are being transferred, the transfer of taxed and tax-deferred amounts must be made on a proportionate basis, with the remainder refunded to the member. (i) received or is eligible to receive a refund of accumulated contributions; and

(ii) become a member of one of the other retirement systems covered under chapter 3, 5, 6, 7, 8, 9, or 13 of this title.

(c) Upon receiving the member's payment under subsection (1)(b), the board shall transfer from the member's former retirement system to the member's current retirement system an amount equal to the employer contributions made on compensation during the member's former service, but no more than an amount equal to the normal cost contribution rate minus the employee contribution rate in the member's current retirement system according to the system's most recent actuarial valuation.

(d) If the member was formerly in the public employees' retirement system's defined contribution plan, the member shall pay the actuarial cost of the service credit in the member's current retirement system based on the system's most recent actuarial valuation and the annual compensation of the member. If the estate, as either a designated beneficiary or as a beneficiary by default as provided in this subsection, would not be probated but for the amount due to the estate from the retirement system, all of the amount due to the estate must be paid directly, without probate, to the surviving next of kin of the deceased or the guardians of the survivor's estate, share and share alike.

(2) Payment must be made in the same order in which the following groups are listed:
(a) husband or wife;

19-2-903. Correction of errors and suspension of payments. (1) If the amount of a contribution payment is incorrect, the board may reject the payment or accept the payment and approve any of the following methods to collect the correct amount:

(a) adjustment of subsequent payments from a member or an employer;

(b) installment payments or a lump-sum payment from an employer; or

(c) a lump-sum payment or a rollover from a member.

(2) If a purchase of service credit made pursuant to 19-2-704 is determined to be incorrect, the board may approve correcting the error by any of the following methods:

(a) adjusting the subsequent lump-sum or installment payments from the member or the member's employer;

(b) accepting a lump-sum payment or rollover from the member for the amount underpaid; or

(c) granting the member service credit proportional to the amount actually paid.

(3) If fraud or error results in a member, survivor, or beneficiary receiving more or less than entitled to, then upon the discovery of the error, the board shall correct the error.

(4) If the board suspects that a payment is not being delivered to its intended recipient, the board shall suspend the payment. The suspension will continue until the board makes direct contact with the intended recipient and is able to confirm the intended recipient's correct address or direct deposit information. Upon confirmation, payments will resume and any payments suspended must be made to the intended recipient as soon as administratively possible.

(5) (a) Except as provided in subsection (6), if a benefit or payment is overpaid or paid to a person not entitled to receive the benefit or payment, the board may recover the full amount of the improper distribution, plus interest set at the assumed rate of return on the system's investments. The interest must be compounded annually and be applied monthly and must accrue from the date the recipient of the improper distribution received a final determination notice of the improper distribution until the total amount owed to the retirement system pursuant to this subsection (5) is paid in full.

(b) To recover an amount owed pursuant to this subsection (5), the board may adjust future benefit payments or arrange for another method of payment. For collection of amounts due, the board may pursue all remedies available by law to it, including but not limited to initiating a lawsuit, requesting an electronic funds transfer or automated clearinghouse reversal transaction from the recipient's banking institution, or assigning or referring the debt to an attorney or collection agency.

(c) The board is entitled to recover its reasonable costs for pursuing collection, including but not limited to attorney fees or charges assessed by a collection agency. These costs may be added to the principal amount due under this subsection (5) and accrue interest as provided in subsection (5)(a).

(d) The recipient of an improperly paid benefit or payment is liable for repayment of the total amount owed pursuant to this subsection (5).

(e) The board may, for good cause, waive some or all of the interest charges or collection costs that may be assessed under this subsection (5).

(6) (a) If overpaid benefits or unpaid contributions resulted solely from an error made by the retirement system:

(i) the retirement system may recover the amount owed only with respect to the timeframe beginning 24 months prior to the date on which the retirement system issues an initial notice of the amount owed and ending when the amount owed is paid in full; and

(ii) interest may not be charged if the amount owed is paid within 30 days after issuance of the final staff determination.

(b) If the amount owed is not paid in full within 30 days after issuance of the final staff determination, the amount owed accrues interest at the retirement system's actuarially assumed annual rate of return, compounded monthly, beginning on the 31st day after issuance of the final staff determination. Interest continues to accrue until the amount owed to the retirement system is fully paid.

19-2-904. Withholding of group insurance premium from retirement benefit. (1) A retiree who is a participant in an employee group insurance plan that permits participation in the group plan following retirement may elect to have the monthly premium for group insurance withheld by the retirement system and paid directly by the system to the sponsoring employer. In order to qualify for this withholding, a retiree must be a participant in a group insurance plan available to the employees of the former employer. Withholding may not be made for any retiree covered by an individual insurance policy.

(2) Following the death of a retiree who elected withholding of premiums under subsection (1), the retiree's contingent annuitant may elect to have the contingent annuitant's monthly premium for group insurance withheld by the retirement system and paid directly by the system to the sponsoring employer. In order to qualify for this withholding, the contingent annuitant must be covered by the same group insurance plan that covered the retiree in accordance with subsection (1).

19-2-907. Alternate payees — family law orders — rulemaking. (1) A participant in a retirement system may have the participant's rights modified or recognized by a family law order.

(2) For purposes of this section:

(a) "family law order" means a judgment, decree, or order of a court of competent jurisdiction under Title 40 concerning child support, parental support, spousal maintenance, or marital property rights that includes a transfer of all or a portion of a participant's payment rights in a retirement system to an alternate payee in compliance with this section and with section 414(p) of the Internal Revenue Code, 26 U.S.C. 414(p); and

(b) "participant" means an identified person who is a member or an actual or potential beneficiary, survivor, or contingent annuitant of a retirement system or plan designated pursuant to Title 19, chapter 3, 5, 6, 7, 8, 9, 13, or 17.

(3) A family law order must identify a participant and an alternate payee by full name, current address, date of birth, and social security number. An alternate payee's rights and interests granted in compliance with this section are not subject to assignment, execution, garnishment, attachment, or other process. An alternate payee's rights or interests may be modified only by a family law order amending the family law order that established the right or interest.

(4) Except as provided in subsection (6)(a), a family law order may not require:

(a) a type or form of benefit, option, or payment not available to the affected participant under the appropriate retirement system or plan; or

(b) an amount or duration of payment greater than that available to a participant under the appropriate retirement system or plan.

(5) With respect to a defined benefit plan, a family law order may provide for payment to an alternate payee only as follows:

(a) Retirement benefit payments or refunds may be apportioned by directing payment of either a percentage of the amount payable or a fixed amount of no more than the amount payable to the participant. Payments to an alternate payee may be limited to a specific amount each month if the number of payments is specified.

(b) The maximum amount of disability or survivorship benefits that may be paid to alternate payees is the monthly benefit amount that would have been payable on the date of termination of service if the member had retired without disability or death. The maximum amount paid may be zero, depending on the member's age and service credit at the time of disability or death. Conversion of a disability retirement to a service retirement pursuant to 19-2-406(5), 19-3-1015(2), 19-6-612(2), or 19-8-712(2) does not increase the maximum monthly amount that may be paid to an alternate payee.

(c) Retirement benefit adjustments for which a participant is eligible after retirement may be paid as a percentage only if existing benefit payments are paid as a percentage. The adjustments must be paid as a percentage in the same ratio as existing benefit payments unless the family law order specifies that the alternate payee is not entitled to benefit adjustments.

(d) The participant may be required to choose a specified form of benefit payment or designate a beneficiary or contingent annuitant if the retirement system or plan allows for that option.

(6) With respect to a defined contribution plan, a family law order may provide for payment to an alternate payee only as follows:

(a) The vested account of the participant may be apportioned by directing payment of either a percentage or a fixed amount. The total amount paid may not exceed the amount in the participant's vested account. The alternate payee may receive the payment only as a direct payment, rollover, or transfer. The alternate payee's portion must be totally disbursed to the alternate payee as soon as administratively feasible upon the board's approval of the family law order.

(b) If the participant is receiving periodic payments or an annuity provided under the plan, those payments may be apportioned as a percentage of the amount payable to the participant. Payments to the alternate payee may be limited to a specific amount each month if the number of payments is specified. Payments may not total more than the amount payable to the payee.

(7) The duration of monthly payments paid from a defined benefit or defined contribution plan participant to an alternate payee may not exceed the lifetime of the appropriate participant. The duration of the monthly payments may be further limited only to a specified maximum time, the life of the alternate payee, or the life of another specified participant. Unless a family law order specifies the alternate payee's rights and interests revert to the participant upon the alternate payee's death, the alternate payee's rights and interests survive the alternate payee's death and may be transferred by inheritance or by designation of a beneficiary.

(8) The board may assess a participant or an alternate payee for all costs of reviewing and administering a family law order, including reasonable attorney fees. The board may adopt rules to implement this section.

(9) Each family law order establishing a final obligation concerning payments by the retirement system must contain a statement that the order is subject to review and approval by the board.

(10) The board shall adopt rules to provide for the administration of family law orders.

19-2-908. Time of commencement of benefit — rulemaking. (1) (a) The board shall grant a benefit to any active or inactive member who is vested, or the member's statutory or designated beneficiary, who has fulfilled all eligibility requirements, terminated service, and filed the appropriate written application with the board. However, the board may, on its own accord and without a written application, begin benefit payments to a member or beneficiary in order to comply with section 401(a)(9) of the Internal Revenue Code.

(b) A member may apply for retirement benefits before termination from employment, but commencement of the benefits must be as provided in this section.

(2) (a) Except as provided in subsection (2)(b), the service retirement benefit may commence on the first day of the month following the eligible member's last day of employment or, if requested by the member in writing, on the first day of a later month.

(b) If an elected official's term of office expires before the 15th day of the month, the official may elect that service retirement benefits from a defined benefit plan commence on the first day of the month following the official's last full month in office. An official electing this option shall file a written application with the board. An official electing this option may not earn membership service, service credit, or compensation for purposes of calculating highest average compensation or final average compensation, as defined under the provisions of the appropriate retirement system, in the partial month ending the official's term, and compensation earned in that partial month is not subject to employer or employee contributions.

(3) (a) Subject to the provisions of subsections (1) and (3)(b), the disability retirement benefit payable to a member must commence on the day following the member's termination from employment.

(b) If a disabled member continues with a purchase of service or chooses to purchase service following termination of employment, the member's disability benefit may not commence until the service purchase is completed.

(4) If a member begins receiving retirement benefits payments later than when the member is initially eligible, the guaranteed annual benefit adjustment payable pursuant to 19-3-1605, 19-5-901, 19-6-710, 19-6-711, 19-7-711, 19-8-1105, 19-9-1009, 19-9-1010, 19-9-1013, 19-13-1010, and 19-13-1011 does not commence until January 1 of the year after the year in which the member has received a monthly retirement benefit payment in each of the year's 12 months. The guaranteed annual benefit adjustment may not be paid retroactively.

(5) A designated beneficiary eligible to receive a death payment may instead elect a survivorship benefit if the designated beneficiary is a natural person and notifies the board of the designated beneficiary's election in writing within 90 days after the designated beneficiary receives notice that the designated beneficiary is eligible to receive a death payment. Monthly survivorship benefits from a defined benefit plan must commence on the day following the death of the member.

(6) Estimated and finalized benefit payments must be issued as provided in rules adopted by the board.

(7) With respect to the defined contribution plan, the board shall adopt rules regarding the commencement of benefits that are consistent with applicable provisions of the Internal Revenue Code and its implementing regulations.

(b) "Income withholding" means an income-withholding order issued under the provisions of Title 40, chapter 5, part 3 or 4, or an income-withholding order issued in another state as provided in 40-5-1046 through 40-5-1051.

(d) "Support obligation" has the meaning provided in 40-5-403 for a support order.

(3) The execution or income-withholding order may not require:

(a) a type or form of benefit, option, or payment not available to the affected participant under the appropriate retirement system or plan; or

(b) an amount or duration of payment greater than that available to a participant under the appropriate retirement system or plan.

(4) An execution or income-withholding order applied to a defined benefit retirement plan may provide for payment only as follows:

(a) Retirement benefit payments or refunds may be apportioned by directing payment of a percentage of the amount payable or payment of a fixed amount of no more than the amount payable to the participant.

(b) The maximum amount of disability or survivorship benefits that may be paid under this section is the monthly benefit amount that would have been payable on the date of termination of service if the member had retired without disability or death. The maximum amount paid may be zero, depending on the member's age and service credit at the time of disability or death.

The total amount paid may not exceed the amount in the participant's vested account. The alternate payee may receive the payment only as a direct payment, rollover, or transfer. A new account may be established for an alternate payee, but money in the account must be totally disbursed to the alternate payee as soon as feasible upon the participant's termination of service or death.

(b) If the participant is receiving periodic payments or an annuity provided under the plan, those payments may be apportioned as a percentage of the amount payable to the participant. Payments to the alternate payee may be limited to a specific amount each month if the number of payments is specified. Payments may not total more than the amount payable to the payee.

(6) The duration of monthly or other periodic payments paid from a defined benefit or defined contribution plan participant to an alternate payee may not exceed the lifetime of the appropriate participant. The duration of the monthly payments may be further limited only to a specified maximum time, the life of the alternate payee, or the life of another specified participant. The alternate payee's rights and interests survive the alternate payee's death and may be transferred by inheritance.

(7) The board shall adopt rules to provide for the administration of execution or income-withholding orders.

Part 10
Special Provisions

19-2-1001. Maximum contribution and benefit limitations. (1) (a) Employee contributions paid to and retirement benefits paid from a retirement system or plan may not exceed the annual limits on contributions and benefits, respectively, allowed by section 415 of the Internal Revenue Code, 26 U.S.C. 415.

(b) For purposes of determining whether the annual limitations in subsection (1)(a) are met:

(i) all defined benefit plans of the employer, whether or not terminated, must be treated as a single defined benefit plan;

(ii) all defined contribution plans of the employer, whether terminated or not, must be treated as a single defined contribution plan;

(iii) retirement systems and plans established under Title 19 must be prioritized for disqualification purposes above any plans not established under Title 19; and

(iv) retirement systems and plans established under Title 19 that must be aggregated for purposes of the limits in section 415 of the Internal Revenue Code, 26 U.S.C. 415, must be prioritized for qualification purposes based on the system or plan providing the member with the highest benefit.

(2) A member may not receive an annual benefit that exceeds the dollar amount specified in section 415(b)(1)(A) of the Internal Revenue Code, 26 U.S.C. 415(b)(1)(A), subject to the applicable adjustments in section 415(d) of the Internal Revenue Code, 26 U.S.C. 415(d).

(3) Notwithstanding any other provision of law to the contrary, the board may modify a request by a member to make a contribution to a retirement system or plan if the amount of the contribution would exceed the limits provided in section 415 of the Internal Revenue Code, by using the following methods:

(a) If the law requires a lump-sum payment for the purchase of service credit, the board may establish a periodic payment plan for the member to avoid a contribution in excess of the limits under section 415(c) or 415(n) of the Internal Revenue Code, 26 U.S.C. 415(c) or 415(n).

(b) If payment pursuant to subsection (3)(a) will not avoid a contribution in excess of the limits imposed by section 415(c) of the Internal Revenue Code, 26 U.S.C. 415(c), the board shall either reduce the member's contribution to an amount within the limits of that section or refuse the member's contribution.

(4) (a) Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, if a member makes one or more contributions to purchase permissive service credit under a retirement system or plan to which this section applies, then the requirements of this section will be treated as met only if:

(i) except as provided in subsection (4)(b), the requirements of section 415(b) of the Internal Revenue Code, 26 U.S.C. 415(b), are met, determined by treating the accrued benefit derived from all the contributions as an annual benefit for purposes of section 415(b) of the Internal Revenue Code, 26 U.S.C. 415(b); or

(ii) except as provided in subsection (4)(c), the requirements of section 415(c) of the Internal Revenue Code, 26 U.S.C. 415(c), are met, determined by treating all the contributions as annual additions for purposes of section 415(c) of the Internal Revenue Code, 26 U.S.C. 415(c).

(b) For purposes of applying subsection (4)(a)(i), the retirement system or plan may not fail to meet the reduced limit under section 415(b)(2)(C) of the Internal Revenue Code, 26 U.S.C. 415(b)(2)(C), solely by reason of subsection (4)(a).

(c) For purposes of applying subsection (4)(a)(ii), the retirement system or plan may not fail to meet the percentage limitation under section 415(c)(1)(B) of the Internal Revenue Code, 26 U.S.C. 415(c)(1)(B) solely by reason of this subsection (4).

(5) For purposes of subsection (4), the term "permissive service credit" means service credit:

(a) specifically recognized by a plan subject to this chapter for purposes of calculating a plan member's benefit under the member's plan;

(b) that the plan member has not received under the plan;

(c) that the plan member may receive only by making a voluntary additional contribution, in an amount determined under the plan, that does not exceed the amount necessary to fund the benefit attributable to the service credit; and

(d) effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, service credit for periods for which there is no performance of service, which, notwithstanding subsection (5)(b), may include service credit purchased in order to provide an increased benefit under the plan.

(6) A retirement system or plan fails to meet the requirements of subsection (4) if:

(a) more than 5 years of nonqualified service credit are taken into account; or

(b) any nonqualified service credit is taken into account before the plan member has at least 5 years of participation under the plan.

(7) For purposes of subsection (6), effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, the term "nonqualified service credit" means permissive service credit other than that allowed with respect to:

(a) service, including parental, medical, sabbatical, and similar leave, as an employee of the government of the United States, any state or political subdivision of a state, or any agency or instrumentality of a state or of a political subdivision of a state, other than military service or service for credit that was obtained as a result of a repayment of a refund as described in section 415(k)(3) of the Internal Revenue Code, 26 U.S.C. 415(k)(3);

(b) service, including parental, medical, sabbatical, and similar leave, as an employee, other than an employee described in subsection (7)(a), of an education organization described in section 170(b)(1)(A)(ii) of the Internal Revenue Code, 26 U.S.C. 170(b)(1)(A)(ii), that is a public, private, or sectarian school that provides elementary or secondary education through grade 12 or a comparable level of education, as determined under the applicable law of the jurisdiction in which the service was performed;

(c) service as an employee of an association of employees who are described in subsection (7)(a); or

(d) military service, other than qualified military service under section 414(u) of the Internal Revenue Code, 26 U.S.C. 414(u), recognized by the system or plan.

(8) In the case of service described in subsection (7)(a), (7)(b), or (7)(c), service must be nonqualified service if recognition of the service would cause a plan member to receive a retirement benefit for the same service under more than one plan.

(9) In the case of a trustee-to-trustee transfer after December 31, 2001, to which section 403(b)(13)(A) or 457(e)(17)(A) of the Internal Revenue Code, 26 U.S.C. 403(b)(13)(A) or 457 (e)(17)(A), applies, without regard to whether the transfer is made between plans maintained by the same employer:

(a) the limitations in subsection (7) do not apply in determining whether the transfer is for the purchase of permissive service credit; and

(b) the distribution rules applicable to the plan under federal law apply to those amounts and any benefits attributable to those amounts.

(10) (a) For purposes of this subsection (10), an eligible plan member is an individual who became a member of the plan before January 1, 1998.

(b) For an eligible plan member, the limitation in section 415(c)(1) of the Internal Revenue Code, 26 U.S.C. 415(c)(1), may not be applied to reduce the amount of permissive service credit that may be purchased to an amount less than the amount that was allowed to be purchased under the terms of the applicable law in effect on August 5, 1997.

(11) The limitation year for purposes of section 415 of the Internal Revenue Code, 26 U.S.C. 415, is the calendar year beginning each January 1 and ending December 31.

(12) (a) "Salary", for the purposes of determining compliance with section 415 of the Internal Revenue Code, 26 U.S.C. 415, and for no other purposes, means compensation as defined in 26 CFR 1.415(c)-1 through 1.415(c)-2(d)(4). However:

(i) employee contributions picked up under section 414(h)(2) of the Internal Revenue Code, 26 U.S.C. 414(h)(2), are excluded from salary; and

(ii) the amount of an elective deferral, as defined in section 402(g) of the Internal Revenue Code, 26 U.S.C. 402(g), or any other contribution that is contributed or deferred by the employer at the election of the member and that is not includable in the gross income of the member because of section 125, 403(b), or 457 of the Internal Revenue Code, 26 U.S.C. 125, 403(b), or 457, is included in the definition.

(b) For limitation years beginning after December 31, 2000, the term includes any elective amounts that are not includable in the gross income of the member by reason of section 132(f)(4) of the Internal Revenue Code, 26 U.S.C. 132(f)(4).

(c) For limitation years beginning no later than January 1, 2008, the term includes compensation paid by the later of 2.5 months after a member's severance from employment or the end of the limitation year that includes the date of the member's severance from employment if:

(i) the payment is regular compensation for services during the member's regular working hours or compensation for services outside the member's regular working hours such as overtime or shift differential, commissions, bonuses, or other similar payments and, absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer; or

(ii) the payment is for unused accrued bona fide sick, vacation, or other leave that the member would have been able to use if employment had continued.

(d) For limitation years beginning on or after January 1, 2009, the term, as calculated, may not exceed the annual limit under section 401(a)(17) of the Internal Revenue Code, 26 U.S.C. 401(a)(17).

(e) Beginning January 1, 2009, to the extent required by section 414(u)(12) of the Internal Revenue Code, 26 U.S.C. 414(u)(12), a member receiving from an employer differential wage payments as defined under section 3401(h)(2) of the Internal Revenue Code, 26 U.S.C. 3401(h)(2), must be treated as employed by that employer. The differential wage payments must be treated as compensation for purposes of applying the limits on annual additions under section 415(c) of the Internal Revenue Code, 26 U.S.C. 415(c). This provision must be applied to all similarly situated employees in a reasonably equivalent manner.

(13) For the purposes of applying the limits on a defined benefit plan member's annual benefit under section 415(b) of the Internal Revenue Code, 26 U.S.C. 415(b), the following apply:

(a) Prior to January 1, 2009, any automatic adjustment under the retirement system or a plan subject to this chapter must be taken into consideration when determining a member's applicable limit to the extent required by a reasonable interpretation of 26 CFR 1.415-3(c).

(b) On or after January 1, 2009, with respect to a member who does not receive a portion of the member's annual benefit in a lump sum:

(i) a member's applicable limit must be applied to the member's annual benefit in the first limitation year without regard to any automatic cost-of-living increases;

(ii) to the extent the member's annual benefit equals or exceeds the applicable limit, the member is no longer eligible for cost-of-living increases until the benefit plus the accumulated increases are less than the limit; and

(iii) in any subsequent limitation year, the member's annual benefit, including any automatic cost-of-living increase applicable, is subject to the applicable benefit limit, including any adjustment to the dollar limit in section 415(b)(1)(A) of the Internal Revenue Code, 26 U.S.C. 415(b)(1)(A), under section 415(d) of the Internal Revenue Code, 26 U.S.C. 415(d) and the implementing regulations.

(c) On or after January 1, 2009, with respect to a member who receives a portion of the member's annual benefit in a lump sum, a member's applicable limit must be applied, taking into consideration automatic cost-of-living increases as required by section 415(b) of the Internal Revenue Code, 26 U.S.C. 415(b), and applicable U.S. treasury regulations.

(d) (i) A member's annual benefit payable under the member's plan in any limitation year may not be greater than the limit applicable at the annuity starting date, as increased in subsequent years pursuant to section 415(d) of the Internal Revenue Code, 26 U.S.C. 415(d), and the implementing regulations.

(ii) If the form of benefit without regard to the automatic benefit increase feature is not a straight life or a qualified joint and survivor annuity, then this subsection (13)(d) is applied by either reducing the limit in section 415(b) of the Internal Revenue Code, 26 U.S.C. 415(b), applicable at the annuity starting date or adjusting the form of benefit to an actuarially equivalent straight life annuity benefit determined using the following assumptions that take into account the death benefits under the form of benefit:

(A) for a benefit paid in a form to which section 417(e)(3) of the Internal Revenue Code, 26 U.S.C. 417(e)(3), does not apply, the actuarially equivalent straight life annuity benefit that is the greater of:

(I) the annual amount of any straight life annuity payable to the member under the member's plan commencing at the same annuity starting date as the form of benefit payable to the member; or

(II) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the form of benefit payable to the member, computed using a 5% interest assumption, or the applicable statutory interest assumption, and pursuant to I.R.S. Revenue Ruling 2001-62, 2001-2 Cumulative Bulletin 632, for years prior to January 1, 2009, using the applicable mortality tables described in 26 CFR 1.417(e)-1(d)(2) and pursuant to I.R.S. Notice 2008-85, 2008-2 Cumulative Bulletin 905, for years after December 31, 2008, using the applicable mortality tables described in section 417(e)(3)(B) of the Internal Revenue Code, 26 U.S.C. 417(e)(3)(B); or

(B) for a benefit paid in a form to which section 417(e)(3) of the Internal Revenue Code, 26 U.S.C. 417(e)(3), applies, the actuarially equivalent straight life annuity benefit that is the greatest of:

(I) the annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using the interest rate and mortality table or tabular factor specified in the plan for actuarial experience;

(II) the annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using a 5.5% interest assumption, or the applicable statutory interest assumption, and pursuant to I.R.S. Revenue Ruling 2001-62, 2001-2 Cumulative Bulletin 632, for years prior to January 1, 2009, using the applicable mortality tables described in 26 CFR 1.417(e)-1(d)(2) and pursuant to I.R.S. Notice 2008-85, 2008-2 Cumulative Bulletin 905, for years after December 31, 2008, using the applicable mortality tables described in section 417(e)(3)(B) of the Internal Revenue Code, 26 U.S.C. 417(e)(3)(B); or

(III) the annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using as the applicable interest rate for the distribution under 26 CFR 1.417(e)-1(d)(3) prior to January 1, 2009, the rate in effect for the month prior to retirement or, on or after January 1, 2009, the rate in effect for the first day of the plan year with a 1-year stabilization period and pursuant to I.R.S. Revenue Ruling 2001-62, 2001-2 Cumulative Bulletin 632, for years prior to January 1, 2009, using the applicable mortality tables described in 26 CFR 1.417(e)-1(d)(2) and pursuant to I.R.S. Notice 2008-85, 2008-2 Cumulative Bulletin 905, for years after December

31, 2008, using the applicable mortality tables described in section 417(e)(3)(B) of the Internal Revenue Code, 26 U.S.C. 417(e)(3)(B), divided by 1.05.

(iii) With respect to subsections (13)(d)(ii)(A) and (13)(d)(ii)(B), the board's actuary may reduce the limitation found in section 415(b) of the Internal Revenue Code, 26 U.S.C. 415(b), for testing purposes using the assumptions specified in subsections (13)(d)(ii)(A) and (13)(d)(ii)(B).

(1) Upon termination of a retirement system or plan, termination of employment of a substantial number of members that would constitute a partial termination of the retirement system or plan, or complete discontinuance of contributions to that retirement system or plan, the retirement benefit accrued to each member directly affected by the occurrence becomes fully vested and nonforfeitable to the extent funded.

(2) A plan member is 100% vested in the member's accumulated contributions at all times.

(b) For the ongoing educational services and communication services established pursuant to this section, from the employer contributions made pursuant to 19-3-316, 0.04% of the compensation paid to all of the employer's employees who are members of the system must be allocated to the education fund established in subsection (1)(a). The board shall from time to time review the sufficiency of this amount and recommend to the legislature the adjustments that it considers appropriate.

(2) (a) The educational services must provide system members with impartial and balanced information about plan choices, benefits, and features. The services must be provided in a variety of formats. Plan comparisons must, to the greatest extent possible, be based upon historical rates of return on investments or benefits available in each retirement plan.

(b) If educational services are conducted by a contractor, the board shall monitor the performance of the contract to ensure that the services are conducted in accordance with the contract, applicable law, and the rules of the board. A contractor hired to provide the educational program provided for in subsection (3) may not be the same entity contracted to provide other services for the defined contribution plan or the university system retirement program.

(3) The board shall offer an ongoing transfer educational program to provide new system members with information necessary to make informed plan choice decisions. The program must include but is not limited to information on:

(a) determining the amount of money available to transfer to the defined contribution plan;

(b) the features of and differences between the defined benefit plan and the defined contribution plan, both generally and specifically, as those differences may affect the member;

(c) the expected benefit available if the member were to retire under each of the retirement plans, based on appropriate alternative sets of assumptions;

(d) the rate of return from investments in the defined contribution plan that must be achieved to equal or exceed the expected monthly benefit payable to the member under the defined benefit plan, assuming the same time period in each plan;

(e) the historical rates of return for the investment alternatives available in the defined contribution plan;

(f) determining retirement income needs and comparing determined retirement income needs to each plan's possible or expected benefit;

(g) use of supplemental retirement savings programs to enhance retirement income;

(h) the plan choices available to employees of the university system pursuant to 19-3-2112 and the comparative benefits of each available plan; and

(i) payout options available in each of the retirement plans.

(4) Ongoing educational services and communication services must be provided after members have made their initial retirement plan choice. These services must continually provide members with information about their chosen plan, alternatives within their chosen plan, and decisions necessary for retirement preparation. The services must include but not be limited to information concerning:

(a) rights and conditions of membership;

(b) benefit features within the plan, options, and the effects of certain decisions;

(c) planning for retirement, including coordination of contributions and benefits with supplemental retirement savings programs;

(d) significant plan changes; and

(e) contribution rates and plan funding status.

(5) The board shall also establish a communication program to provide plan information to participating employers and the employer's personnel and payroll officers and to explain their respective responsibilities in conjunction with the retirement plans.

(6) This section does not prohibit a contracted plan vendor or vendors from providing system members with information and tools necessary to understand the available investment alternatives and to appropriately manage their selected retirement plan.

Contracts, Title 28, ch. 2, 3.

19-3-201. Contracts with political subdivisions. (1) Any municipal corporation, county, or public agency in the state may become a contracting employer through a contract entered into between the board and the legislative body of the contracting employer. The contract must provide that all employees eligible under this chapter must become members. Contracts executed prior to July 1, 2009, that limit membership to a specific group or groups of employees remain valid. The contract may include any provisions that are consistent with chapter 2 and this chapter and necessary in the administration of the retirement system as it affects the contracting employer and its employees.

(2) The approval of the contract is subject to the following provisions, in addition to the other provisions of chapter 2 and this chapter:

(a) The legislative body of the contracting employer shall adopt a resolution of intention to approve the contract and containing a summary of the major provisions of the retirement system. The contract may not be approved unless the employees proposed to be included in the retirement system adopt the proposal by a majority affirmative vote in a secret ballot. The ballot at the election must include the summary of the retirement system as set forth in the resolution. The election must be conducted as prescribed by the legislative body of the contracting employer. Approval of the contract must be by the affirmative vote of two-thirds of the members of the legislative body within 40 days after the adoption of the resolution.

(b) The contract must specify that the provisions of the retirement system apply to all employees on the effective date of the contract and to all employees hired after the effective date of the contract. An employee's membership in either the defined benefit plan or the defined contribution plan is determined on an individual basis as provided in this chapter.

(c) The contract may be amended in the manner prescribed in this section for the original approval of contracts. The contract must be approved by the board. The board may disapprove of a contract if, in the board's sole discretion, the contract adversely affects the interests of the retirement system. Any amendments to the retirement system made pursuant to Montana laws immediately apply to and become a part of the contract.

(3) The termination of the contract is subject to the following provisions, in addition to the other provisions of this chapter:

(a) The legislative body of a contracting employer shall adopt a resolution giving notice to its employees that it intends to terminate retirement system coverage.

(b) All employees covered under the retirement system must be given notice of the termination resolution and be permitted to vote for or against the resolution by secret ballot.

(c) If a majority of covered employees votes for termination, the legislative body, within 20 days after the approval of the resolution by the employees, may adopt by a two-thirds majority a resolution terminating coverage under the system effective the last day of that month and forward the resolution and a certified copy of the election results to the board.

(d) Upon receipt of the termination resolution, the board may request an actuarial valuation of the liabilities of the terminating agency to the retirement system, and the board may withhold approval of the termination of contract until satisfactory arrangements are made to provide funding for:

(i) the cost of the actuarial valuation to determine the terminating agency's liabilities to the retirement system; and

(ii) any excess accrued liabilities not previously funded by the terminating agency.

Any employee who has, for a continuous period of at least 2 years, been an employee of a municipal corporation, county, or other public agency of this state that is not a contracting employer may advise the legislative body of the employer, in writing, that the employee wishes to participate in the retirement system. 19-3-203. Conversion of local or state retirement plan. (1) If the legislative body of any city, county, or public agency having an existing retirement, pension, or annuity fund or system, referred to as the local system, desires to make the members of the local system members of the public employees' retirement system, it may enter into a contract for that purpose with the board in the manner provided in 19-3-201. However, the employees voting, as provided in 19-3-201(2)(a), must be limited to active members of the local system, and approval requires an affirmative vote of two-thirds of the employees.

(2) Subject to the applicable provisions of this chapter, active members of the local system shall become members of either the defined benefit plan or the defined contribution plan of the retirement system and are no longer members of the local system. The pensions being paid to pensioners or annuitants of the local system on the effective date of the contract must be continued and paid at their existing rates by the public employees' retirement system. The liability for the pensions must be computed by the actuary and charged to the contracting employer. All cash and securities held by the local system must be transferred to the retirement system as of the effective date of the contract and credited to the employer. The value of the securities must be determined by the board.

(3) The trustees or other administrative head of the local system as of the effective date of the contract shall certify the proportion, if any, of the funds of the system that represents the accumulated contributions of the active members and the relative shares of the members as of that date. The shares must be charged to the employer and credited as accumulated contributions of the members in the public employees' retirement system and administered as if the contributions had been made during membership in the retirement system. Any excess of employer credits over charges under this section must be offset, with regular interest, against future required employer contributions. Any excess of employer charges over credits under this section must be payable by the contracting employer, with regular interest, on a monthly basis as specified in the contract.

The rate of taxation may be in addition to the annual rate of taxation allowed by law to be levied by the contracting employer.

(2) Each member's contribution must be reduced to 6.9% on January 1 following the system's annual actuarial valuation if the valuation determines that reducing the employee contribution pursuant to this subsection and reducing the employer contribution pursuant to 19-3-316(4) would not cause the system's amortization period to exceed 25 years.

(6) The member's contributions picked up by the employer must be payable from the same source as is used to pay compensation to the member and must be included in the member's wages, as defined in 19-1-102, and compensation. (3) (a) An inactive member of the defined benefit plan with less than 5 years of membership service is an inactive nonvested member and is not eligible for any benefits from the retirement plan.

(b) An inactive nonvested member of the defined benefit plan is eligible only for a refund of the member's accumulated contributions.

(4) Except as otherwise provided in this chapter, a member of either the defined benefit plan or the defined contribution plan is an active member of the system and is not eligible for a refund of contributions or for benefit payments if the member either:

(a) returns to service within 30 days of termination of employment; or

(b) terminates one employment but remains employed in another position covered by the system.

(5) Time during which an employee of a school district, the Montana school for the deaf and blind, or a public institution of higher education is absent from service during official vacation is counted as membership service in determining eligibility for retirement benefits.

19-3-402. Federally subsidized employees eligible. A person whose compensation is paid either fully or in part from federal funds but who is not subject to the federal retirement system is considered an employee and is entitled to all benefits and is required to make all employee contributions under the retirement system based upon the full salary received by such employee, including that portion of salary paid from federal funds.

History: En. 68-2510 by Sec. 58, Ch. 323, L. 1973; amd. Sec. 1, Ch. 445, L. 1977; R.C.M. 1947, 68-2510; amd. Sec. 1, Ch. 458, L. 1983.

19-3-403. Exclusions from membership. The following persons may not become members of the retirement system and, except as provided in subsection (9), may not later purchase previous service under 19-3-505:

(1) inmates or residents of state institutions or correctional institutions;

(2) persons in state institutions principally for the purpose of training but who receive compensation;

(3) independent contractors;

(4) volunteers;

(5) student interns, except that a student intern who later becomes an active member by otherwise becoming an employee may, after becoming an active member, affirmatively exercise the option of purchasing the service credit excluded by this subsection by applying to the board in writing to become eligible to receive service credit for the excluded service under the provisions of 19-3-505;

(6) persons who are members of any other retirement or pension system supported wholly or in part by funds of the United States government, any state government, or political subdivision of the state and who are receiving credit in the other system for employment. It is the purpose of this subsection to prevent a person from receiving credit for the same employment in two retirement systems supported wholly or in part by public funds, except when the service qualifies and is applied for and the service credit is purchased pursuant to 19-3-503. A member of the retirement system who, because of employment by the state, is required to become a member of any other system described in this subsection is considered, with regard to that employment, an inactive member of the retirement system, except that the member is not eligible for retirement or a refund of the member's accumulated contributions. Exclusion under this subsection is subject to the following exceptions:

(a) The employees of an employer who has entered into a collective bargaining agreement involving a multiemployer pension plan qualified by the internal revenue service and that requires contributions by the employer for the members of the bargaining unit remain eligible, if otherwise qualified, for membership in the retirement system.

(b) For the purpose of this subsection (6), persons receiving pensions, retirement benefits, or other payments from any source on account of employment other than as an employee are not considered, because of receipt, members of any other retirement or pension system.

(7) substitute teachers or part-time teacher's aides who may elect to join the teachers' retirement system in accordance with 19-20-302(4);

(8) court commissioners, elected officials, or appointive members of any board or commission who serve the state or any contracting employer intermittently and who are paid on a per diem basis;

(9) full-time students employed at and attending the same public elementary school, high school, community college, or unit of the state university system, except that a person excluded from membership as a student of a public community college or a unit of the state university system who later becomes an active member by otherwise becoming an employee may affirmatively exercise the option of purchasing the service credit excluded by this subsection by applying to the board in writing after becoming an active member and become eligible to receive service credit for the excluded service under the provisions of 19-3-505;

(10) county school superintendents who are required by 19-20-302(1)(g) and (2) to be members of the teachers' retirement system provided for in Title 19, chapter 20.

19-3-411. Eligible employees. Subject to 19-3-402, 19-3-403, 19-3-412, and 19-3-413, eligible employees under the system who are not covered by a separate retirement system under this title include the following:

(1) any employee of the state of Montana, its university system or any of the colleges, schools, components, or units of the university system; and

(2) any employee of a contracting employer eligible to participate under the contract between the board and the contracting employer under 19-3-201.

19-3-412. Optional membership — employees not in elected office. (1) Except as provided in subsection (2), the following employees in covered positions that are not elected offices shall elect either to become active members of the retirement system or to decline this optional membership by filing an irrevocable, written application with the board in the manner prescribed in subsection (3):

(a) employees serving in employment that does not cumulatively exceed a total of 960 hours of covered employment with all employers under this chapter in any fiscal year;

(b) employees directly appointed by the governor;

(c) employees working 10 months or less for the legislative branch to perform work related to the legislative session;

(d) the chief administrative officer of any city or county; and

(e) employees of county hospitals or rest homes.

(2) (a) An employee who is an active or inactive member at the time of employment is not eligible to make an election under subsection (1). Upon employment in the position, an employee who was an active member remains an active member for all covered employment and an employee who was an inactive member shall become an active member.

(b) A person who was a retired member before employment in a position for which membership is optional under subsection (1) is not eligible to make an election under subsection (1) and is subject to the provisions of Title 19, chapter 3, part 11.

(3) (a) The board shall prescribe the form of the written application required pursuant to subsection (1) and provide written application forms to each employer.

(b) Each employee in a position covered under subsection (1) shall obtain the written application form from the employer and complete and return it to the board.

(c) The written application must be filed with the board within 90 days after the commencement of the employee's employment.

(d) The employer shall inform the employee of the option to elect membership and retain a copy of the employee's written application.

(4) Failure to inform an employee in a position covered under subsection (1) of the employee's option to elect membership must be treated as a correction of a reporting error under 19-2-506(4). An employee who elects membership in the defined benefit plan following discovery of an omission to be informed of the optional election may choose to purchase the retroactive service under 19-3-505, and the employer is obligated to pay the employer contributions as well as accrued interest in both the employer and employee contributions.

(5) If the employee fails to file with the board the written application required under subsection (1) within the time allowed in subsection (3), the failure must be considered an election to decline membership.

(6) Except as provided in subsection (7), an employee who declines optional membership may not receive membership service or service credit for the employment for which membership was declined.

(7) An employee who declined optional membership but later becomes a member may purchase service credit for the period of time beginning with the date of employment in which membership was declined to the commencement of membership. Purchase of service credit pursuant to this subsection must comply with 19-3-505.

(8) An employee who has made an election under this section may not make a new or different election under this section in any circumstance unless the employee has been terminated from employment in all optional membership positions for at least 30 days.

19-3-504. Absence due to illness or injury. (1) Time, not to exceed 5 years, during which a member is absent from service because of injury or illness is considered membership service if, within 1 year after the end of the absence, the injury or illness is determined to have arisen out of and in the course of the member's employment. However, the member may not earn service credit for this period unless the member files with the board a written notice of the member's intent to purchase the time of absence and complies with subsection (2), in which case the absence is considered as time spent in service for both service credit and membership service.

(2) (a) A member absent because of an employment-related illness or injury entitling the member to workers' compensation payments may, upon the member's return to service or upon termination of employment if the member cannot return to service due to the illness or injury, contribute to the retirement system an amount equal to the contributions that would have been made by the member to the system during the absence. The amount of contributions owed will be based on the member's compensation at the commencement of the member's absence, plus regular interest accruing 1 year from the date after the member returns to service or terminates employment to the date the member contributes for the period of absence.

(b) Whenever a member elects to contribute under subsection (2)(a), the employer shall contribute employer contributions for the period of absence based on the salary as calculated in subsection (2)(a) and may pay interest on the employer's contribution calculated in the same manner as interest on the employee's contribution under subsection (2)(a). An employer electing to make an interest payment shall do so for all employees similarly situated. If the employer elects not to pay the interest costs, this amount must be paid by the employee.

(3) A member loses the right to contribute for:

(a) the entire absence under this section if all of the member's accumulated contributions are refunded pursuant to 19-2-602; or

(b) the period of time during which retirement benefits are received if the member retires during the absence.

The application must include salary information certified by the member's employer or former employer.

(2) (a) A purchase under this section is subject to the board's approval.

(b) If the board approves the request, the member shall pay all contributions that the member would have contributed during the period of employment as if the employment had been covered by the retirement system and shall pay the regular interest that would have accumulated on the amount to the time of payment.

(c) The employer shall establish a policy as to the payment of retroactive employer contributions or retroactive employer contributions and regular interest and apply this policy indiscriminately for all employees and former employees. All employee appeals of discrimination are subject to the determination of the board. 19-3-511. Transfer and purchase of service credits and contributions from teachers' retirement system. (1) Except as provided in subsection (3)(b), an active member may, at any time before retirement, file a written application with the board to purchase in the public employees' retirement system the member's service in the teachers' retirement system to the extent that the member has either received or is eligible to receive a refund for the service.

(2) The cost of purchasing service credit under this section is the sum of subsections (2)(a) and (2)(b) as follows:

(a) The teachers' retirement system shall transfer employer contributions directly to the public employees' retirement system in an amount equal to 72% of the amount payable by the member.

(b) The member shall pay either directly or by transferring contributions on account with the teachers' retirement system an amount equal to the member's accumulated contributions at the time that active membership was terminated with the teachers' retirement system, plus accrued interest. Interest must be calculated from the date of termination until payment is received by the public employees' retirement system as follows:

(i) for a direct transfer of member contributions, at the interest rate credited by the teachers' retirement system to member accounts; or

(ii) for a redeposit of refunded member contributions, at the public employees' retirement system's actuarial assumed rate of return in effect at the time of redeposit.

(3) (a) The amount of service credit granted in subsection (1) must be equal to the service credit that had been on account with the teachers' retirement system.

(b) Service credit transferred from the teachers' retirement system is subject to the provisions and limitations of 19-3-514, except as provided in subsection (3)(c).

(c) Active service transferred from the teachers' retirement system or refunded service from the teachers' retirement system that is eligible to be purchased under this section is not subject to service credit limitations.

(4) Subject to the provisions of 19-2-403, the board is the sole authority in determining the amount of service credit that a member may purchase under this section and the amount paid to the retirement system under subsection (2).

(5) When an active member of the public employees' retirement system dies while also having service credit on account with the teachers' retirement system, the deceased member's designated beneficiary may apply to have the member's service transferred from the teachers' retirement system if all of the following requirements are met:

(a) the member had not previously retired under either retirement system;

(b) the member was not vested with either system at the time of death;

(c) the member's total creditable service following transfer would entitle the designated beneficiary to receive a survivor benefit from the public employees' retirement system in the form of a monthly benefit payable for the beneficiary's lifetime;

(d) at least one individual designated beneficiary will be electing a survivorship benefit;

(e) the designated beneficiary who is entitled to payment on behalf of the member is the same individual in each retirement system; and

(f) the transfer of service credit to the public employees' retirement system is upon a full withdrawal of the member's service credit from the teachers' retirement system.

(6) If the board determines that a member was erroneously classified and reported to the teachers' retirement system, the member's accumulated contributions and service credit, together with the employer contributions plus interest, must be transferred to the public employees' retirement system. Employee and employer contributions due as calculated under 19-3-315 and 19-3-316 are the liability of the employee and the employing entity, respectively, where the error occurred. For the period of time that the employer contributions are held by the teachers' retirement system, interest paid on employer contributions transferred under this subsection must be calculated at the short-term investment pool rate earned by the board of investments in the fiscal year preceding the transfer request.

(b) public service employment that occurred before the public employer adopted a public retirement system.

(2) A member may not purchase more than 5 years of service credit under this section. To purchase this service credit, a member shall:

(a) at any time before retirement, file a written application with the board; and

(b) pay the actuarial cost of the service credit in the public employees' retirement system, as determined by the board, based on the system's most recent actuarial valuation.

(3) Service credit purchased under this section may not be used in calculating a member's retirement benefit unless the member's last 5 years of service credit were earned under the public employees' retirement system. If, upon the member's retirement, the member's purchased service credit cannot be used in calculating the member's retirement benefit, the member must receive a refund of the amount paid to purchase the service credit, plus regular interest on that amount.

(2) To purchase this service credit under this section, a member shall pay the actuarial cost of the service credit, based on the system's most recent actuarial valuation.

For purposes of this subsection, all agencies of the state, including the university system, are considered the same jurisdiction and other public employers contracting with the retirement system are each considered separate jurisdictions.

19-3-1015. Medical examination of disability retiree — cancellation and reinstatement. (1) The board may, in its discretion, require a disabled member to undergo a medical examination. The examination must be made by a board-approved physician or surgeon at a place mutually agreed on by the board, the disabled member, and the physician or surgeon and at the board's expense. Upon the basis of the examination, the board shall determine whether the disabled member is unable, by reason of physical or mental incapacity, to perform the essential elements of either the position held by the member when the member retired or the position proposed to be assigned to the member. If the board determines that the member is not incapacitated or if the member refuses to submit to a medical examination, the member's disability retirement benefit must be canceled.

(2) If the board determines that a disabled member should no longer be subject to medical review, the board may grant service retirement status to the member without recalculating the monthly benefit. The board shall notify the member in writing as to the change in status. If the disabled member disagrees with the board's determination, the member may file a written application with the board requesting that the board reconsider its action. The written application for reconsideration must be filed within 60 days after receipt of the notice of the status change.

(3) (a) Except as provided in subsections (3)(b) and (3)(c), a member whose disability retirement benefit is canceled because the board has determined that the member is no longer incapacitated must be reinstated to the position held by the member immediately before the member's retirement or to a position in a comparable pay and benefit category with duties within the member's capacity if the member was an employee of the state or of the university. If the member was an employee of a contracting employer, the board shall notify the proper official of the contracting employer that the disability retirement benefit has been canceled and that the former employee is eligible for reinstatement to duty. The fact that the former employee was retired for disability may not prejudice any right to reinstatement to duty that the former employee may have or claim to have.

(b) A member who is employed by an employer forfeits any right to reinstatement provided by this section.

(c) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement to duty.

(4) If a member whose disability retirement benefit is canceled is not reemployed in a position subject to the retirement system, the member is considered, for the purposes of 19-2-602, to have terminated service coincident with the commencement of the member's retirement benefit.

(5) If a disabled member who is receiving a disability retirement benefit independently determines that the member is no longer disabled as that term is defined in 19-2-303 and returns to covered employment, the member shall immediately notify retirement system administrative staff so that the member's disability retirement benefit is canceled.

19-3-1106. Limited reemployment — reduction of service retirement benefit upon exceeding limits — reporting obligations — liability — exceptions. (1) A retired member under 65 years of age who was hired prior to July 1, 2011, who has been terminated from employment for at least 90 days, and who is receiving a service retirement benefit or early retirement benefit may return to employment covered by the retirement system for a period not to exceed 960 hours in any calendar year without returning to active service and without any effect to the retiree's retirement benefit. The retirement benefit for any retiree exceeding this 960-hour limitation in any calendar year after retirement must be temporarily reduced $1 for each $1 earned after working 960 hours in that calendar year.

(2) A retired member who is 65 years of age or older but less than 70½ years of age, who has been terminated from employment for at least 90 days, and who returns to employment

covered by the retirement system is either subject to the 960-hour limitation of subsection (1) or may earn in any calendar year an amount that, when added to the retiree's current annual retirement benefit, will not exceed the member's annualized highest average compensation, adjusted for inflation as of January 1 of the current calendar year, whichever limitation provides the higher limit on earned compensation to the retiree. Upon reaching the applicable limitation, the retiree's benefits must be temporarily reduced $1 for each $1 of compensation earned in service beyond the applicable limitation during that calendar year.

(3) (a) The employer of a retiree returning to employment covered by the retirement system shall certify to the board the number of hours worked by the retiree and the gross compensation paid to the retiree in that employment during any pay period after retirement. The certification of hours and compensation may be submitted electronically pursuant to rules adopted by the board.

(5) The following members who return to employment covered by the retirement system are not subject to the hour or earnings limitations in subsections (1) and (2) but are subject to the reporting requirements in subsection (3):

(c) a retired member who receives compensation, such as witness fees, for a limited period as a necessary witness in an ongoing civil or criminal matter related to their former employment.

(6) If a retired member is employed by an employer in a position that is reportable to the retirement system and the retired member is concurrently working for the employer in another position that is not reportable to the system, the position that is not reportable is considered to be part of the position that is reportable to the retirement system. Exemption from taxes and legal process — exceptions, 19-2-1004.

19-3-1501. Optional forms of benefits — designation of contingent annuitant. (1) The retirement benefit of a member or the survivorship benefit of a designated beneficiary who so elects must be converted, in lieu of all other benefits under this chapter, into an optional retirement benefit that is the actuarial equivalent of the original benefit. If the member does not elect an optional retirement benefit pursuant to subsection (2), the member's retirement benefit is known as an option 1 benefit.

(2) An optional retirement benefit under this subsection (2) is initially payable during the member's or designated beneficiary's lifetime, with a subsequent benefit, depending on the option selected, to a contingent annuitant as follows:

(a) option 2—a continuation of the optional retirement benefit after the death of the initial payee and payable during the lifetime of the named contingent annuitant. This option may be the chosen benefit only if the adjusted age difference between the member or designated beneficiary and the contingent annuitant, other than the member's or designated beneficiary's spouse, is 10 years or less. The adjusted age difference is either:

(i) the excess of the age of the member or designated beneficiary over the age of the nonspouse contingent annuitant based on their ages on their birthdays in a calendar year; or

(ii) if the member or designated beneficiary is under 70 years of age, the age difference determined in subsection (2)(a)(i) reduced by the number of years that the member or designated beneficiary is under 70 years of age on the member's or beneficiary's birthday in the calendar year that contains the benefit starting date.

(b) option 3—a continuation of one-half of the optional retirement benefit after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(c) option 4—a continuation of the optional retirement benefit to one or more contingent annuitants in the event of the initial payee's death before the end of a period certain, determined as follows:

(i) the period certain commences at the time that the initial payee first begins receiving the retirement benefit and is available as either:

(A) a 10-year period certain if the member retired at 75 years of age or younger; or

(B) a 20-year period certain if the member retired at 65 years of age or younger;

(ii) if there is more than one surviving contingent annuitant, each contingent annuitant must receive a proportion of the initial payee's benefit on a share-and-share-alike basis;

(iii) if all surviving contingent annuitants die prior to the end of the period certain and the last remaining contingent annuitant has failed to name a designated beneficiary, the remaining payments must be converted to an equivalent lump-sum amount and paid to the estate of the last surviving contingent annuitant.

(3) The member or the designated beneficiary who elects an optional retirement benefit under subsection (2) shall file a written application with the board prior to the first payment of the benefit. A contingent annuitant must be identified on the application.

(4) If the member or designated beneficiary or the named contingent annuitant dies before the first payment has been made under option 2 or 3, the election of the option is automatically canceled.

(5) If the member dies after terminating service and within 30 days after the date that the member's written application electing or changing an election of an optional retirement benefit under subsection (2) is received by the board, then the election is void.

(6) After the member or designated beneficiary has received and accepted an initial retirement benefit payment, the member may not change the selected option except as provided in subsection (7).

(7) A retired member receiving an optional retirement benefit pursuant to subsection (2)(a) or (2)(b) may file a written application with the board to have the member's optional retirement benefit revert to the regular retirement benefit available at the time of the member's retirement if:

(a) the original contingent annuitant has died, in which case the optional benefit must revert effective on the first day of the month following the contingent annuitant's death; or

(b) the member's marriage to the original contingent annuitant has been dissolved and the original contingent annuitant has not been granted the right to receive the optional retirement benefit as part of a family law order, as defined in 19-2-907. The benefit must then revert effective on the first day of the month following receipt of the written application and verification that the family law order does not grant the optional benefit to the original contingent annuitant.

(8) A member who applies to revert under subsection (7) shall, at the time of the application, choose one of the following alternatives:

(a) revert to the member's original option 1 retirement benefit, increased by the amount of any adjustments received by the member since the effective date of the member's retirement;

(b) retain the same option 2 or option 3 originally selected but name a new contingent annuitant; or

(c) select a different option under subsection (2) and name a new contingent annuitant.

(9) If the member selects an alternative under subsection (8)(b) or (8)(c), the member's retirement benefit must be calculated based on the member's and the new contingent annuitant's ages at the time of this election.

(10) A written application pursuant to subsection (7) must be filed with the board within 18 months of the death of or dissolution of marriage to the contingent annuitant.

19-3-1605. Guaranteed annual benefit adjustment. (1) Subject to subsection (2), on January 1 of each year, the permanent monthly benefit payable during the preceding January to each recipient who is eligible under subsection (3) must be increased by the applicable percentage provided in subsection (4).

(2) (a) If a recipient's benefit payable during the preceding January has been increased by one or more adjustments not provided for in this section and the adjustments amount to less than an annualized increase of the applicable percentage provided in subsection (4), then the

recipient's benefit must be adjusted by an amount that will provide a total annualized increase of the applicable percentage in the benefit paid since the preceding January.

(b) If a recipient's benefit payable during the preceding January has been increased by one or more adjustments not provided for in this section and the increases amount to more than an annualized increase of the applicable percentage provided in subsection (4), then the benefit increase provided under this section must be 0%.

(c) If a benefit recipient is a contingent annuitant receiving an optional benefit upon the death of the original payee that occurred since the preceding January, the new recipient's monthly benefit must be increased to the applicable percentage provided in subsection (4)(b) more than the amount that the contingent annuitant would have received had the contingent annuitant received a benefit during the preceding January.

(3) Except as provided in subsection (2)(b), a benefit recipient is eligible for and must receive the minimum annual benefit adjustment provided for in this section if the benefit's commencement date is at least 12 months prior to January 1 of the year in which the adjustment is to be made.

(4) (a) The applicable percentage increase under subsection (1) is 3% if the member was hired or assumed office:

(i) before July 1, 2007; or

(ii) on or after July 1, 2007, and before July 1, 2013, and the benefit recipient is a member of a retirement system provided for in this title, and the guaranteed annual benefit adjustment provision for that member under that system is a 3% benefit increase.

19-3-2126. Refunds — minimum account balance — adjustment by rule. (1) Before termination of service, a member may not receive a refund of any portion of the member's vested account balance.

(2) Except as provided in 19-3-2142, a member who terminates service and whose vested account balance is less than $200 must be paid the vested account balance in a lump sum. If the member's employer contribution account is not vested, the employer contributions and income are forfeited and must be allocated as provided in 19-3-2117. The payment must be made as soon as administratively feasible without a written application from the member.

(3) Except as provided in 19-3-2142, unless a written application is made pursuant to subsection (4)(a), a member who terminates service and whose vested account balance is between $200 and $1,000 must be paid the vested account balance in a lump sum. The payment must be made as soon as administratively feasible. If the member's employer contribution account is not vested, the employer contributions and income are forfeited and must be allocated as provided in 19-3-2117.

(4) (a) Except as provided in 19-3-2142, upon the written application of a member terminating service whose vested account balance is $200 or more, the board shall make a direct rollover distribution pursuant to section 401(a)(31) of the Internal Revenue Code, 26 U.S.C. 401(a)(31), of the eligible rollover distribution portion of that balance. To receive the direct rollover distribution, the member is responsible for correctly designating, on forms provided by the board, an eligible retirement plan that allows the rollover under applicable federal law.

(b) The direct rollover distribution must be paid directly to an eligible retirement plan allowed under applicable federal law that, effective January 1, 2008, includes a Roth IRA provided for in section 408A of the Internal Revenue Code, 26 U.S.C. 408A.

(5) A member who terminates service with an account balance greater than $1,000, whether vested or not, may remain in the plan.

(6) The board may by rule adjust the minimum account balance provided in this section as necessary to maintain reasonable administrative costs and to account for inflation and in accordance with the requirements of section 401(a)(31)(B) of the Internal Revenue Code, 26 U.S.C. 401(a)(31)(B), and applicable regulations.

(1) Except as provided in subsections (2) and (3), in the case of the disability of a vested member, a disability retirement benefit must be granted the member in an amount actuarially equivalent to the service retirement benefit standing to the member's credit at the time of the member's disability retirement.

(2) Except as provided in subsections (1) and (3), in the case of the disability of a vested or nonvested member, if the disability is a direct result of any service or duty for the Montana judiciary, the member's disability retirement benefit must be the greater of one-half of the member's current salary or one-half of the member's highest average compensation.

(3) If the member was retired at the time of becoming disabled, the member must continue to receive the same retirement benefit previously elected.

19-5-612. Medical examination of disability retiree — cancellation of benefit. (1) The board, in its discretion, may require the recipient of a disability retirement benefit to undergo a medical examination. The examination must be made by a board-approved physician or surgeon at a place mutually agreed on by the board, the disabled member, and the physician or surgeon and at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the essential elements of the position held by the recipient when the recipient was retired. If the board determines that the recipient is not incapacitated or if the recipient refuses to submit to a medical examination, the recipient's disability retirement benefit must be canceled.

(2) The cancellation of a disability retirement benefit because a recipient is no longer incapacitated may not prejudice any right of the recipient to a retirement benefit other than a disability retirement benefit.

(3) If a disabled member who is receiving a disability retirement benefit independently determines that the member is no longer disabled as that term is defined in 19-2-303 and returns to covered employment, the member shall immediately notify retirement system administrative staff so that the member's disability retirement benefit is canceled.

19-5-701. Optional forms of benefits — designation of contingent annuitant. (1) The retirement benefit of a member or the survivorship benefit of a designated beneficiary who so elects must be converted, in lieu of all other benefits under this chapter, into an optional retirement benefit that is the actuarial equivalent of the original benefit. If the member does not elect an optional retirement benefit pursuant to subsection (2), the member's retirement benefit is known as an option 1 benefit.

(2) An optional retirement benefit under this subsection (2) is initially payable during the member's or designated beneficiary's lifetime, with a subsequent benefit, depending on the option selected, to a contingent annuitant as follows:

(a) option 2—a continuation of the optional retirement benefit after the death of the initial payee and payable during the lifetime of the named contingent annuitant. This option may be the chosen benefit only if the adjusted age difference between the member or designated beneficiary and the contingent annuitant, other than the member's or designated beneficiary's spouse, is 10 years or less. The adjusted age difference is either:

(i) the excess of the age of the member or designated beneficiary over the age of the nonspouse contingent annuitant based on their ages on their birthdays in a calendar year; or

(ii) if the member or designated beneficiary is under 70 years of age, the age difference determined in subsection (2)(a)(i) reduced by the number of years that the member or designated beneficiary is under 70 years of age on the member's or beneficiary's birthday in the calendar year that contains the benefit starting date.

(b) option 3—a continuation of one-half of the optional retirement benefit after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(c) option 4—a continuation of the optional retirement benefit to one or more contingent annuitants in the event of the initial payee's death before the end of a period certain, determined as follows:

(i) the period certain commences at the time that the initial payee first begins receiving the retirement benefit and is available as either:

(A) a 10-year period certain if the member retired at 75 years of age or younger; or

(B) a 20-year period certain if the member retired at 65 years of age or younger;

(ii) if there is more than one surviving contingent annuitant, each contingent annuitant must receive a proportion of the initial payee's benefit on a share-and-share-alike basis;

(iii) if all surviving contingent annuitants die prior to the end of the period certain and the last remaining contingent annuitant has failed to name a designated beneficiary, the remaining payments must be converted to an equivalent lump-sum amount and paid to the estate of the last surviving contingent annuitant.

(3) The member or designated beneficiary who elects an optional retirement benefit under subsection (2) shall file a written application with the board prior to the first payment of the benefit. A contingent annuitant must be identified on the application.

(4) If the member or designated beneficiary or the named contingent annuitant dies before the first payment has been made under option 2 or 3, the election of the option is automatically canceled.

(5) If the member dies after terminating service and within 30 days after the date that the member's written application electing or changing an election of an optional retirement benefit under subsection (2) is received by the board, the election is void.

(6) After the member or designated beneficiary has received and accepted an initial retirement benefit payment, the member may not change the selected option except as provided in subsection (7).

(7) A retired member receiving an optional retirement benefit pursuant to subsection (2)(a) or (2)(b) may file a written application with the board to have the member's optional retirement benefit revert to the regular retirement benefit available at the time of the member's retirement if:

(a) the original contingent annuitant has died, in which case the optional benefit must revert effective on the first day of the month following the contingent annuitant's death; or

(b) the member's marriage to the original contingent annuitant has been dissolved and the original contingent annuitant has not been granted the right to receive the optional retirement benefit as part of a family law order, as defined in 19-2-907. The benefit must then revert effective on the first day of the month following receipt of the written application and verification that the family law order does not grant the optional benefit to the original contingent annuitant.

(8) A member who applies to revert under subsection (7) shall, at the time of the application, choose one of the following alternatives:

(a) revert to the member's original option 1 retirement benefit, increased by the amount of any adjustments received by the member since the effective date of the member's retirement;

(b) retain the same option 2 or option 3 originally selected but name a new contingent annuitant; or

(c) select a different option under subsection (2) and name a new contingent annuitant.

(9) If the member selects an alternative under subsection (8)(b) or (8)(c), the member's retirement benefit must be calculated based on the member's and the new contingent annuitant's ages at the time of this election.

(10) A written application pursuant to subsection (7) must be filed with the board within 18 months of the death of or dissolution of marriage to the contingent annuitant.

(1) Except as provided in subsection (3), if the board finds that a member died as a direct and proximate result of injury received in the course of the member's service or duty, a survivorship benefit must be paid to the member's designated beneficiary.

(2) The survivorship benefit is the member's service retirement benefit standing to the member's credit on the date of death.

(3) If the member was retired at the time of death, the provisions of 19-5-701 and 19-5-802(2) through (4) apply.

19-5-802. Payments upon death from other than employment-related cause. (1) (a) If a vested member dies before reaching normal retirement age, the member's designated beneficiary is entitled to a monthly survivorship benefit that is the actuarial equivalent of the retirement benefit provided in 19-5-502.

(b) If a nonvested member dies before reaching normal retirement age, the member's designated beneficiary is entitled to a lump-sum refund of the accumulated contributions standing to the member's credit at the time of the member's death.

(2) When a retired member not covered under 19-5-901 and receiving an option 1 retirement benefit under 19-5-701 dies, the member's designated beneficiary must be paid the amount, if any, of the member's accumulated contributions calculated as of the day of the member's retirement minus the total of any retirement benefits already paid from the member's account. At the designated beneficiary's request, the lump sum may be paid as an actuarially equivalent annuity that will not be subject to increases for any purpose.

(3) When a retired member covered under 19-5-901 and receiving an option 1 retirement benefit under 19-5-701 dies, the member's designated beneficiary must be paid the amount, if any, of the member's accumulated contributions calculated as of the day of the member's retirement minus the total of any retirement benefits already paid from the member's account.

(4) If a retired member who elected an option 2 or 3 benefit under 19-5-701 dies with no surviving contingent annuitant, the member's designated beneficiary or, if there is no surviving designated beneficiary, the member's estate must be paid the amount, if any, of the member's accumulated contributions calculated as of the day of the member's retirement minus the total of any retirement benefits already paid from the member's account.

(5) This section does not apply if the member was receiving a disability benefit. The member's accumulated contributions may not be reduced by the disability benefits already paid unless the disability benefit was converted to a service retirement benefit pursuant to 19-2-406(5).

Part 1
General Provisions

19-6-101. Definitions. Unless the context requires otherwise, the following definitions apply in this chapter:

(1) (a) "Compensation" means remuneration paid from funds controlled by an employer in payment for the member's services or for time during which the member is excused from work because the member has taken compensatory leave, sick leave, annual leave, or a leave of absence before any pretax deductions allowed by state or federal law are made.

(b) Compensation does not include:

(i) per diems, maintenance, allowances, and expenses; or

(ii) bonuses provided after July 1, 2013, that are one-time or temporary payments in addition to and not considered part of base pay.

(2) "Dependent child" means an unmarried child of a deceased retired member, who is:

(a) under 18 years of age; or

(b) under 24 years of age and attending an accredited secondary or postsecondary educational institution as a full-time student in anticipation of receiving a certificate or degree.

(3) (a) "Highest average compensation" means a member's highest average monthly compensation during any 36 consecutive months of membership service or, in the event

a member has not served at least 36 months, the total compensation earned divided by the number of months of service.

(b) Lump-sum payments for compensatory leave, sick leave, and annual leave paid to the member upon termination of employment may be used in the calculation of a retirement benefit only to the extent that they are used to replace, on a month-for-month basis, the normal compensation for a month or months included in the calculation of the highest average compensation. A lump-sum payment may not be added to a single month's compensation.

(c) Excess earnings limits must be applied to the calculation of the highest average compensation pursuant to 19-2-1005(2).

(4) "Surviving spouse" means the spouse married to a retired member at the time of the retired member's death.

19-6-612. Medical examination of disability retiree — cancellation of benefit. (1) The board may require the recipient of a disability retirement benefit to undergo a medical examination. The examination must be made by a board-approved physician or surgeon at a place mutually agreed on by the board, the disabled member, and the physician or surgeon and at the board's expense. Upon the basis of the examination, the board shall determine whether the recipient can perform the essential elements of the position held by the recipient when the recipient retired. If the board determines that the recipient is not incapacitated, the recipient's disability retirement benefit must be canceled when the recipient is offered a position under subsection (3) or when, if a position is available, the recipient cannot be reinstated under subsection (3) for reasons unrelated to the disability. If the recipient refuses to submit to a medical examination, the recipient's disability retirement benefit must be canceled.

(2) If the board determines that a recipient of a disability retirement benefit should no longer be subject to medical review, the board may grant a service retirement status to the recipient without recalculating the recipient's monthly benefit. The board shall notify the recipient in writing as to the change in status. If the recipient disagrees with the board's determination, the recipient may file a written application with the board requesting that the board reconsider its action. The request for reconsideration must be filed within 60 days after receipt of the notice of the status change.

(3) (a) Except as provided in subsection (3)(b), a recipient whose disability retirement benefit is canceled because the board has determined that the recipient is no longer incapacitated must be reinstated to the position held by the recipient immediately before the recipient's retirement or to a position in a comparable pay and benefit category within the recipient's capacity, whichever is first open. The fact that the recipient was retired for disability may not prejudice any right to reinstatement to duty that the recipient may have or claim to have.

(b) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement to duty.

(4) The department of justice may request a medical or psychological review as to the ability of the recipient to return to work as a member of the highway patrol. If the board's findings are upheld, the department of justice shall pay the cost of the review.

(5) If a disabled member who is receiving a disability retirement benefit independently determines that the member is no longer disabled as that term is defined in 19-2-303 and returns to covered employment, the member shall immediately notify retirement system administrative staff so that the member's disability retirement benefit is canceled.

Part 1
General Provisions

19-7-101. Definitions. Unless the context requires otherwise, the following definitions apply in this chapter:

(1) (a) "Compensation" means remuneration paid from funds controlled by an employer for the member's services or for time during which the member is excused from work because the member has taken compensatory leave, sick leave, annual leave, or a leave of absence before any pretax deductions allowed by state or federal law are made.

(b) Compensation does not include:

(i) per diems, maintenance, allowances, and expenses; or

(ii) bonuses provided after July 1, 2013, that are one-time or temporary payments in addition to and not considered part of base pay.

(2) "Detention officer" means any detention officer who is hired by a sheriff, employed in a detention center, and acting as a detention officer for the sheriff and who has received or is expected to receive training to meet the employment standards set for detention officers by the Montana public safety officer standards and training council established in 2-15-2029.

(3) (a) "Highest average compensation" means:

(i) for members hired prior to July 1, 2011, the member's highest average monthly compensation during any 36 consecutive months of membership service;

(ii) for members hired on or after July 1, 2011, the highest average compensation during any 60 consecutive months of membership service; or

(iii) if a member has not served the minimum specified period of membership service as applicable in subsection (3)(a)(i) or (3)(a)(ii), the total compensation earned divided by the number of months of service.

(b) Lump-sum payments for compensatory leave, sick leave, and annual leave paid to the member upon termination of employment may be used in the calculation of a retirement benefit only to the extent that they are used to replace, on a month-for-month basis, the normal compensation for a month or months included in the calculation of the highest average compensation. A lump-sum payment may not be added to a single month's compensation.

(c) Excess earnings limits must be applied to the calculation of the highest average compensation pursuant to 19-2-1005(2).

(4) "Investigator" means a person who is employed by the department of justice as a criminal investigator or as a gambling investigator.

(5) "Sheriff" means any elected or appointed county sheriff or undersheriff or any appointed, lawfully trained, appropriately salaried, and full-time deputy sheriff with the requisite professional certification and licensing.

(b) The percentage of compensation to be contributed under subsection (5)(a) is 0.1% for fiscal year 2026 and increases by 0.1% each fiscal year through fiscal year 2035. For fiscal years beginning after June 30, 2035, the percentage of compensation to be contributed under subsection (5)(a) is 1%.

(6) (a) The board shall review annually the additional employer contribution provided for under subsection (5) and recommend adjustments to the legislature as needed to maintain the amortization schedule set by the board for payment of the system's unfunded liabilities.

(b) The employer contribution required under subsection (5) terminates on July 1 following the board's receipt of the system's actuarial valuation if the actuarial valuation determines that terminating the additional employer contribution pursuant to this subsection (6)(b) and reducing the member contributions pursuant to 19-7-403(1)(b) would not cause the amortization period to exceed 25 years.

(a) before completing 20 years of membership service must receive a disability retirement benefit equal to one-half the member's highest average compensation; or

19-7-612. Medical examination of disability retiree — cancellation of benefit. (1) The board, in its discretion, may require the recipient of a disability retirement benefit to undergo a medical examination. The examination must be made by a board-approved physician or surgeon at a place mutually agreed on by the board, the disabled member, and the physician or surgeon and at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the essential elements of the position held by the recipient when the recipient was retired. If the board determines that the recipient is not incapacitated, the recipient's disability retirement benefit must be canceled when the recipient is offered a position under subsection (2) or when, if a position is available, the recipient cannot be reinstated under subsection (2) for reasons unrelated to the disability. If the recipient refuses to submit to a medical examination, the recipient's disability retirement benefit must be canceled when the recipient is notified of the determination of the board.

(2) (a) Except as provided in subsection (2)(b), a person other than an elected official whose disability retirement benefit is canceled because the person is no longer incapacitated must be reinstated to the position held by the person immediately before the person's retirement or to a position in a comparable pay and benefit category within the person's capacity, whichever is first open. The fact that the person was retired for disability may not prejudice any right to reinstatement to duty that the person may have or claim to have.

(b) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement.

(3) The public body required to reinstate a person under subsection (2) may request a medical or psychological review as to the ability of the member to return to work as a member of the sheriff's office. If the board's findings are upheld, the public body shall pay the cost of the review.

(4) If a disabled member who is receiving a disability retirement benefit independently determines that the member is no longer disabled as that term is defined in 19-2-303 and returns to covered employment, the member shall immediately notify retirement system administrative staff so that the member's disability retirement benefit is canceled.

19-7-711. Guaranteed annual benefit adjustment. (1) Subject to subsection (2), on January 1 of each year, the permanent monthly benefit payable during the preceding January to each recipient who is eligible under subsection (3) must be increased by the applicable percentage provided in subsection (4).

(2) (a) If a recipient's benefit payable during the preceding January has been increased by one or more adjustments not provided for in this section and the adjustments amount to less than an annualized increase of the applicable percentage provided in subsection (4), then the recipient's benefit must be adjusted by an amount that will provide a total annualized increase of the applicable percentage in the benefit paid since the preceding January.

(b) If a recipient's benefit payable during the preceding January has been increased by one or more adjustments not provided for in this section and the increases amount to more than an annualized increase of the applicable percentage provided in subsection (4), then the benefit increase provided under this section must be 0%.

(c) If a benefit recipient is a contingent annuitant receiving an optional benefit upon the death of the original payee that occurred since the preceding January, the new recipient's monthly benefit must be increased to the applicable percentage provided in subsection (5) more than the amount that the contingent annuitant would have received had the contingent annuitant received a benefit during the preceding January.

(3) Except as provided in subsection (2)(b), a benefit recipient is eligible for and must receive the minimum annual benefit adjustment provided for in this section if the benefit's commencement date is at least 12 months prior to January 1 of the year in which the adjustment is to be made.

(4) (a) The applicable percentage is 3% for benefit recipients hired or assuming office:

19-7-801. Membership in municipal police officers' retirement system prior to or following city-county consolidation — payment of benefits by two systems. (1) A law enforcement officer who has not changed employment but who has, because of a city-county consolidation, been transferred either from a city police force to a county sheriff's office or from a county sheriff's office to a city police force as a law enforcement officer is eligible for a service retirement benefit if the officer's combined service credit in the sheriffs' retirement system and the municipal police officers' retirement system satisfies the minimum membership service requirement of the system to which the officer last made contributions. A member who has elected to continue membership in the public employees' retirement system under 19-7-301 may continue the election. However, credit for service in the public employees' retirement system that has not been transferred prior to January 1, 1979, may not be transferred.

(2) A member of the municipal police officers' retirement system who begins employment in a position covered by the sheriffs' retirement system following a city-county consolidation may remain in the municipal police officers' retirement system or elect to become a member of the sheriffs' retirement system by filing a written election with the board no later than 30 days after beginning the employment.

(3) Eligibility for and calculation of disability retirement, death benefits, and refund of contributions are governed by the provisions of the retirement system to which the officer last made contributions.

(4) The service retirement benefit of a member described in subsection (1) must be calculated separately for each system based on the service credit under each system. The calculation for the sheriffs' retirement system portion of the benefit must include the optional retirement benefit, if any, elected under 19-7-1001. The final salary or highest average compensation for each calculation must be based on the highest compensation earned while a member of either system. Each system shall pay its proportionate share, based on the number of years of service credit, of the combined benefit.

(5) Upon the death of a retired member receiving a service retirement benefit under this section, the survivor or contingent annuitant and the continuing benefit must be determined separately for each system as follows:

(a) For the municipal police officers' retirement system portion of the benefit, the surviving spouse must receive a benefit equal to the municipal police officers' retirement system portion of the service retirement benefit as calculated at the time of the member's retirement. If the retired member leaves no surviving spouse or upon the death of the surviving spouse, the retired member's surviving dependent child, or children collectively if there are more than one, must receive the same monthly benefits that a surviving spouse would receive for as long as the child or one of the children remains dependent, as defined in 19-9-104. The benefits must be paid pursuant to 19-2-803. If there is more than one dependent child, upon a child no longer qualifying as dependent under 19-9-104, that child's pro rata benefits must be paid to the remaining dependent children.

(b) For the sheriffs' retirement system portion of the benefit:

(i) the contingent annuitant must receive a continuing benefit as determined under 19-7-1001, if the retired member elected an optional retirement benefit; or

19-7-901. Payments in case of death before retirement. If a member dies before retirement, the member's designated beneficiary may elect one of the following options for which the member qualified and for which the designated beneficiary qualifies:

(1) a lump-sum payment of the accumulated contributions standing to the member's credit at the member's death;

(2) a survivorship benefit equal to 2.5% of the member's highest average compensation for each year of service credit actuarially reduced from age 60 or the date on which the member would have completed 20 years of membership service, whichever provides a larger retirement benefit; or

(3) a survivorship benefit that is no less than one-half of the member's highest average compensation if the board finds that the member died as a direct and proximate result of injuries received in the course of employment.

Exemption from taxes and legal process — exceptions, 19-2-1004.

19-7-1001. Optional forms of benefits — designation of contingent annuitant. (1) The retirement benefit of a member or the survivorship benefit of a designated beneficiary who so elects must be converted, in lieu of all other benefits under this chapter, into an optional retirement benefit that is the actuarial equivalent of the original benefit. If the member does not elect an optional retirement benefit pursuant to subsection (2), the member's retirement benefit is known as an option 1 benefit.

(2) An optional retirement benefit under this subsection (2) is initially payable during the member's or designated beneficiary's lifetime with a subsequent benefit, depending on the option selected, to a contingent annuitant, as follows:

(a) option 2—a continuation of the optional retirement benefit after the death of the initial payee and payable during the lifetime of the named contingent annuitant. This option may be the chosen benefit only if the adjusted age difference between the member or designated beneficiary and the contingent annuitant, other than the member's or designated beneficiary's spouse, is 10 years or less. The adjusted age difference is either:

(i) the excess of the age of the member or designated beneficiary over the age of the nonspouse contingent annuitant based on their ages on their birthdays in a calendar year; or

(ii) if the member or designated beneficiary is under 70 years of age, the age difference determined in subsection (2)(a)(i) reduced by the number of years that the member or designated beneficiary is under 70 years of age on the member's or beneficiary's birthday in the calendar year that contains the benefit starting date.

(b) option 3—a continuation of one-half of the optional retirement benefit after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(c) option 4—a continuation of the optional retirement benefit to one or more contingent annuitants in the event of the initial payee's death before the end of a period certain, determined as follows:

(i) the period certain commences at the time that the initial payee first begins receiving the retirement benefit and is available as either:

(A) a 10-year period certain if the member retired at 75 years of age or younger; or

(B) a 20-year period certain if the member retired at 65 years of age or younger;

(ii) if there is more than one surviving contingent annuitant, each contingent annuitant must receive a proportion of the initial payee's benefit on a share-and-share-alike basis;

(iii) if all surviving contingent annuitants die prior to the end of the period certain and the last remaining contingent annuitant has failed to name a designated beneficiary, the remaining payments must be converted to an equivalent lump-sum amount and paid to the estate of the last surviving contingent annuitant.

(3) The member or the designated beneficiary who elects an optional retirement benefit under subsection (2) shall file a written application with the board prior to the first payment of the benefit. A contingent annuitant must be identified on the application.

(4) If the member or designated beneficiary or the named contingent annuitant dies before the first payment has been made under option 2 or 3, the election of the option is automatically canceled.

(5) If the member dies after terminating service and within 30 days after the date that the member's written application electing or changing an election of an optional retirement benefit under subsection (2) is received by the board, the election is void.

(6) After the member or designated beneficiary has received and accepted an initial retirement benefit payment, the member may not change the selected option except as provided in subsection (7).

(7) A retired member receiving an optional retirement benefit pursuant to subsection (2)(a) or (2)(b) may file a written application with the board to have the member's optional retirement benefit revert to the regular retirement benefit available at the time of the member's retirement if:

(a) the original contingent annuitant has died, in which case the optional benefit must revert effective on the first day of the month following the contingent annuitant's death; or

(b) the member's marriage to the original contingent annuitant has been dissolved and the original contingent annuitant has not been granted the right to receive the optional retirement benefit as part of a family law order, as defined in 19-2-907. The benefit must revert effective on the first day of the month following receipt of the written application and verification that the family law order does not grant the optional benefit to the contingent annuitant.

(8) A member who applies to revert under subsection (7) shall, at the time of the application, choose one of the following alternatives:

(a) revert to the member's original option 1 retirement benefit, increased by the amount of any adjustments received by the member since the effective date of the member's retirement;

(b) retain the same option 2 or option 3 originally selected but name a new contingent annuitant; or

(c) select a different option under subsection (2) and name a new contingent annuitant.

(9) If the member selects an alternative under subsection (8)(b) or (8)(c), the member's retirement benefit must be calculated based on the member's and the new contingent annuitant's ages at the time of the election.

(10) A written application pursuant to subsection (7) must be filed with the board within 18 months of the death of or dissolution of marriage to the contingent annuitant.

19-8-101. Definitions. Unless the context requires otherwise, the following definitions apply in this chapter:

(1) (a) "Compensation" means remuneration paid from funds controlled by an employer in payment for the member's services or for time during which the member is excused from work because the member has taken compensatory leave, sick leave, annual leave, banked holiday time, or a leave of absence before any pretax deductions allowed by state or federal law are made.

(b) Compensation does not include:

(i) per diems, maintenance, allowances, and expenses; or

(ii) bonuses provided after July 1, 2013, that are one-time or temporary payments in addition to and not considered part of base pay.

(2) "Game warden" means a state fish and game warden hired by the department of fish, wildlife, and parks and includes all warden supervisory personnel whose salaries or compensation is paid out of the department of fish, wildlife, and parks money.

(3) (a) "Highest average compensation" means:

(i) for members hired prior to July 1, 2011, the highest average monthly compensation during any 36 consecutive months of membership service;

(ii) for members hired on or after July 1, 2011, the highest average monthly compensation during any 60 consecutive months of membership service; or

(iii) in the event a member has not served the minimum specified period of membership service, the total compensation earned divided by the number of months of service.

(b) Lump-sum payments for compensatory leave, sick leave, annual leave, and banked holiday time paid to the member upon termination of employment may be used in the calculation of a retirement benefit only to the extent that they are used to replace, on a month-for-month basis, the normal compensation for a month or months included in the calculation of the highest average compensation. A lump-sum payment may not be added to a single month's compensation.

(c) Excess earnings limits must be applied to the calculation of the highest average compensation pursuant to 19-2-1005(2).

(4) "Motor carrier officer" means an employee of the department of transportation designated or appointed as a peace officer pursuant to 61-10-154 or 61-12-201.

(5) "Peace officer" or "state peace officer" means a person who by virtue of the person's employment with the state is vested by law with a duty to maintain public order or make

(2) A vested member who becomes disabled as a direct result of the member's service in the line of duty:

(a) before completing 20 years of membership service must receive a disability retirement benefit equal to one-half the member's highest average compensation; or

(b) after completing 20 years or more of membership service must receive a disability retirement benefit equal to 2.5% of the member's highest average compensation for each year of service credit.

19-8-712. Medical examination of disability retiree — cancellation of benefit. (1) The board, in its discretion, may require the recipient of a disability retirement benefit to undergo a medical examination. The examination must be made by a board-approved physician or surgeon at a place mutually agreed on by the board, the disabled member, and the physician or surgeon and at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the essential elements of the position held by the recipient when the recipient retired. If the board determines that the recipient is not incapacitated, the recipient's disability retirement benefit must be canceled when the recipient is offered a position under subsection (3) or when, if a position is available, the recipient cannot be reinstated under subsection (3) for reasons unrelated to the disability. If the recipient refuses to submit to a medical examination, the recipient's disability retirement benefit must be canceled when the recipient is notified of the determination of the board.

(2) If the board determines that a recipient of a disability retirement benefit should no longer be subject to medical review, the board may grant a service retirement status to the recipient without recalculating the recipient's monthly benefit. The board shall notify the recipient in writing as to the change in status. If the recipient disagrees with the board's determination, the recipient may file a written application with the board requesting that the

board reconsider its action. The request for reconsideration must be filed within 60 days after receipt of the notice of the status change.

(3) (a) Except as provided in subsection (3)(b), a recipient whose disability retirement benefit is canceled because the board has determined that the recipient is no longer incapacitated must be reinstated to the position held by the recipient immediately before the recipient's retirement or to a position in a comparable pay and benefit category within the recipient's capacity, whichever is first open. The fact that the recipient was retired for disability may not prejudice any right to reinstatement to duty that the recipient may have or claim to have.

(b) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement.

(4) The member's former employer may request a medical or psychological review as to the ability of the recipient to return to work as a peace officer. If the board's findings are upheld, the former employer shall pay the cost of the review.

(5) If a disabled member who is receiving a disability retirement benefit independently determines that the member is no longer disabled as that term is defined in 19-2-303 and returns to covered employment, the member shall immediately notify retirement system administrative staff so that the member's disability retirement benefit is canceled.

Part 8
Optional Forms of Benefit Payments

Part Cross-References

Management of benefit payments, Title 19, ch. 2, part 9.
Exemption from taxes and legal process — exceptions, 19-2-1004.

19-8-801. Optional forms of benefits — designation of contingent annuitant. (1) The retirement benefit of a member or the survivorship benefit of a designated beneficiary who so elects must be converted, in lieu of all other benefits under this chapter, into an optional retirement benefit that is the actuarial equivalent of the original benefit. If the member does not elect an optional retirement benefit pursuant to subsection (2), the member's retirement benefit is known as an option 1 benefit.

(2) An optional retirement benefit under this subsection (2) is initially payable during the member's or designated beneficiary's lifetime with a subsequent benefit, depending on the option selected, to a contingent annuitant as follows:

(a) option 2—a continuation of the optional retirement benefit after the death of the initial payee and payable during the lifetime of the named contingent annuitant. This option may be the chosen benefit only if the adjusted age difference between the member or designated beneficiary and the contingent annuitant, other than the member's or designated beneficiary's spouse, is 10 years or less. The adjusted age difference is either:

(i) the excess of the age of the member or designated beneficiary over the age of the nonspouse contingent annuitant based on their ages on their birthdays in a calendar year; or

(ii) if the member or designated beneficiary is under 70 years of age, the age difference determined in subsection (2)(a)(i) reduced by the number of years that the member or designated beneficiary is under 70 years of age on the member's or beneficiary's birthday in the calendar year that contains the benefit starting date.

(b) option 3—a continuation of one-half of the optional retirement benefit after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(c) option 4—a continuation of the optional retirement benefit to one or more contingent annuitants in the event of the initial payee's death before the end of a period certain, determined as follows:

(i) the period certain commences at the time that the initial payee first begins receiving the retirement benefit and is available as either:

(A) a 10-year period certain if the member retired at 75 years of age or younger; or

(B) a 20-year period certain if the member retired at 65 years of age or younger;

(ii) if there is more than one surviving contingent annuitant, each contingent annuitant must receive a proportion of the initial payee's benefit on a share-and-share-alike basis;

(iii) if all surviving contingent annuitants die prior to the end of the period certain and the last remaining contingent annuitant has failed to name a designated beneficiary, the remaining payments must be converted to an equivalent lump-sum amount and paid to the estate of the last surviving contingent annuitant.

(3) The member or the designated beneficiary who elects an optional retirement benefit under subsection (2) shall file a written application with the board prior to the first payment of the benefit. A contingent annuitant must be identified on the application.

(4) If the member or designated beneficiary or the named contingent annuitant dies before the first payment has been made under option 2 or 3, the election of the option is automatically canceled.

(5) If the member dies after terminating service and within 30 days after the date that the member's written application electing or changing an election of an optional retirement benefit under subsection (2) is received by the board, the election is void.

(6) After the member or designated beneficiary has received and accepted an initial retirement benefit payment, the member may not change the selected option except as provided in subsection (7).

(7) A retired member receiving an optional retirement benefit pursuant to subsection (2)(a) or (2)(b) may file a written application with the board to have the member's optional retirement benefit revert to the regular retirement benefit available at the time of the member's retirement if:

(a) the original contingent annuitant has died, in which case the optional benefit must revert effective on the first day of the month following the contingent annuitant's death; or

(b) the member's marriage to the original contingent annuitant has been dissolved and the original contingent annuitant has not been granted the right to receive the optional retirement benefit as part of a family law order, as defined in 19-2-907. The benefit must then revert effective on the first day of the month following receipt of the written application and verification that the family law order does not grant the optional benefit to the original contingent annuitant.

(8) A member who applies to revert under subsection (7) shall, at the time of the application, choose one of the following alternatives:

(a) revert to the member's original option 1 retirement benefit, increased by the amount of any adjustments received by the member since the effective date of the member's retirement;

(b) retain the same option 2 or option 3 originally selected but name a new contingent annuitant; or

(c) select a different option under subsection (2) and name a new contingent annuitant.

(9) If the member selects an alternative under subsection (8)(b) or (8)(c), the member's retirement benefit must be calculated based on the member's and the new contingent annuitant's ages at the time of the election.

(10) A written application pursuant to subsection (7) must be filed with the board within 18 months of the death of or dissolution of marriage to the contingent annuitant.

19-9-904. Termination of disability benefit. (1) The board, in its discretion, may require the recipient of a disability retirement benefit to undergo a medical examination. The examination must be made by a board-approved physician or surgeon at a place mutually agreed on by the board, the disabled member, and the physician or surgeon and at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the essential elements of the position held by the recipient when the recipient was retired. If an inactive member is determined by the board to be no longer disabled, the inactive member's disability retirement benefit must be canceled when the inactive member is offered a position under 19-9-905 or when, if a position is available, the former employee could not be reinstated under 19-9-905 for reasons unrelated to the disability. If the inactive member refuses to submit to a medical examination, the inactive member's disability retirement benefit must cease as of the date of the determination. The inactive member must be notified of the determination by the board. The board may review the status of an inactive member at any time.

(2) If a disabled member who is receiving a disability retirement benefit independently determines that the member is no longer disabled as that term is defined in 19-2-303 and returns to covered employment, the member shall immediately notify retirement system administrative staff so that the member's disability retirement benefit is canceled.

The board shall advise the employer that the disability retirement benefit has been canceled and that the member is eligible for reinstatement to duty. The fact that the member was retired for disability may not prejudice any right to reinstatement to duty that the member may have or claim to have.

(b) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement.

(2) The city may request a medical or psychological review as to the ability of the member to return to work as a police officer. If the board's findings are upheld, the city shall pay the costs of the review.

(3) If the inactive member again becomes an active member by returning to service with an employer within 30 days following receipt of notice under 19-9-904, the member must be considered to have been continuously employed during the term of the member's disability. If the inactive member fails to become an active member by returning to service with an employer within 30 days following receipt of the notice, the member's termination of service is considered to have occurred as of the member's disability retirement date and the retirement benefit, if any, to which the member becomes entitled on the member's service retirement date must be determined accordingly.

19-13-102. Purpose — application of prior law. (1) Because cities other than those of the first or second class currently have fire department relief associations, the legislature finds and declares that the law regarding these associations cannot be repealed. It is the express intention of the legislature to allow two separate and distinct retirement systems to exist. The first, which includes fire department relief associations, applies to cities other than those of the first or second class that wish to adopt it. The second, created by this chapter, applies to cities of the first or second class and those other cities that wish to adopt it. The purpose of the second system is to provide equity and security for retired firefighters who served cities of the first and second class and other cities electing to join the plan by creating a centrally administered system responsible for continuing all retirement payments from the assets of the system.

(2) Title 19, chapter 18, may not be applied in any way to a city operating under the plan created by this chapter except as otherwise provided.

History: En. Sec. 2, Ch. 566, L. 1981.

If a city of the first or second class is reduced to a city of the third class or a town under 7-1-4118, it shall continue to participate in the retirement system as long as it has retired firefighters or survivors eligible to receive retirement benefits.

(2) Firefighters hired by the Montana air national guard on or after October 1, 2001, or on or after the date of the execution of an agreement between the department of military affairs and the board, whichever is later, shall participate in the retirement system.

(3) (a) A city that is not covered under subsection (1) and that has full-paid firefighters covered by the public employees' retirement system and any rural fire district department with full-paid firefighters covered by the public employees' retirement system may elect to be covered under the retirement system as provided in 19-13-211.

(b) An election by a city fire department to be covered by the retirement system must be made through adoption of an ordinance stating that the governing body of the city agrees to be bound by the provisions of the retirement system.

(c) A similar election may be made by a rural fire district through adoption of a resolution stating that the governing body of the fire district agrees to be bound by the provisions of the retirement system.

(d) The ordinance or resolution must specify the effective date of the election. The provisions of the retirement system become applicable on the effective date specified in the adopted ordinance or resolution. A certified copy of the ordinance or resolution must be provided to the board.

(4) The following are the terms and conditions of an election to join the retirement system pursuant to subsection (3):

(a) Each firefighter employed by the fire department before the effective date of the election must be given 90 days from the effective date of the election to make an individual, one-time, irrevocable election to remain in the public employees' retirement system or to join the retirement system. Failure to make an election under this subsection (4)(a) must be considered an election to remain in the public employees' retirement system.

(b) Each firefighter employed by the fire department who is hired on or after the effective date of the election must be covered by the retirement system.

(c) A firefighter electing to join the retirement system may retain prior service in the public employees' retirement system or purchase the prior service and transfer that prior service to the retirement system as provided for in 19-2-715.

19-13-211. Election to join retirement system — transfer of assets. (1) Except for cities with only volunteer firefighters, a city other than one described in 19-13-210 may, after July 1, 1981, elect to join the retirement system by passing an ordinance stating the election and the consent of the city to be bound by the provisions of this retirement system. The fire department relief association of the city may pass a resolution to the same effect. Upon the enactment of the ordinance and passage of the resolution, the provisions of this retirement system become applicable to the city. Any city that enacts an election ordinance and in which the fire department relief association passes a resolution shall send certified copies to the board and shall, as soon as possible, deposit into the pension trust fund all cash and securities held by its fire department relief association. The value of the securities must be determined by the board.

(2) The board of trustees of the fire department relief association as of the effective date of the election shall certify the proportion, if any, of the funds of the association that represents the accumulated contributions of the active members and the relative shares of the members as of that date. Following the transfer of the cash and securities required by subsection (1) and the certification required by this subsection, the fire department relief association may conclude its affairs. The shares of the members must be charged to the employer and credited to the respective members in the retirement system and administered as if the contributions had been made during membership in the retirement system. Any excess of employer credits over charges under this section must be offset, with interest, against future required employer contributions. Any excess of employer charges over credits under this section are payable by the employer, with interest, on a basis determined by the procedure described in 19-13-213.

History: En. Sec. 8, Ch. 566, L. 1981; amd. Sec. 209, Ch. 265, L. 1993; Sec. 19-13-108, MCA 1991; redes. 19-13-211 by Code Commissioner, 1993.

19-13-212. Termination of participation in retirement system or reduction of employer contributions. (1) If an employer voluntarily terminates its participation in or contributions to the retirement system or significantly reduces the number of full-paid firefighters it employs to a degree that, in the board's opinion, inadequately funds the accrued or accruing benefits of retirement system members, the board shall request an actuarial valuation of the liabilities of the employer to the retirement system.

(2) Based on the actuarial valuation, the board may request and the employer shall pay annually the amount determined to be necessary to provide adequate funding for the liabilities of the employer and to cover the cost of the actuarial valuation to determine those liabilities. This amount must be in addition to any other contributions required by the retirement act.

(3) Six years after the actuarial investigation is conducted, an employer making payments as provided in subsection (2) may request the board to review the employer's funding status relative to the annual payments. As a result of the review, the board may adjust the payments.

History: En. Sec. 1, Ch. 468, L. 1983; amd. Sec. 210, Ch. 265, L. 1993; Sec. 19-13-110, MCA 1991; redes. 19-13-212 by Code Commissioner, 1993; amd. Sec. 3, Ch. 290, L. 2001; amd. Sec. 35, Ch. 195, L. 2017.

19-13-213. Excess unfunded liabilities of prior plans. (1) The legislature finds and declares that many cities operating under prior plans have excess and unfunded liabilities, and the liabilities cannot be amortized by the percentage contributions set forth in this chapter.

(2) The board shall, within 6 months after a city is granted membership in the retirement system, determine the excess and unfunded liability of the city's previous plan. If the board determines that the city has an excess and unfunded liability under a previous plan that is not funded by sums on deposit or funds available for deposit in the pension trust fund, the city shall pay an additional sum over a period of time to amortize the city's excess liability.

19-13-804. Medical examination of disability retiree — cancellation of benefit. (1) The board, in its discretion, may require the recipient of a disability retirement benefit to undergo a medical examination. The examination must be made by a board-approved physician or surgeon at a place mutually agreed on by the board, the disabled member, and the physician or surgeon and at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the essential elements of the position held by the recipient when the recipient retired.

(2) If the board determines that the recipient is not incapacitated, if the recipient refuses to submit to a medical examination, or if, when a position is available, the recipient cannot be reinstated under 19-13-805 for reasons unrelated to the disability, the recipient's disability retirement benefit must be canceled. The board shall notify the recipient of this determination and the cancellation of the recipient's benefit.

(3) The cancellation of a disability retirement benefit because a member is no longer incapacitated does not prejudice any right of the member to a service retirement benefit.

19-13-805. Reinstatement upon termination of benefit. (1) (a) Except as provided in subsection (1)(c), a member whose disability retirement benefit is canceled as provided in 19-13-804 must be reinstated to the position held by the member immediately before the member's retirement or to a position in a comparable pay and benefit category with duties within the member's capacity if an appropriate vacancy exists within the member's fire department. The board shall advise the employer that the disability retirement benefit has been canceled and that the inactive member is eligible for reinstatement to duty. The fact that the member was retired for disability may not prejudice any right to reinstatement to duty that the inactive member may have or claim to have.

(b) If an appropriate vacancy does not exist within an inactive member's fire department when the member's disability benefit is canceled under 19-13-804, the member's benefit must be reinstated until a vacancy occurs.

(c) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement.

(2) The employer may request a medical or psychological review as to the ability of the member to return to work as a firefighter. If the board's findings are upheld, the employer shall pay the costs of the review.

(3) If the inactive member again becomes an active member by returning to active work for an employer within 30 days following receipt of notice under 19-13-804, the member is considered to have been continuously employed during the term of the member's disability. If the inactive member fails to become an active member by returning to active work for an employer within 30 days following receipt of the notice, the member's termination of service is considered to have occurred as of the member's disability retirement date and the retirement benefit, if any, to which the member becomes entitled on the member's service retirement must be determined accordingly.

(4) If a disabled member who is receiving a disability retirement benefit independently determines that the member is no longer disabled as that term is defined in 19-2-303 and returns to covered employment, the member shall immediately notify retirement system administrative staff so that the member's disability retirement benefit is canceled.

19-17-106. Pension trust fund established — restrictions on use. (1) A pension trust fund is established and maintained for payment of claims and benefits provided under the Volunteer Firefighters' Compensation Act.

(2) The pension trust fund must be funded on an actuarially sound basis. For purposes of this subsection, "actuarially sound basis" means that contributions must be sufficient to pay the full actuarial cost of the fund. The full actuarial cost includes both the normal cost of providing benefits as they accrue in the future and the cost of amortizing unfunded liabilities over a scheduled period of no more than 30 years.

(3) Except as provided in this section, a member or an employee of the board or the board of investments may not:

(a) have any interest, direct or indirect, in the making of any investment or in the gains or profits accruing from the pension trust fund;

(b) directly or indirectly, for the member or employee or as an agent or partner of others, borrow from the pension trust fund or deposits;

(c) in any manner use the pension trust fund except to make current and necessary payments that are authorized by the board; or

(d) become an endorser or surety as to or in any manner an obligor for investments for the pension trust fund.

(4) The assets of the pension trust fund may not be used for or diverted to any purpose other than for the exclusive benefit of members, their surviving spouses, and their dependent children, for supplemental payments for qualified fire companies, and for paying the reasonable administrative expenses of administering this chapter.

(5) Upon the termination of the pension trust fund, the substantial reduction in the number of members that would constitute a partial termination of the pension trust fund, or the complete discontinuance of contributions to the pension trust fund, the pension benefit accrued to each member directly affected by the occurrence becomes fully vested and nonforfeitable to the extent that the benefit is funded.

History: En. Sec. 1, Ch. 175, L. 1995; amd. Sec. 91, Ch. 562, L. 1999; amd. Sec. 120, Ch. 99, L. 2001; amd. Sec. 6, Ch. 64, L. 2011.

19-17-107. Employment of actuary — annual investigation. (1) The board shall retain a competent actuary who is an enrolled member of the American academy of actuaries and who is familiar with public pension systems. The actuary is the technical adviser to the board on matters regarding the actuarial funding of the pension trust fund.

(2) The board shall require the actuary to make an annual actuarial valuation of the assets and liabilities of the pension trust fund. The actuarial valuation must include the sufficiency of the fund to pay full and partial benefits to members and benefit recipients and must include recommendations for any changes that should be made to those benefits or the contributions to the pension trust fund to ensure the actuarial soundness of the pension trust fund.

(3) The board shall require the actuary to conduct periodic actuarial experience studies of the pension trust fund and to recommend any changes in actuarial assumptions or tables based upon the studies.

History: En. Sec. 2, Ch. 175, L. 1995; amd. Sec. 33, Ch. 283, L. 2009.

19-17-108. Credit for service as volunteer firefighter — records. (1) The annual period of service that may be credited under this chapter is the fiscal year. A fractional part of a year may not count toward the service required for participation in this system. To be eligible to receive credit for any particular year, a volunteer firefighter shall serve throughout the entire fiscal year with a single fire company that is organized under Title 7, chapter 33, and continues to meet the requirements of 19-17-109.

(2) The years of service are cumulative and need not be continuous. Separate periods of service properly credited with different fire companies must be credited toward a member's eligibility for benefits.

(3) A volunteer firefighter may not receive credit for service during any fiscal year unless:

(a) during the fiscal year, the volunteer firefighter completes a minimum of 30 hours of training in firefighting duties as outlined in 19-17-105 under a formal program that has been formulated, supervised, and certified to the board by the chief or designated official of the fire company; and

(b) the volunteer firefighter's participation in the training program is documented in the fire company's records maintained pursuant to 19-17-111 by the chief or designated official.

History: En. Sec. 3, Ch. 175, L. 1995; amd. Sec. 92, Ch. 562, L. 1999; amd. Sec. 114, Ch. 429, L. 2003; amd. Sec. 1, Ch. 212, L. 2005; amd. Sec. 68, Ch. 329, L. 2005; amd. Sec. 27, Ch. 128, L. 2007; amd. Sec. 8, Ch. 64, L. 2011.

19-17-109. Eligible fire company. To be eligible to participate under this chapter, a fire company shall provide to the board documentation of the following:

(1) the fire company's name and mailing address;

(2) the name of the fire chief and designated official, if any;

(3) the portion of the fire district serviced by the fire company;

(4) that the area serviced is located in an unincorporated area;

(5) that the fire company maintains firefighting equipment that is in serviceable condition and owns, rents, or uses one or more buildings for the storage of the equipment. The equipment and buildings must be valued at $12,000 or more.

(6) that the fire company was properly established by a governing board. Documentation under this subsection (6) must consist of:

(a) a copy of the minutes of the meeting during which the governing board established the fire company; or

(b) if the meeting minutes are unavailable, a copy of its first filing with the county clerk pursuant to 7-33-2311.

History: En. Sec. 7, Ch. 64, L. 2011.

19-17-110. Allowable payments to volunteer firefighters. (1) Allowable payments to volunteer firefighters include:

(a) payments of money reimbursed for documented expenses; and

(b) an allowance, including a stipend or per diem, that may not exceed $3,000 in a calendar year.

(2) Compensation, as defined in 19-17-102, is not an allowable payment.

(3) Records of all payments and allowances must be maintained pursuant to 19-17-111.

(2) Records must be maintained according to the state of Montana general records retention schedules, as published by the secretary of state pursuant to Title 2, chapter 6, part 11.

History: En. Sec. 10, Ch. 64, L. 2011; amd. Sec. 46, Ch. 348, L. 2015.

19-17-112. Filing required reports — limitations. (1) The chief or designated official of each fire company that claims eligibility under this chapter shall, on or before September 1 of each year, file with the board an annual certificate, the current year's roster, and a membership card for each new member.

(2) (a) The annual certificate is a form reporting a fire company's membership eligibility for the previous fiscal year.

(b) The annual certificate must be completed on a form prescribed by the board and contain the date of organization of the fire company and the full name and date of birth of each member of the fire company who was a member for the entire fiscal year and who successfully completed 30 hours of training during the preceding fiscal year, as required by 19-17-108.

(c) The chief or designated official shall subscribe and verify that the fire company and members qualified under 19-17-108 and 19-17-109.

(d) The board shall maintain the certificate for the purpose of establishing service for members and eligibility for benefits.

(3) The roster must be signed by the fire chief or designated official, filed with the board, and contain information in writing that provides the names of the fire company, its date of organization, officers, and roll of active and inactive members for the current fiscal year. A roster may be updated to report new members but may not be retroactive.

(4) A membership form must be completed and filed with the board for each member who was a member on or before July 1, 2011, and for each new member who joins after July 1, 2011.

(5) The current fire chief shall file any late or amended annual certificates and the associated certified training records within 3 years of the original annual certificate due date. An annual certificate may be amended only once. The board shall consider and may approve filings up to 3 years after the original due date. Information provided to the board by the fire chief must be in accordance with the board's rules.

(6) The current fire chief may request to appear before the board for consideration of the request to file a late or amended annual certificate.

History: En. Sec. 11, Ch. 64, L. 2011; amd. Sec. 1, Ch. 96, L. 2013; amd. Sec. 28, Ch. 248, L. 2015; amd. Sec. 39, Ch. 195, L. 2017; amd. Sec. 18, Ch. 400, L. 2023.

19-17-113. Corrections, audits, and penalties. (1) If fraud or error results in a member, surviving spouse, or dependent child receiving more or less of a benefit than that to which the member, surviving spouse, or dependent child is entitled, then on the discovery of the error the board shall correct the credit for service and, if necessary, equitably adjust the payments.

(2) The board may require a fire company to furnish additional information concerning members in connection with an audit or a claim for benefits or service.

(3) Upon discovery of falsified information, the fire company shall submit any and all requested documentation to the board.

(4) A person required to make a statement or affidavit by this chapter who willfully falsifies the statement or affidavit or a person who files a false claim under this chapter is guilty of a misdemeanor and upon conviction shall be fined an amount not exceeding $1,000 or be imprisoned for a term not exceeding 1 year, or both.

(2) to a member who has become maimed or disabled for life in line of duty;

(3) to a member who has suffered injury in line of duty;

(4) to a member who has contracted sickness in line of duty;

(5) funeral expenses of a member;

(6) pensions to the surviving spouse, orphan, or orphans of a deceased member.

History: En. Sec. 7, Ch. 71, L. 1907; Sec. 3340, Rev. C. 1907; re-en. Sec. 5123, R.C.M. 1921; amd. Sec. 6, Ch. 58, L. 1927; re-en. Sec. 5123, R.C.M. 1935; amd. Sec. 3, Ch. 208, L. 1967; amd. 19-18-602. Service pension. (1) Each association shall pay, out of its disability and pension fund, a service pension to a member who elects to retire from active service after having completed 20 years or more of active duty and who has reached 50 years of age as a fully paid member of a paid or partly paid and partly volunteer fire department of the city or town in which the association was formed. The pension must be equal to one-half of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for the member's services as an active member of the fire department.

(2) Effective July 1, 1974, a member who completes 20 years of service and elects to serve additional years must receive the pension provided for in subsection (1) increased at the rate of 1% a year for each additional year of service completed, up to a maximum of 60% of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for services as an active member of the fire department. A member is not eligible to receive a service pension prior to attaining 50 years of age.

(3) (a) The monthly pension paid to members retiring on or after July 1, 1973, must be at least one-half the regular monthly salary, excluding overtime and payments in lieu of sick leave and annual leave, paid to a confirmed active firefighter of that city, as provided each year in the budget of that city. The monthly pension paid to a member retiring prior to July 1, 1974, must be at least $200.

(b) In the case of volunteer firefighters, the pension may be set by the board of trustees of the association, but may not exceed $225 a month, except that the pension may be set by the board of trustees of an association and a city at an amount not to exceed $300 a month if the association's fund is soundly funded as provided in 19-18-503.

(4) As of July 1, 1977, a member is not eligible to receive a service pension under this section unless the member is making a monthly contribution to the disability and pension fund, as required by 19-18-501, and is on active duty as a fully paid member of a fire department when the member reaches 50 years of age.

(5) A member of a pure volunteer fire department who has served 20 years or more as an active member of the fire department is entitled to the benefits provided for in this chapter regardless of age. A member of a pure volunteer fire department who has completed 10 years of service as an active member of the fire department but who is prevented from completing 20 years of service by dissolution or discontinuance of the member's volunteer fire department, personal relocation because of transfer or loss of employment, personal disability, or any other factor beyond the member's reasonable control may qualify for a partial or reduced pension in an amount and to the extent determined by the board of trustees of the association, regardless of age.

Sec. 1, Ch. 252, L. 2013.

19-18-603. Partial service pension. (1) A member of a fire department relief association is eligible to receive a partial service pension if the member:

(a) has completed at least 10 years of active duty as a fully paid member of a fire department but has not both completed 20 years of service and reached 50 years of age as an active firefighter;

(b) is permanently separated from service;
(c) does not qualify for a disability pension under 19-18-604; and
(d) does not receive a refund of the member's contributions under 19-18-502.

(2) The right to receive the pension vests upon the firefighter's permanent separation from service, but the payments may not commence until the date the firefighter would have both reached 50 years of age and completed 20 years of service as a member of a fire department had the member's active duty not been terminated.

(3) The pension must be paid out of the disability and pension fund and must consist of monthly payments in an amount equal to the number of years of the firefighter's service divided by the number of years of service the firefighter would have had if the firefighter had remained in active duty as a member of a fire department until the date the firefighter would have both reached 50 years of age and completed 20 years of service, multiplied by one-half of the sum last received by the firefighter as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for services as an active member of the fire department.

(4) If the firefighter dies after the firefighter is permanently separated from service and before the firefighter both reaches 50 years of age and would have completed 20 years of service as an active member of a fire department, the payments prescribed in subsection (3) must be made to the surviving spouse commencing on the date the firefighter would have both reached 50 years of age and completed 20 years of service as an active member of a fire department and terminating upon the surviving spouse's death or remarriage. If there is no surviving spouse or the surviving spouse dies or remarries and if the firefighter leaves one or more children who have not reached 18 years of age, the children must receive the payments until the youngest reaches 18 years of age.

(5) If the firefighter dies after both reaching 50 years of age and the date the firefighter would have completed 20 years of service as an active member of a fire department, the payments must be made to the surviving spouse or children as provided in subsection (4).

(6) The pension escalation provisions of 19-18-602 do not apply to pensions received under this section.

(3) The monthly pension paid to members must be at least one-half the regular monthly salary paid to a confirmed active firefighter of that city, as provided each year in the budget of that city. 19-18-605. Pensions to surviving spouses and children. (1) Each association shall pay, out of its disability and pension fund, a monthly pension to the surviving spouse or children of a deceased member of the association who on the date of death was an active member of the fire department in the city or town in which the association was formed, who had elected to retire from active service in the fire department and receive a service pension as provided for by 19-18-602, or who, prior to death, had suffered a sickness or injury and was receiving or was qualified to receive a disability pension as provided by 19-18-604. The pension must be equal to one-half of the last month's salary received as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, by the deceased member for services rendered as an active member of the fire department in the city or town in which the association was formed.

(2) If the deceased member completed 20 years of service and elected to serve additional years, the pension provided for in subsection (1) must be increased at the rate of 1% per year for each additional year of service completed, up to a maximum of 60% of the last month's salary received as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, by the deceased member for services as an active member of the fire department.

(3) The monthly pension paid to the surviving spouse or children of an active member or an active member who elects to retire must be at least one-half the regular monthly salary paid to a confirmed active firefighter of that city, as provided each year in the budget of that city. The monthly pension paid to the surviving spouse or children of an active member who died prior to July 1, 1974, or who elected to retire before July 1, 1974, must be at least $200. In the case of a volunteer firefighter, the pension paid to a surviving spouse or children may not exceed the amount provided for a service pension for a volunteer firefighter under 19-18-602(3).

(4) A pension may be paid to the surviving spouse only as long as the spouse remains unmarried. A surviving spouse is not entitled to a pension under this section if the marriage was entered into after the firefighter elected to retire from active service and began to receive a service pension as provided for by 19-18-602 or if the marriage was entered into after the firefighter qualified for and had begun to receive a disability pension as provided for by 19-18-604. The pension provided for in this section may not be paid to the children of deceased firefighters after they have attained 18 years of age.

General Provisions

19-19-101. Definition. Unless the context requires a different meaning, any reference to "municipality", "city", or "town" in this chapter includes those jurisdictions which, prior to the effective date of a county-municipal consolidation, were incorporated municipalities, subsequent districts created for urban law enforcement services, or the entire county included in the county-municipal consolidation.

History: En. 11-1839.1 by Sec. 1, Ch. 489, L. 1977; R.C.M. 1947, 11-1839.1; Sec. 19-10-101, MCA 1991; redes. 19-19-101 by Code Commissioner, 1993.

19-19-201. Local boards of trustees of funds. (1) Each city or town that has a police retirement fund must have a board of trustees of the fund, except as provided in subsection (4).

(2) A board of trustees existing under subsection (1) must consist of the mayor, clerk, and attorney of the city or town and two members from the active list of police officers of the city or town.

(3) The two trustees who are also police officers shall serve terms of 2 years. They must be selected by a majority vote of the members of the police department on the active list of the city or town. One must be selected each year between May 1 and May 10, so that their terms are staggered. Immediately after the selection has been made, a certificate of election must be certified to the city clerk by the presiding officer of the board and secretary of the meeting at which the selection was made.

(4) The board of trustees of the police retirement fund of a city that elects to participate in the municipal police officers' retirement system under 19-9-207 is abolished as of the time that the transfer of the cash and securities and the certification required by that section is completed. The functions of the board are transferred as of the date of the election to the public employees' retirement board, as provided in the Municipal Police Officers' Retirement Act.

19-20-303. Inactive membership — dormant membership status. (1) A nonvested or vested member's active membership in the retirement system terminates and the member becomes an inactive member when the member ceases to be employed in a position reportable to the retirement system.

(2) A vested member becomes an inactive member of the teachers' retirement system if the member becomes an active member of another retirement or pension system supported wholly or in part by the money of another government agency, except the federal social security retirement system, and the membership in the other retirement system would allow credit for the same employment service in both retirement systems. However, the member may not be excluded from active membership in the teachers' retirement system solely because the person is receiving or is eligible to receive retirement benefits from another retirement system.

(3) A vested inactive member must be transferred to dormant membership status if, by the member's required minimum distribution beginning date, the member cannot be located for involuntary retirement as described in 19-20-703(3) or has not taken one of the following actions:

(a) elect to terminate membership by withdrawing from the retirement system and taking a refund of the member's accumulated contributions under 19-20-603;

(b) apply to receive retirement benefits under part 8 or part 9 of this chapter; or

(c) return to active membership.

(4) A nonvested inactive member must be transferred to dormant membership status if the member fails to take one of the following actions within 7 years after becoming an inactive member:

(a) elect to terminate membership by withdrawing from the retirement system and taking a refund of the member's accumulated contributions under 19-20-603; or

(b) return to active membership.

(5) With respect to a member in dormant membership status:

(a) the retirement system shall no longer attempt to locate or contact the member or send communications or annual statements to the member; and

(b) the retirement system shall transfer the amount in the member's annuity savings account to the pension accumulation account and the amount may not be credited with additional interest while the member is in a dormant membership status.

(6) If a vested inactive member in dormant membership status takes an action described in subsection (3), the member is no longer in dormant membership status and the retirement system shall restore the member's account balance and credit the interest that would have been earned if the member had not been transferred to dormant status.

(7) If a nonvested inactive member in dormant membership status takes an action described in subsection (4), the member is no longer in dormant membership status and the retirement system shall restore the member's account balance and credit the interest that would have been earned if the member had not been transferred to dormant status.

(8) Nothing in this section affects the rights, benefits, obligations, or liabilities provided for under this chapter if a member dies in a dormant membership status.

19-20-305. Alternate payees — family law orders. (1) A participant in a retirement system may have the participant's rights modified or recognized by a family law order.

(2) For purposes of this section:

(a) "actuarially equivalent amount" means the portion of the participant's benefit transferred to an alternate payee and actuarially adjusted to provide a benefit payable for the alternate payee's lifetime;

(b) "alternate payee" means the former spouse of the member or retiree who is entitled to an actuarially equivalent amount or a fixed amount of the member's or retiree's retirement benefit;

(c) "family law order" means a certified copy of an order of a court with competent jurisdiction, on a form prescribed and provided by the retirement system, concerning spousal maintenance or marital property rights that includes a transfer of all or a portion of a participant's right to payments from the retirement system to an alternate payee in compliance with this section; and

(d) "participant" means a member or retiree of the retirement system.

(3) A family law order must identify an alternate payee by full name, current address, date of birth, current phone number, and social security number. An alternate payee's rights and interests granted in compliance with this section are not subject to assignment, execution, garnishment, attachment, or other process. An alternate payee's rights or interests may be modified only by a family law order amending the family law order that established the right or interest or by a full renunciation of the alternate payee's rights by the alternate payee.

(4) A family law order may not require:

(a) a type or form of benefit, option, or payment that is not available to the affected participant under the retirement system or that would require administration in a manner different from the administrative processes used by the retirement system for administration of retirement benefits in general; or

(b) an amount of payment greater than that available to a participant.

(5) (a) The service, disability, or survivor retirement benefit payments or withdrawals of member contributions may be apportioned to an alternate payee by directing payment of:

(i) an actuarially equivalent amount payable for the life of the alternate payee; or

(ii) a fixed amount, to be deducted from the participant's benefit, of no more than the amount payable to the participant. A fixed amount must be payable for a determinate period of time not greater than the life of the participant or the life of the benefit recipient under a retirement allowance elected pursuant to 19-20-702.

(b) (i) When a family law order directs payment of an actuarially equivalent amount payable to the alternate payee, either the amount of the participant's retirement benefit to be transferred to the alternate payee must be expressed as a percentage share of the retirement benefit payable to the participant or the percentage share must be readily determinable based on the factors provided in the family law order. The participant's benefit must be reduced by the amount determined under this subsection (5)(b)(i).

(ii) The amount payable to the alternate payee, calculated under subsection (5)(b)(i), must be actuarially adjusted to provide a benefit payable for the alternate payee's lifetime.

(iii) A copy of the alternate payee's birth certificate must be submitted with the family law order.

(6) If a participant elects to withdraw the accumulated contributions and forfeit all rights to service, disability, or survivor benefits, the alternate payee is entitled to a lump-sum payment up to the total fixed amount or equal to the percentage share of the participant's benefit transferred to the alternate payee as directed in the family law order.

(7) Retirement benefit adjustments for which a participant is eligible after retirement must be apportioned between the participant and the alternate payee receiving an actuarially equivalent amount in the same manner as determined under subsection (5)(b)(i).

(8) Payments of monthly benefits to the alternate payee must commence on the latest of the following dates:

(a) the date the participant begins receiving benefits; or

(b) the first day of the month following receipt of a certified family law order and approval of the family law order by the retirement system.

(9) The board may assess a participant or an alternate payee for all costs of reviewing and administering a family law order, including reasonable attorney fees. The board may adopt rules to implement this section.

(10) Each family law order establishing a final obligation concerning payments by the retirement system must contain a statement that the order is subject to review and approval by the board.

(11) If the participant retired on a disability retirement benefit and the benefit is subsequently canceled pursuant to 19-20-903 or 19-20-905, the alternate payee's payments also terminate. When the participant again qualifies for retirement benefits, the amount payable to the alternate payee must be recalculated pursuant to this section.

(12) (a) In every circumstance, an actuarially equivalent amount payable to an alternate payee must terminate upon the death of the alternate payee. The amount may not be devised, bequeathed, or otherwise transferred by the alternate payee.

(b) A family law order may expressly provide that a fixed amount payable to an alternate payee may be transferred upon the death of the alternate payee to a beneficiary designated by the alternate payee. If a family law order does not expressly authorize an alternate payee to designate a beneficiary or if there is no beneficiary designation on file with the retirement system at the time of the alternate payee's death, the fixed amount payable to the alternate payee reverts to the participant or to the joint annuitant or beneficiary of the participant. A fixed amount payable to an alternate payee may not be devised, bequeathed, or otherwise transferred by the alternate payee in any other manner.

(13) The retirement system shall give effect to a family law order in a manner that conforms with all other applicable law pertaining to the administration of the retirement system. A family law order may not be construed to provide rights or benefits to any person beyond those rights or benefits expressly provided by law.

19-20-306. Execution or withholding for support obligation. (1) Benefits in the retirement system are subject to execution and income withholding for the payment of a participant's support obligation.

(2) For purposes of this section:

(a) "Execution" means a warrant for distraint issued or a writ of execution obtained by the department of public health and human services when providing support enforcement services under Title IV-D of the Social Security Act.

(b) "Income withholding" means an income-withholding order issued under the provisions of Title 40, chapter 5, part 3 or 4, or an income-withholding order issued in another state as provided in 40-5-1046 through 40-5-1051.

(c) "Participant" means a member or an actual or potential beneficiary, survivor, or contingent annuitant of a retirement system designated pursuant to this chapter.

(d) "Support obligation" has the meaning provided in 40-5-403 for support order.

(3) The execution or income-withholding order may not require:

(a) a type or form of benefit, option, or payment not available to the affected participant under the retirement system; or

(b) an amount or duration of payment greater than that available to a participant under the retirement system.

(4) The execution or income-withholding order may only provide for payment as follows:

(a) Service retirement benefit payments or withdrawals of member contributions may be apportioned by directing payment of a percentage of the amount payable or payment of a fixed amount of no more than the amount payable to the participant.

(b) The maximum amount of disability or survivorship benefits that may be apportioned and paid under this section is the monthly benefit amount that would have been payable on the date of termination of service if the member had retired without disability or death.

(c) Retirement benefit adjustments for which a participant is eligible after retirement may be apportioned only if existing benefit payments are apportioned. The adjustments must be apportioned in the same ratio as existing benefit payments.

(d) Payments must be limited to the life of the appropriate participant. The duration of payments under this section may be further limited only to a specified maximum time or the life of a specified participant. Payments may also be limited to a specific amount per month if the number of payments is specified.

History: **En. Sec. 15, Ch. 552, L. 1997.**

19-20-307. Establishing independent contractor status. (1) (a) An individual working in a position reportable to the retirement system is presumed to be a common law employee of the employer and not an independent contractor.

(b) Until the status of an individual working in a position reportable to the retirement system is conclusively established to be that of an independent contractor, the individual must be reported to the retirement system as an active member or working retiree, as appropriate, not as an independent contractor.

(2) (a) An employer who asserts that an individual working in a position reportable to the retirement system is an independent contractor shall conclusively establish that the individual is an independent contractor and not a common law employee of the employer by:

(i) a written determination prepared by an attorney, an employment or human resources professional, or another individual who is qualified to make worker status determinations;

(ii) an order of a court of competent jurisdiction; or

(iii) internal revenue service form SS-8.

(b) (i) An individual making the determination must provide with their written determination their full name, professional designations, business name, business address, and business telephone number.

(ii) The written determination or order must comprehensively address the internal revenue service criteria related to the facts and circumstances of the specific worker in the specific position at issue and must provide a reasoned discussion of each criterion and its application to the specific facts and circumstances of the work and the position, not merely provide a conclusory statement of finding.

(iii) An independent contractor exemption certificate by the Montana department of labor and industry must meet all of the requirements of this subsection (2).

(3) Any costs incurred to conclusively establish the independent contractor status of an individual working in a position reportable to the retirement system, as specified in this section, must be the sole responsibility of the employer.

Part 4
Creditable Service

Part Cross-References

The Public Employees' Retirement Act — general provisions — service credit, Title 19, ch. 2, part 7.

19-20-401. Creditable service. (1) The creditable service of a member begins on the date of the member's employment in a capacity prescribed for eligibility in 19-20-302.

(2) Subject to 19-20-405, the creditable service of a member includes the following:

(a) each period of active membership service in a position reportable to the retirement system as described in 19-20-302 and credited as provided in this section;

(b) any creditable service awarded by the retirement board under 19-20-402 for out-of-state employment;

(c) any creditable service awarded by the retirement board under 19-20-403 for employment while on leave;

(d) any creditable service awarded by the retirement board under 19-20-404 for service in the military, the red cross, or the merchant marine;

(e) any creditable service awarded by the retirement board under 19-20-408 for employment in private schools;

(f) any creditable service awarded by the retirement board under 19-20-409 for service transferred after October 1, 1989, from the public employees' retirement system;

(g) any creditable service awarded by the retirement board under 19-20-410 for extension service employment;

(h) any creditable service awarded by the retirement board under 19-20-411 for absence because of employment-related injury; and

(i) any creditable service awarded by the retirement board under 19-20-426 for service provided under the university system retirement program.

(3) The retirement board's determination of creditable service under this section is final and conclusive for the purposes of the retirement system unless, at any time, the board discovers an error or fraud in the establishment of creditable service, in which case the board shall redetermine the creditable service.

(4) Creditable service may be awarded only for a period of membership service or purchased service for which all required contributions and interest, if applicable, have been paid.

(5) All accrued creditable service must be forfeited upon withdrawal from the retirement system and may not be reinstated unless the member redeposits the withdrawn contributions as set forth in 19-20-427.

(6) Creditable service must be awarded on the basis of a fiscal year beginning July 1 and ending June 30 regardless of the member's term of employment service or benefit accrual as established in an employment agreement, in an employer policy, or in another manner and regardless of the term of the employer's school year or fiscal year.

(7) Creditable service must be credited based on the full-time or part-time service of the member, as follows:

(a) Service provided over 7 or more hours in a day is a full-time day.

(b) Full-time service is service that is at least 180 days in a fiscal year, at least 140 hours a month during 9 months in a fiscal year, or full-time under an alternative school calendar adopted by a school board that is less than 180 days but meets minimum accreditation requirements of 1,080 hours.

(c) Part-time service is service that is less than full-time. Part-time creditable service must be calculated based on the total number of hours, days, or months reported to the retirement system in each fiscal year, divided by the number of hours, days, or months of equivalent full-time service.

(8) Creditable service and earned compensation credit must be awarded for extra duty service subject to the following:

(a) A member who is credited with full-time creditable service without consideration of the extra duty service may not be awarded additional creditable service for the extra duty service, and the extra duty compensation must be reported and credited as earned compensation to the member.

(b) A member who is credited with less than full-time creditable service without consideration of the extra duty service must be awarded additional creditable service and compensation credit for the extra duty service, and time worked must be reported and creditable service and compensation credit awarded as provided in subsection (8)(d).

(c) A member who is not employed in a position reportable to the retirement system other than to perform extra duty service must be awarded additional creditable service and compensation credit for the extra duty service, and time worked must be reported and creditable service and compensation credit awarded as provided in subsection (8)(d).

(d) (i) If the member is employed by the employer to perform service other than the extra duty service, whether or not in a position reportable to the retirement system, and is compensated for that service on an hourly or daily basis, the employer must report the actual number of hours or days worked in extra duty service with compensation at the hourly or daily rate of pay that the employee earns for service other than extra duty service. The compensation reported for extra duty service must include any increase in the rate of pay or total compensation required to be paid for overtime. Creditable service must be awarded on the basis of the actual time worked in extra duty service.

(ii) If the member is not employed by the employer to perform service other than the extra duty service and the extra duty service is compensated at an hourly or daily rate of pay, the employer must report the actual hours or days worked, the hourly or daily rate of pay, and the total compensation paid for the extra duty service. Creditable service must be awarded based on the actual time worked in extra duty service.

(iii) If the member is not employed by the employer to perform service other than the extra duty service and the extra duty service is compensated on a single fee or stipend basis:

(A) the employer must report the total fee or stipend paid for the extra duty service and must provide the retirement system with the employer's base rate of pay for an entry-level teacher for the fiscal year in which the extra duty service is provided; and

(B) creditable service must be awarded for the extra duty service based on the following calculations:

(I) the base rate of pay must be divided by 187 to determine a daily rate of pay;

(II) the total fee or stipend must be divided by the daily rate of pay to determine the number of days eligible for creditable service; and

(III) the number of days eligible for creditable service must be divided by 180 to determine the portion of a year to be credited as creditable service for the extra duty service.

(9) Creditable service may not be awarded in excess of full-time service for any period of time regardless of the amount of time actually worked in the time period. No more than 1 day of creditable service may be awarded for any calendar day, no more than 1 month of creditable service may be awarded for any calendar month, and no more than 1 year of creditable service may be awarded for any fiscal year. Service may not be carried over or otherwise reported for the accrual of creditable service in any month other than the month in which the service was actually performed.

(10) For a member completing only part-time service during the fiscal year of membership service on which a service purchase cost will be calculated, the member's compensation must be annualized to calculate the service purchase cost.

(11) A member may not purchase creditable service under this part after retirement benefit payments to the member have started, even if the member returns to active member status.

Sec. 3, Ch. 39, L. 2017.

19-20-402. Creditable service for employment in out-of-state public and federal schools. (1) (a) Subject to 19-20-405, a vested member who has completed 1 full year of active membership in the retirement system subsequent to the member's out-of-state service and contributes to the retirement system as provided in subsection (2) may receive creditable service in the retirement system for out-of-state service that would have been acceptable under the provisions of this chapter if the service had been performed in the state of Montana.

(b) If the member contributed to a public retirement plan, other than social security, while performing the out-of-state service, the member shall roll the member's contributions over into the retirement system or must receive a refund of the member's contributions for the service before purchasing service under this section.

(c) For the purpose of this section, out-of-state service means service performed:

(i) within the United States in a federal or other public school or institution; and

(ii) outside the United States in a federal or other public or private school or institution.

(2) (a) To purchase the service described in subsection (1)(c)(i), a member who became a member before July 1, 1989, shall contribute for each year of service to be purchased an amount equal to the combined employer and employee contribution for the member's first full year's salary earned in a position reportable to the retirement system after the member's out-of-state service, plus interest. The contribution rate must be the rate in effect at the time the member is eligible for the service.

(b) To purchase the service described in subsection (1)(c)(ii), a member who became a member before July 1, 1989, shall contribute for each year of service to be purchased an amount equal to the combined employer and employee contribution for the member's first full year's teaching salary earned in Montana after the member's out-of-state service or after the salary was reported to the system for the fiscal year beginning July 1, 1989, whichever date is later, plus interest. The contribution rate must be the rate in effect at the time the member is eligible to purchase the service or the rate in effect on July 1, 1989, whichever date is later.

(c) For each year of service to be credited under this section, a member who became a member on or after July 1, 1989, shall contribute the actuarial cost of the service based on the most recent valuation of the system.

(3) The interest on contributions required under subsection (2)(a) must be paid:

(a) if a written application to purchase service was signed prior to July 1, 2012, at the rate that the contributions would have earned had the contributions been in the member's account from the date the member was eligible to purchase the service; or

(b) if a written application to purchase service is signed on or after July 1, 2012, at the actuarially assumed interest rate in effect on the date the written application is signed.

(4) The contributions and interest required under subsection (2) may be made in a lump-sum payment or in installments as agreed between the member and the retirement board.

(5) The provisions of 19-20-405 apply to creditable service purchased under this section.

History: En. 75-6213 by Sec. 108, Ch. 5, L. 1971; amd. Sec. 3, Ch. 57, L. 1971; amd. Sec. 6, Ch. 507, L. 1973; amd. Sec. 4, Ch. 26, L. 1975; amd. Sec. 2, Ch. 151, L. 2011; amd. Sec. 13, Ch. 210, L. 2015.

19-20-403. Creditable service for employment while on leave. (1) (a) Subject to 19-20-405, a member who is eligible under subsection (1)(b) and who contributes to the retirement system as provided in subsection (2) may receive up to 2 years of creditable service for employment while on leave following a break in service.

(b) To be eligible to purchase the service, a member:

(i) must be vested in the retirement system;

(ii) must have been an active member prior to the leave; and

(iii) must have earned at least 1 full year of creditable service in active membership in the retirement system subsequent to the member's leave.

(2) (a) For each period of service to be credited, a member who became a member before July 1, 1989, shall contribute an amount equal to the combined employer and employee contributions for the member's first full year's salary earned in a position reportable to the retirement system after the member's return from leave, plus interest.

(b) For each period of service to be credited under this section, a member who became a member on or after July 1, 1989, shall contribute the actuarial cost of the service based on the most recent actuarial valuation of the system.

(c) The interest on contributions required under subsection (2)(a) must be paid:

(i) if a written application to purchase service was signed prior to July 1, 2012, at the rate that the contributions would have earned had the contributions been in the member's account from the date the member was eligible to purchase the service; or

(ii) if a written application to purchase service is signed on or after July 1, 2012, at the actuarially assumed interest rate in effect on the date the written application is signed.

(d) The contributions and interest may be made in a lump-sum payment or in installments as agreed between the member and the retirement board.

(3) Subject to 19-20-405, a member who is eligible under subsection (5) and who contributes to the retirement system as provided in subsection (6) may receive up to 2 years of creditable service for unpaid inservice leave.

(4) (a) To be eligible for purchase as inservice leave, the leave must be:

(i) a period of temporary absence from work in a position reportable to the retirement system, whether full leave or intermittent leave and whether the leave is provided solely at the discretion of the employer or is required to be provided pursuant to generally applicable state or federal law; and

(ii) unpaid. Inservice leave is unpaid to the extent that the employer is not compensating the member for the period of absence from work. If the inservice leave is intermittent leave or is partially paid full leave, the leave is unpaid to the extent that any compensation received for the day, week, or month that includes the leave is less than the amount of compensation the member would have earned but for the leave.

(b) Inservice leave does not include:

(i) a period of leave or other absence from work that is included as part of the member's regular term of employment, such as personal days, vacation leave, sick leave, summer break, or other nonwork days;

(ii) a period of time for which creditable service may be purchased or credited under any other section of this part;

(iii) a period designated as a leave of absence pursuant to an oral or written settlement agreement or other agreement between the member and the employer to resolve an employment dispute and resulting in:

(A) termination of the member's employment; or

(B) other circumstances in which the member and employer do not actually intend for the member to return to regular employment in the preleave position; or

(iv) a leave of absence after which the member does not actually return to regular employment in the preleave position.

(5) A member is eligible to purchase inservice leave if the member:

(a) was regularly employed by the preleave employer with a regular work schedule in a position reportable to the retirement system;

(b) remained either employed or in a job-attached status with the preleave employer with a definite date specified to return to work with the preleave employer; and

(c) returned to regular work with the preleave employer at the end of the inservice leave.

(6) (a) An eligible member may purchase inservice leave at any time after returning to regular work with the preleave employer in a position reportable to the retirement system, subject to the following:

(i) A service purchase agreement for the inservice leave must be established for all leave that may be purchased for a fiscal year following the end of that fiscal year.

(ii) The service must be purchased and will be credited beginning with the earliest date of the leave.

(iii) The amount of leave that may be purchased may not exceed the amount of time that the member would have worked but for the leave as specified in a written employment contract. If the member was not employed under a written employment contract, the amount of leave purchased may not result in the member receiving total creditable service in the fiscal year in which the service is being purchased that exceeds the amount of creditable service the member accrued in the last fiscal year preceding the inservice leave during which the member accrued membership service that did not include purchased service.

(b) To purchase inservice leave, the member shall contribute the actuarial cost of the service based on the most recent actuarial valuation of the system subject to the following:

(i) Upon completing the purchase, the member must receive earned compensation credit equal to the sum of any earned compensation reported by the employer plus the amount of compensation attributable to the purchased leave.

(ii) Failure to return for any reason to regular work in the preleave position on the specified return date or at the end of the inservice leave must be considered a break in service subject to the leave purchase requirements of subsections (1) and (2).

The member must be awarded creditable service for the number of years, not exceeding 2, that the retirement board determines to be creditable service if the member contributes to the retirement system an amount equal to the combined employer and employee contributions for the member's first full year's salary earned in a position reportable to the retirement system following the active service in the armed forces of the United States, the American red cross, or the merchant marine for each year of creditable service plus interest paid as follows:

(i) if a written application to purchase service is signed prior to July 1, 2012, at the rate the contribution would have earned had the contribution been in the member's account upon completion of 5 years of membership service in Montana; or

(ii) if a written application to purchase service is signed on or after July 1, 2012, at the actuarially assumed interest rate in effect on the date the written application is signed.

(c) Members may not receive credit for service as a student employed by a private elementary, secondary, or postsecondary educational institution.

(2) (a) For each year of service to be credited, a member who became a member before July 1, 1989, shall contribute to the retirement system an amount equal to the combined employer and employee contribution for the member's first full year's salary earned in a position reportable to the retirement system after becoming a member of the retirement system or after returning to the retirement system, whichever is later, plus interest. The contribution rate must be that rate in effect at the time the member is eligible to purchase the service.

(1) (a) An active member may at any time before retirement file a written application with the teachers' retirement system to transfer all of the member's service credit then on account with the public employees' retirement system to the teachers' retirement system if the following requirements are met:

(i) the member is eligible to withdraw from the public employees' retirement system; and

(ii) member and employer contributions are directly transferred from the public employees' retirement system to the teachers' retirement system as provided in subsections (1)(b) and (1)(c).

(b) The public employees' retirement system shall transfer employer contributions to the teachers' retirement system in an amount equal to 72% of the amount of member contributions and accrued interest to be transferred as provided in subsection (1)(c).

(c) The public employees' retirement system shall transfer member contributions to the teachers' retirement system in an amount equal to the total amount of the member's contributions then on account with the public employees' retirement system, plus all interest accrued on the member contributions from the date of deposit until the date the transfer is received by the teachers' retirement system. Interest must be based on the interest tables in use by the public employees' retirement system.

(ii) The transferred service credit must count toward vesting in a benefit with the teachers' retirement system. If, at the time of retirement, the member does not have sufficient years of membership service with the teachers' retirement system to calculate the members' average final compensation under plan terms, compensation must be credited to the period of transferred service credit necessary to calculate the member's average final compensation as provided in 19-20-805(4).

(iii) A member who transfers service from the public employees' retirement system in the teachers' retirement system must have completed 5 years of membership service in the teachers' retirement system to be eligible to receive creditable service pursuant to 19-20-402, 19-20-403, 19-20-404, 19-20-408, 19-20-410, or 19-20-426.

(i) the member had not previously retired under either retirement system;

(ii) the member was not vested in a benefit with either retirement system at the time of death;

(iii) the member's creditable service following transfer will entitle the beneficiary to receive a survivor benefit from the teachers' retirement system in the form of a monthly benefit payable for the beneficiary's lifetime;

(iv) at least one eligible beneficiary will elect the lifetime benefit;

(v) each beneficiary entitled to payment on behalf of the deceased member from either retirement system prior to transfer must be an individual and must also be a beneficiary entitled to payment on behalf of the deceased member from the other retirement system; and

(vi) the transfer of service credit from the public employees' retirement system must constitute a full withdrawal of the deceased member's service credit from the public employees' retirement system.

(b) Member and employer contributions must be transferred directly from the public employees' retirement system to the teachers' retirement system as provided in subsections (1)(b) and (1)(c).

(c) (i) On completion of the transfer, the teachers' retirement system shall credit the member with creditable service equal to the service credit that had been on account with the public employees' retirement system.

(ii) If the member does not have sufficient years of membership service with the teachers' retirement system to calculate the member's average final compensation under plan terms, compensation must be credited to the period of transferred service credit necessary to calculate the member's average final compensation as provided in 19-20-805(4).

(3) (a) If the teachers' retirement system determines that an individual's membership was erroneously classified and reported to the public employees' retirement system, the public employees' retirement system shall transfer to the teachers' retirement system the member's accumulated contributions and service, together with employer contributions plus interest.

(b) For the period of time that the employer contributions are held by the public employees' retirement system, interest paid on employer contributions transferred under this subsection (3) must be calculated at the short-term investment pool rate earned by the board of investments in the fiscal year preceding the transfer request.

(b) for each full year or portion of a year to be purchased pursuant to this subsection (4), the member contributes the actuarial cost of the service based on the most recent valuation of the system; and

(c) the member has withdrawn the member's money in the member's public employees' retirement system defined contribution plan account or has rolled over the amount required to purchase service in accordance with this subsection (4).

(5) Creditable service purchased under subsection (4) must be determined according to the laws and rules governing service credit in the public employees' retirement system.

(ii) the service involved instructional service at a unit of the Montana university system; and

(iii) the member received a refund of membership contributions under the civil service retirement system or the federal employees' retirement system for the service to be purchased.

(b) For each year of service to be purchased under subsection (1)(a), the member shall contribute to the retirement system an amount equal to the combined employer and employee contribution rate in effect at the time that the member is eligible to purchase the service multiplied by the member's first full year's salary earned in a position reportable to the retirement system subsequent to the member's extension service employment, plus interest paid as follows:

(i) if a written application to purchase service was signed prior to July 1, 2012, at the rate that the contribution would have earned had the contribution been in the member's account upon the member becoming vested; or

(2) In addition to service purchased under subsection (1) and subject to 19-20-407, a member who has purchased 5 years or more of creditable service in the retirement system may purchase additional years of cooperative extension service by contributing to the system the full actuarial cost of the service.

19-20-411. Absence because of employment-related injury. (1) Subject to the limitation in subsection (6), a member who is absent because of an injury entitling the member to workers' compensation payments may purchase as creditable service the time during which the member is absent. To purchase this service, a member shall contribute to the retirement system as provided in subsection (2) upon the member's return to contributing membership service.

(2) (a) A member who became a member before July 1, 1989, shall contribute an amount equal to:

(i) the contributions that the member would have made had the member not been absent, based on the member's compensation at the commencement of the absence;

(ii) the interest that begins to accrue 1 year from the date that the member returns to covered employment; and

(iii) the interest not paid by the employer under subsection (3).

(b) A member who became a member on or after July 1, 1989, shall pay the actuarial cost of the service based on the most recent valuation of the system.

(3) When a member elects to contribute under subsection (2)(a), the employer shall contribute an amount equal to the contributions that would have been made by the employer had the member not been absent, based on the member's compensation at the commencement of the absence. If the employer elects not to pay the interest, this amount must be paid by the employee.

(4) A member shall file with the retirement board a written notice of the member's intent to pay the contributions under subsection (2).

(5) Payment of the employee's contributions may be made in one sum at the time of filing the notice or in installments before termination of covered employment as agreed between the board and the member.

19-20-414. Payment methods for purchase of service credit. (1) An active or vested member who is eligible to purchase service under this chapter may at any time before retirement apply to purchase the service credit by making payment as provided in this section.

(2) Subject to subsection (3), service credit may be purchased by one or a combination of the following methods:

(a) a lump-sum payment;

(b) installment payments;

(c) direct rollover of eligible distributions from a retirement plan in section 402(c)(8)(B)(iii) or 402(c)(8)(B)(iv) of the Internal Revenue Code;

(d) rollover of a distribution from an individual retirement account or annuity described in section 408(a) or 408(b) of the Internal Revenue Code that is eligible to be rolled over and would otherwise be included in gross income;

(e) a direct trustee-to-trustee transfer from a governmental 457(b) deferred compensation plan or a 403(b) tax-sheltered annuity for permissive service credit, as defined in section 415(n) of the Internal Revenue Code.

(3) (a) The total amount transferred or rolled over to the retirement system pursuant to subsection (2) may not exceed the amount due to purchase the service.

(b) If, in the case of a transfer, the transferred account includes both tax-deferred and taxed amounts, the transferring agency shall identify the member's tax-deferred and taxed amounts at the time the transfer is made.

(4) To the extent permitted by section 401(a)(31) of the Internal Revenue Code and as limited by this section, the board shall accept a direct rollover of eligible distributions from another eligible retirement plan.

(5) If the member dies before having completed the payment required to purchase the service that the member had applied to purchase, the member's surviving spouse may, subject to the rules and regulations of the Internal Revenue Code, apply to complete the member's service purchase as provided in this section. The surviving spouse must apply to complete the payments and pay the balance due to the system prior to the distribution of benefits.

19-20-415. Procedure for purchase of service credit and pick up. (1) A member who wishes to redeposit, pursuant to 19-20-427, amounts previously withdrawn or who is eligible to purchase service credit pursuant to this part shall make the following series of elections to accomplish the redeposit or purchase:

(a) The member may elect a lump-sum payment, a series of installment payments, or a combination of lump-sum payments and installment payments.

(b) If a series of installment payments is elected by the member, the member may elect to pay the installments directly to the board or to have the installments paid by payroll deduction or the member may select a combination of both.

(c) With respect to installments payable by payroll deduction, if the member's employer has adopted the resolution described in subsection (2), the member shall complete the irrevocable written application to purchase service provided for in subsection (4). If the member's employer has not adopted the resolution, the member may elect only a revocable written application to purchase service.

(2) An employer may adopt a resolution to pick up and pay the member's elective contributions made pursuant to a binding, irrevocable written application. The contributions picked up by the employer must be payable from the same source as is used to pay compensation to the member. The resolution must contain the following statements:

(a) that the member contributions, even though designated as member contributions for state law purposes, are being paid by the employer in lieu of the contributions by the member; and

(b) that the member may not choose to receive the contributed amounts directly instead of having them paid by the employer to the system.

(3) (a) With respect to any member's elective contributions, the effective date of the employer pickup is the later of:

(i) the adoption of the employer's resolution; or

(ii) the date that the irrevocable written application is signed by both the member and the member's employer.

(b) The pickup does not apply to a contribution made before the effective date of the employer's resolution. A written application to purchase additional service that is in effect on the effective date of the employer's resolution is void, and the provisions of subsection (1) apply.

(4) The irrevocable written application to purchase service must be signed by the member and the member's employer and filed with the board. Subject to any maximum amounts or duration established by state or federal law, the irrevocable written application must specify:

(a) the amount of the deduction;

(b) the number of installments;

(c) the number of years and type of service that the member is purchasing; and

(d) that the contributions being picked up, although designated as member contributions, are being paid by the employer directly to the board in lieu of contributions by the member.

(5) The minimum duration of the installments required by subsection (4)(b) is 3 months, and the maximum duration is 5 years. The maximum number of years that may be purchased may not exceed the total number of years that the member is eligible to purchase.

(6) The irrevocable written application does not give the member the option of receiving the deduction amounts directly instead of having them paid by the employer to the system. A member may not prepay any amounts under a binding, irrevocable written application.

(7) If a member terminates or dies prior to completion of the installment payments, the binding, irrevocable written application expires and the board shall prorate the service credit purchased based upon the amount paid as of the date of termination or death. In the case of a termination, the member may make a lump-sum contribution for the balance of the service subject to the limitations of section 415 of the Internal Revenue Code. In the case of the member's death, the payment to purchase service may be made from the member's estate subject to the limitations of section 415 of the Internal Revenue Code.

19-20-416. Credit for legislative service required. (1) A legislator who did not elect to continue to participate in the system, as provided under 5-2-304, and who subsequently participates as a member must be awarded creditable service for legislative service if the legislator contributes an amount equal to the member contributions that would have been made if the legislator had elected membership plus interest paid as follows:

(a) if a written application to purchase service was signed prior to July 1, 2012, at the rate that the contributions would have earned if they had been on deposit with the retirement system; or

(b) if a written application to purchase service is signed on or after July 1, 2012, at the actuarially assumed interest rate in effect on the date the written application is signed.

(2) The employer contribution must be made by the legislative branch in the amount that would have been contributed if the legislator had elected membership plus interest at the rate that the contributions would have earned if they had been on deposit with the retirement system.

History: En. Sec. 10, Ch. 111, L. 1999; amd. Sec. 7, Ch. 151, L. 2011.

19-20-417. Credit for substitute teaching service, part-time teacher's aide service, paraprofessional service, or other service not reported. (1) A substitute teacher, part-time teacher's aide, or paraprofessional who has filed an irrevocable election not to participate in the retirement system for the first 210 hours of service under 19-20-302 and who later becomes an active member may be awarded creditable service for the 210 or more hours of service provided in the single fiscal year in which the 210-hour threshold results in the individual's active membership. To be awarded the creditable service, the member shall contribute the regular employee and employer contributions that would have been made if the member had elected membership from the first date of service in that fiscal year, plus interest at the current actuarial assumed rate of investment return.

(2) A person who was employed in a capacity that would have been eligible for membership except for the fact that the person was employed for less than 30 days and who subsequently becomes an active member within the same fiscal year may purchase the first 30 days of service if the member contributes the employee and employer contributions that would have been made if the person had been a member from the first date of service in that fiscal year, plus interest at the current actuarial assumed rate of investment return.

(3) If an employer fails to report a person who was eligible for membership under 19-20-302, the employee and employer shall make the contributions required by this chapter, plus interest at the current actuarial assumed rate of investment return.

(4) The contributions and interest may be made in a lump-sum payment or in installments as agreed to between the person and the board.

(5) Only one service purchase may be made by any member under subsection (1) or (2).

19-20-702. Optional allowances — joint and survivor annuity — period certain. (1) (a) Until the first payment on account of any benefit becomes normally due, any member may elect to receive one of the allowances described in subsection (2) or (3) in lieu of the normal form retirement allowance.

(b) Upon the retirement system's processing of a retired member's first monthly benefit payment, the member's benefit election and designation of a joint annuitant if the member elected a joint and survivor annuity allowance is irrevocable, except as provided in subsections (4) and (5).

(2) (a) A joint and survivor annuity optional allowance is the actuarial equivalent of the member's service retirement or disability retirement allowance at the time of the member's retirement effective date and provides an allowance payable to the member throughout the member's lifetime and, upon the member's death, an allowance payable to the joint annuitant in accordance with the option selected under subsection (2)(b).

(b) A member electing to receive a joint and survivor annuity optional allowance may select one of the following options:

(i) Option A—The optional allowance will be paid to the member throughout the member's lifetime and, upon the member's death, continue throughout the lifetime of the member's joint annuitant.

(ii) Option B—The optional allowance will be paid to the member throughout the member's lifetime, and upon the member's death, one-half of the optional allowance will continue throughout the lifetime of the member's joint annuitant.

(iii) Option C—The optional allowance will be paid to the member throughout the member's lifetime, and upon the member's death, two-thirds of the optional allowance will continue throughout the lifetime of the member's joint annuitant.

(c) The designation of a joint annuitant must be made in the form and manner prescribed by the retirement system and provide all requested information. The joint annuitant will receive both the continuing retirement allowance and the one-time death benefit provided in 19-20-1002(1)(a). The two benefits may not be allocated separately.

(d) Upon election of a joint and survivor optional allowance and designation of a joint annuitant, any prior or subsequent designation of a beneficiary by the retired member is void.

(3) (a) In lieu of any other option available in this section, a member may elect to receive one of the following period certain allowances that must be paid for the member's lifetime and then to the member's beneficiary as provided in 19-20-1002(3) for the remainder of the period certain if the member dies before receiving monthly benefit payments for the period certain:

(i) a 10-year period certain may be elected if the member is 75 years of age or younger at the time of retirement; or

(ii) a 10-year or 20-year period certain may be elected if the member is 65 years of age or younger at the time of retirement.

(b) Each month for which a benefit is paid is counted as part of the period certain.

(4) (a) Subject to subsection (7), upon written application to the retirement system, a retired member whose effective date of retirement is before October 1, 1993, and who is receiving a joint and survivor annuity optional retirement allowance may select a different actuarially equivalent optional allowance and designate a different joint annuitant if:

(i) the original joint annuitant has died. The benefit must convert to the normal form retirement allowance effective the first of the month following the death of the joint annuitant.

(ii) the member has been divorced from the original joint annuitant and the original joint annuitant has not been granted the right to receive any ongoing or future distribution of any portion of the retiree's benefits as part of the divorce settlement. The benefit must convert to the normal form retirement allowance effective the first of the month following receipt of a written application and verification that the original joint annuitant has not been granted the right to receive the optional retirement allowance as part of the divorce settlement.

(b) Upon receipt of the written application, the retirement system shall actuarially adjust the member's monthly retirement or disability allowance to reflect the change.

(5) Subject to subsection (7), upon written application to the retirement system, a retired member receiving a joint and survivor annuity optional retirement allowance pursuant to subsection (2)(b) that is effective on or after October 1, 1993, may select a different actuarially equivalent optional allowance and designate a different joint annuitant or to revert the optional retirement allowance to the normal form retirement allowance available at the time of retirement if:

(a) the original joint annuitant has died. The benefit must revert to the normal form retirement allowance effective the first of the month following the death of the original joint annuitant.

(b) the member has been divorced from the original joint annuitant and the original joint annuitant has not been granted the right to receive any ongoing or future distribution of any portion of the retiree's benefits as part of the divorce settlement. The benefit must revert to the normal form retirement allowance effective the first of the month following receipt of a written application and verification that the original joint annuitant has not been granted the right to receive the optional retirement allowance as part of the divorce settlement.

(6) The normal form retirement allowance available must be increased by the value of any postretirement adjustments received by the member since the effective date of retirement.

(7) A retired member filing an application to make a selection under subsection (4) or (5) shall file the application and all required supporting documentation to be received by the retirement system no later than the date that is 18 months after the date of the death of or divorce from the joint annuitant.

Compensation in excess of the limitations set forth in section 401(a)(17) of the Internal Revenue Code as adjusted for cost-of-living increases must be disregarded for individuals who are not eligible employees. The limitation on compensation for eligible employees may not be less than the amount that was allowed to be taken into account under this chapter on July 1, 1993. For the purposes of this section, an eligible employee is an individual who was a member in the retirement system prior to July 1, 1996. Any changes in the maximum limits under section 401(a)(17) of the Internal Revenue Code must be applied prospectively.

19-20-716. Termination pay. (1) If a member terminates and receives termination pay at the time of retirement, the member shall select, subject to subsections (4) and (5), one of the following options:

(a) Option 1—The member may use the total termination pay in the calculation of the member's average final compensation. The member and the employer shall pay contributions to the retirement system as determined by the board to adequately compensate the system for the additional retirement benefit. The contributions must be made at the time of termination.

(b) Option 2—The member may use a yearly amount of the total termination pay added to each of the consecutive years' salary used in the calculation of the member's average final compensation under 19-20-805. To determine the amount of termination pay used in the calculation of average final compensation, termination pay must be divided by the total number of years of creditable service to determine a yearly amount. The member and the employer shall pay contributions on the termination pay according to the rates provided for in 19-20-602, 19-20-605(1), 19-20-608, and 19-20-609. For the purposes of this subsection (1)(b), the employer shall also pay as a contribution an amount equal to the termination pay multiplied by the rate established in 19-20-607 that would have been payable by the state as a supplemental contribution. The contributions must be made at the time of termination.

(c) Option 3—The member may exclude the termination pay from the average final compensation. A contribution is not required of either the member or the employer.

(2) If a member signs a binding, irrevocable written election for either an option 1 or option 2 benefit at least 90 days prior to the member's termination date, the employee contributions

required by this section must be picked up by the employer. The binding, irrevocable written election required by this subsection (2) must be signed by both the member and the employer and must contain statements with regard to the contributions required to be made by the member under subsections (1)(a) and (1)(b) that:

(a) the contributions being picked up, although designated as member contributions, are being paid by the employer directly to the system in lieu of contributions by the member and that the picked up contributions are paid from the same source as compensation is paid;

(b) the member may not choose to directly receive the amounts deducted from the member's termination pay instead of having them paid by the employer to the system;

(c) the member may not prepay any portion of the contributions; and

(d) the effective date of the pickup is the date that the irrevocable written election is signed by both the member and employer. The effective date must be at least 90 days prior to the member's date of termination. The pickup does not apply to a contribution made before the effective date of the pickup.

(3) Pursuant to subsection (2), contributions required under subsection (1)(a) or (1)(b) must be:

(a) deducted from the portion of termination pay that:

(i) constitutes wages for the purposes of section 3121 of the Internal Revenue Code, determined without regard to the wage base limitation; and

(ii) can be included in the member's gross income for federal tax purposes; and

(b) picked up by the employer, except as provided in subsections (4) and (5).

(4) A member's contributions greater than the total amount of the member's termination pay may not be picked up by the employer and are subject to the limitations of section 415 of the Internal Revenue Code.

(5) If a member and the member's employer fail to sign the written election within the time period required in subsection (1), the member may contribute for the purposes specified in subsections (1)(a) and (1)(b) on all or any part of the termination pay received. A contribution made pursuant to this subsection may not be picked up by the employer and is subject to the limitations of section 415 of the Internal Revenue Code.

19-20-718. Maximum contribution limitation. (1) Notwithstanding any other provision of law to the contrary, the board may modify a request by a participant to make a contribution to the system required under part 4 or 6 of this chapter that would exceed the limits in section 415(c) or 415(n) of the Internal Revenue Code by using the following methods:

(a) The board may establish a periodic payment plan in order to avoid a contribution in excess of the limits of section 415(c) or 415(n) of the Internal Revenue Code.

(b) If the board's option in subsection (1)(a) will not avoid a contribution in excess of the limits in section 415(c) of the Internal Revenue Code, the board may direct the excess contribution to the qualified governmental excess benefit arrangement pursuant to section 415(m) of the Internal Revenue Code if a qualified governmental excess benefit arrangement has been established pursuant to 19-20-212.

(2) If the board's options in subsections (1)(a) and (1)(b) will not avoid a contribution in excess of the limits of section 415(c) of the Internal Revenue Code, the board shall reduce or refuse the contribution.

(3) The board shall use the provisions of section 415(n) of the Internal Revenue Code, as the provisions apply to a government plan, to facilitate member's service purchases. An eligible participant in a retirement plan, as defined by section 1526 of the Taxpayer Relief Act of 1997, 26 U.S.C. 415, may purchase service credit without regard to the limitations of section 415(c)(1) of the Internal Revenue Code under the Montana statutes in effect on August 5, 1997.

(4) (a) For the purpose of calculating the maximum contribution under section 415 of the Internal Revenue Code, the definitions of "compensation", "wages", and "salary" include the amount of any elective deferral, as defined in section 402(g) of the Internal Revenue Code, or

any contribution that is contributed or deferred by the employer at the election of the member and that is not includable in the gross income of the member by reason of section 125, 132(f), 403(b), or 457 of the Internal Revenue Code. Any changes in the maximum limits under section 415 of the Internal Revenue Code must be applied prospectively.

(b) For limitation years beginning after December 31, 2000, compensation must also include any elective amounts that are not able to be included in the gross income of the member by reason of section 132(f)(4) of the Internal Revenue Code.

(c) For limitation years beginning on and after September 1, 2009, compensation for the limitation year must also include compensation paid by the later of 2.5 months after a member's severance from employment or the end of the limitation year that includes the date of the member's severance from employment if:

(i) the payment is regular compensation for services during the member's regular working hours or compensation for services outside the member's regular working hours, such as overtime or shift differential, commissions, bonuses, or other similar payments, and absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer; or

(ii) the payment is for unused accrued sick, vacation, or other leave that the member would have been able to use if employment had continued.

(d) For limitation years beginning on or after September 1, 2009, a member's compensation for purposes of this section may not exceed the annual limit under section 401(a)(17) of the Internal Revenue Code.

(e) Beginning January 1, 2009, to the extent required by section 414(u)(12) of the Internal Revenue Code, 26 U.S.C. 414(u)(12), a member receiving from an employer differential wage payments as defined under section 3401(h)(2) of the Internal Revenue Code, 26 U.S.C. 3401(h)(2), must be treated as employed by that employer. The differential wage payments must be treated as compensation for purposes of applying the limits on annual additions under section 415(c) of the Internal Revenue Code, 26 U.S.C. 415(c). This provision must be applied to all similarly situated employees in an equivalent manner.

(2) On January 1 of each year, the retirement allowance payable to each tier two member or benefit recipient of a tier two member who is eligible under subsection (3) must be increased by the amount provided in either subsection (2)(a) or (2)(b) as follows:

(a) if the most recent actuarial valuation of the retirement system shows that retirement system liabilities are less than 90% funded, 0.5%; or

(b) if the most recent actuarial valuation of the retirement system shows that retirement system liabilities are at least 90% funded and the provision of the increase is not projected to cause the system's liabilities to be less than 85% funded, an amount greater than 0.5% but no more than 1.5%, as set by the retirement board.

(3) A benefit recipient is eligible for and must receive the annual benefit adjustment provided for in this section if at least 36 monthly retirement benefit payments have been made prior to January 1 of the year in which the adjustment is to be made.

(1) If a retired member returns to employment in a position covered by the retirement system and becomes an active contributing member, benefits must be suspended until the member terminates all employment and applies to have benefits reinstated.

(2) Upon termination and retirement of a previously retired member who was reinstated to active membership pursuant to 19-20-731 before July 1, 2009:

(a) if the member earned less than 1 year of creditable service, the original benefit and retirement option that the member was receiving at the time of suspension of benefits must be reinstated beginning either the first of the month following termination or on July 1 following the date on which the retired member was reemployed, whichever is later; or

(b) if the member earned 1 year or more of creditable service, retirement benefits must be recalculated under 19-20-804 if the member would qualify for a service retirement benefit under 19-20-801 or under 19-20-802 if the member is eligible for early retirement. The recalculated benefit must include the service credit accumulated at the time of the member's previous retirement, plus any service credit accumulated subsequent to reemployment. The recalculated benefit amount must be increased by the amount of any benefit enhancement received pursuant to 19-20-719 that the retired member was receiving when the member's benefits were suspended.

(i) at least 3 years of membership service following suspension of benefits, the member is entitled to resume receiving the suspended benefit in accordance with the retirement benefit option and joint annuitant previously selected, plus an additional benefit based upon the new creditable service and compensation earned. The second benefit must be calculated as provided under 19-20-804 if the member is eligible for a service retirement benefit or under 19-20-802 if the member is eligible for early retirement. The second benefit must be paid under the same retirement benefit option and with the same joint annuitant originally elected.

(ii) less than 3 years of membership service following suspension of benefits, the member is entitled to resume receiving the suspended benefit in accordance with the retirement benefit option previously selected, plus a refund of the employee contributions contributed after the member was reinstated to active service, plus interest.

(b) If a member dies during the period of reemployment following an initial retirement, the member must be considered as retiring on the day preceding the date of death and benefits must be determined according to the following:

(i) If the member elected the normal form benefit prior to reemployment, the member's designated beneficiary must receive an amount equal to the member's accumulated contributions on deposit.

(ii) If the member elected a retirement option pursuant to 19-20-702 prior to reemployment, the benefits due are payable in accordance with the terms of the original option elected and subsection (3).

Postretirement employment limitations — cancellation and recalculation of benefits, 19-20-731.

19-20-805. Calculation of average final compensation. (1) Except as limited by this section, average final compensation is calculated by averaging the earned compensation paid to:

(a) a tier one member in 3 consecutive fiscal years of full-time service that yields the highest average; or

(b) a tier two member in 5 consecutive fiscal years of full-time service that yields the highest average.

(2) (a) The earned compensation of a tier one member who retires under 19-20-802, 19-20-804, or 19-20-902 and has less than 3 consecutive years of full-time service during the 5 years immediately preceding the member's termination is the compensation that the member would have earned in the 3 years used to calculate average final compensation had the member's part-time service during the 5 years preceding termination been full-time service.

(b) The earned compensation of a tier two member who retires under 19-20-802, 19-20-804, or 19-20-902 and has less than 5 consecutive years of full-time service during the 7 years immediately preceding the member's termination is the compensation that the member would have earned in the 5 years used to calculate average final compensation had the member's part-time service during the 7 years preceding termination been full-time service.

(3) To determine the compensation that the member would have earned under subsection (2), the compensation reported must be divided by the part-time service credited to the member's account.

(4) (a) Subject to subsection (4)(b), if a member has transferred service from the public employees' retirement system as provided under 19-20-409 and does not have 3 consecutive years of full-time service if a tier one member or 5 consecutive years of full-time service if a tier two member reported to the teachers' retirement system, the member's average final compensation must be calculated as follows:

(i) if the member's part-time service credit in the public employees' retirement system plus the member's part-time service credit in the teachers' retirement system equals 1 year in any of the fiscal years used in determining average final compensation, then the member's annual salary for that fiscal year must be the member's salary as a member of the public employees' retirement system plus the member's salary as a member of the teachers' retirement system; or

(ii) if the member's part-time service credit in the public employees' retirement system plus the member's part-time service credit in the teachers' retirement system equals less than 1 year in any of the fiscal years used to determine average final compensation, then the member's part-time salary as a member of the public employees' retirement system plus the member's part-time salary as a member of the teachers' retirement system must be divided by the sum of the member's part-time teachers' retirement system service credit and the member's part-time public employees' retirement system service credit.

(b) Compensation reported to the public employees' retirement system used to calculate average final compensation must be adjusted to exclude any compensation that would be considered termination pay under this chapter.

(5) (a) The earned compensation reported in each year that is used to calculate the average final compensation may not be greater than 110% of the earned compensation for the next prior year of service reported to the teachers' retirement system. This limitation does not apply to an increase that results from movement on the employer's adopted salary matrix but does apply to an increase that results from additions to or adjustments of the employer's salary matrix or initial implementation of a salary matrix.

(b) Earned compensation in excess of the amount specified in subsection (5)(a) must be included in the calculation of average final compensation in the same manner as termination pay option 2 as provided in 19-20-716(1)(b).

19-20-810. Termination of employment — retired member status — certification of termination date. (1) A member shall terminate employment in all positions reportable to the retirement system to be eligible for service retirement under 19-20-801, early retirement under 19-20-802, disability retirement under 19-20-901, or withdrawal under 19-20-603.

(2) Except as provided in subsections (3) and (4), a member has terminated employment in a position reportable to the retirement system when the employment relationship with the employer has been fully and completely severed and all, if any, payments due upon termination of employment, including but not limited to payment of accrued sick and annual leave balances, have been paid to the member.

(3) (a) A member who has not attained normal retirement age has not terminated employment in a position reportable to the retirement system if the member and the employer have a prearranged agreement for postretirement service.

(b) For purposes of this subsection (3), a "prearranged agreement for postretirement service" means an oral or written agreement between a member and an employer made before the member attains retired member status for the member to provide service or perform work, in any capacity, on behalf of the employer in the future.

(4) A member has not terminated employment in a position reportable to the retirement system if the member provides any service or performs any work, in any capacity, on behalf of the employer after the certified date of termination but prior to attaining retired member status.

(5) A member must be in retired member status before the member is eligible to be employed as a working retiree pursuant to 19-20-731. Service provided by a member in a position reportable to the retirement system before the member attains retired member status is service provided as an active member, and the member shall terminate from the position to be eligible for retirement benefits.

(6) (a) A member attains retired member status when the member has terminated employment in all positions reportable to the retirement system and has actually received at least one monthly retirement benefit payment.

(b) A retired member who returns to active member status for any reason ceases to be in retired member status until the member again applies for a retirement benefit and actually receives at least one monthly retirement benefit payment.

(7) (a) Unless waived by the board, the member and the employer for each position from which the member is terminating or has terminated shall certify on a form provided by the retirement system the member's date of termination and whether there is a prearranged agreement for postretirement service.

(b) The certification obligation of the member and the employer is ongoing and must be immediately updated if the information previously provided was in error or has changed.

19-20-902. Allowance for disability retirement. (1) Upon retirement for disability, a member must receive a disability retirement allowance equal to the greater of:

(a) one-sixtieth of the member's average final compensation multiplied by the sum of the number of years of creditable service, including service transferred under 19-20-409; or

(b) one-fourth of the member's average final compensation.

(2) The earned compensation in the year of termination that is included in the calculation of average final compensation of a member who is awarded a disability retirement allowance prior to the completion of a full year is the compensation, pay, or salary that the member would have received under the member's contract had the member completed the full year. Any termination pay received by the member is limited to the amount actually paid and is not the amount that the member would have earned had the member completed the full year.

19-20-903. Medical examination of disability retiree. (1) Once each year during the first 5 years following the retirement of a member on a disability retirement allowance and once in every 3-year period afterward, the retirement board may require a disability benefit recipient who has not yet attained the age of 60 to undergo a medical examination by a physician, psychologist, or any other health care provider or other professional determined by the retirement board to be qualified, competent, and necessary to assist the board in making the disability determination. The examination must be made at the place of residence of the benefit recipient or other place mutually agreed on. Based on the examination, the board shall determine whether the disabled member is unable, by reason of physical or mental incapacity, to perform the essential elements of the position held by the member when the member retired. If the board determines that the member is not incapacitated, the member's retirement benefit must be canceled. If the member disagrees with the board's determination, the member may request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after the receipt of the notice of the status change.

(2) A member whose disability retirement benefit is canceled because the board has determined that the member is no longer incapacitated must be given preference by the member's former employer for the position held at the time of retirement or for a comparable position that becomes available within 1 year of cancellation of the disability retirement. The member may agree to accept an offer of employment by an employer. Employment in any capacity by an employer terminates any right granted by this section. The fact that the former employee was retired on disability may not prejudice any right to reinstatement to duty that the former employee may have or claim to have. This section does not affect any requirement for the former employee to meet or to be able to meet professional certification and licensing standards unrelated to the previous disability, otherwise necessary for reinstatement to duty.

(3) If a disability benefit recipient who has not yet attained the age of 60 refuses to submit to a medical examination as required in subsection (1), the recipient's allowance may be discontinued until withdrawal of the refusal. If a refusal continues for 1 year, all rights in and to a disability pension may be revoked by the retirement board.

19-20-904. Adjustment of allowance. (1) (a) Except as provided by subsection (1)(b), if a retiree receiving a disability retirement allowance is engaged in or is able to engage in a gainful occupation paying more than the difference between the retiree's retirement allowance and the retiree's average final compensation or the difference between the median average final compensation of those members retired during the preceding fiscal year and the retiree's retirement allowance, whichever is greater, the retirement allowance must be reduced to an amount that, together with the amount earnable by the retiree, is equal to the retiree's average final compensation or the median average final compensation of those members retired during the preceding fiscal year, whichever is greater.

(b) If a disabled retiree is reemployed with the same employer within 30 days from the member's effective date of retirement or if the retired member is guaranteed reemployment with the same employer, the member must be considered to have continued in the status of an active member and not to have separated from service. Any retirement allowance payments received by the member must be repaid to the system, together with interest, at the actuarially assumed rate, and the retirement benefit must be terminated.

(2) If the disabled retiree's earning capacity is changed later, the retirement allowance may be further modified, but the new allowance may not exceed the retirement allowance originally granted or an amount that, when added to the amount earnable by the retiree, equals the retiree's average final compensation.

(3) The board may, in its discretion, require a recipient of a disability retirement allowance to annually submit an earning statement and any documentation necessary to support the earnings of the recipient.

19-20-905. Cancellation of allowance and restoration of membership. (1) If a disabled retiree is employed in a position reportable to the retirement system and earns compensation in any calendar year in excess of the limitation provided in 19-20-904, the retiree's retirement allowance must cease and the retiree must again become an active member of the retirement system effective on the first day of the month following the month in which the earnings limitation was exceeded. At this point, the member is deemed to be no longer disabled.

(2) (a) Upon subsequent termination of employment in all teachers' retirement system reportable positions, a member who is then eligible based on age or service for either an early retirement allowance under 19-20-802 or a regular retirement allowance under 19-20-804 may immediately apply for a retirement allowance. Eligibility for retirement based on service is determined based on the creditable service credited to the member at the time of disability retirement excluding any creditable service enhancement applied pursuant to 19-20-902(1)(b). The retirement allowance payable upon subsequent retirement is the lesser of:

(i) the early or regular service retirement allowance the member is eligible to receive based on the creditable service and earned compensation credited to the member at the time of the member's disability retirement excluding any creditable service or earned compensation enhancement applied as provided in 19-20-902(1)(b), plus the additional creditable service and earned compensation credited to the member after the return to active member status; or

(ii) an amount equal to the disability retirement benefit received prior to the return to active member status plus a second benefit amount calculated based on the creditable service accrued and average earned compensation credited for all years of service during the return to active member status.

(b) Upon subsequent termination of employment in all teachers' retirement system reportable positions, a member who is not then eligible for an early or regular service retirement allowance under subsection (2)(a) shall wait to apply for a subsequent retirement allowance until eligible under subsection (2)(a) or may make a new application for a disability retirement allowance.

(c) A member who originally retired on a disability allowance and later returned to active member status may not make, and the member's subsequent retirement allowance may not be enhanced by, any permissive service purchase not used in the calculation of the member's original disability retirement allowance.

(b) if the deceased member was vested and was an active member in the retirement system within 1 year before the member's death, the eligible beneficiaries receiving a refund under subsection (1)(a) or a retirement allowance under subsection (2) are entitled to receive in equal shares a $500 lump-sum death benefit; and

(c) subject to 19-20-1009, the sum of $200 a month must be paid to each minor child of the deceased member until the child reaches 18 years of age.

The retirement allowance must be determined as prescribed in 19-20-804, without reference to 19-20-805(5)(a), in the same manner as if the member elected the option A joint and survivor annuity optional allowance provided for in 19-20-702(2).

(b) The effective date of the retirement allowance provided for in subsection (2)(a) is the earlier of:

(i) the first of the month following the date of death; or

(ii) the effective date of the member's retirement, as acknowledged in writing by the retirement system before the member's death.

(c) (i) If more than one eligible beneficiary elects to receive a retirement allowance, each is entitled to an equal share of the benefit.

(ii) In the event that all eligible beneficiaries who elected a retirement allowance die, the member's account balance, if any, will be paid out to the alternate beneficiary of the last surviving eligible beneficiary who elected a retirement allowance under subsection (2)(a).

19-20-1002. Payments on death of retiree. (1) In the event of the death of a retired member:

(a) a lump-sum death benefit of $500 is payable to the joint annuitant or in equal shares to the deceased retiree's eligible beneficiary or beneficiaries receiving benefits under either subsection (2), (3), or (4) and is in addition to those benefits or, if there is no continuing benefit payable, to the deceased retiree's designated or alternate beneficiary; and

(b) subject to 19-20-1009, the sum of $200 a month must be paid to each minor child of the deceased retiree until the child reaches 18 years of age.

(2) If the member was receiving a normal form retirement allowance, a lump-sum refund of the member's account balance, if any, must be paid to the eligible beneficiary or beneficiaries in equal shares.

(3) If the member was receiving a joint and survivor annuity optional retirement allowance:

(a) monthly benefits must continue to be paid to the joint annuitant; or

(b) if there is no surviving joint annuitant, a lump-sum refund of the member's account balance, if any, must be paid to the member's alternate beneficiary or beneficiaries in equal shares.

(4) If the retired member was receiving a 10-year or 20-year period certain retirement allowance, until the period has expired:

(a) if the eligible beneficiary is one or more individuals, the monthly benefits must continue to be paid to the eligible beneficiary or beneficiaries in equal shares. If there is more than one eligible beneficiary, upon the death of one eligible beneficiary, the benefit amount payable to the deceased beneficiary must be redistributed in equal shares to the surviving eligible beneficiaries. If all eligible beneficiaries die before the period has expired, a lump-sum amount actuarially determined to be the present value of all monthly benefits remaining to be paid over the period must be paid to the alternate beneficiary of the last surviving eligible beneficiary.

(b) if the eligible beneficiary is the deceased retiree's estate or trust, a lump-sum amount actuarially determined to be the present value of all monthly benefits remaining to be paid over the period must be paid to the eligible beneficiary.

(5) (a) Not including any minor child benefit of $200 a month payable under subsection (1)(b), if the only amount remaining payable on the account of a deceased retiree is the $500 death benefit and there are multiple individuals who are eligible designated or alternate beneficiaries to share in the $500 death benefit, any of the potential beneficiaries must be considered to have fully and irrevocably renounced their rights and interest to a share of the $500 death benefit when the following criteria are met:

(i) the retirement system is unable to identify or locate the individual;

(ii) if identified and located, the retirement system mailed notice of the beneficiary interest and required application materials to be completed and returned by the individual on two occasions at least 30 days apart and the individual failed to complete and return the required application materials to be received by the retirement system within 30 days of the second mailing by the retirement system;

(iii) at least one eligible beneficiary has completed and returned the required application materials to the retirement system;

(iv) at least 180 days has passed following the death of the retiree and, if required application materials were sent to the individual as described in subsection (5)(a)(ii), at least 30 days has passed since the date of the second mailing by the retirement system; and

(v) the retirement system has not received actual notice of formal or informal probate of the deceased retiree's estate.

(b) Any portion of the $500 death benefit may not be distributed until the total benefit can be distributed. The share of the $500 death benefit that would have been payable to a potential beneficiary considered to have renounced their interest under this provision must be distributed in equal shares to an eligible beneficiary who has been identified and located and who has completed and returned the required application materials. Distribution of the $500 death benefit to an eligible beneficiary is satisfaction in full of the retirement system's obligation for distribution of the $500 death benefit.

(c) This subsection (5) does not require the retirement system to distribute the $500 death benefit strictly within the timeframe specified or prohibit the retirement system from providing any additional process the retirement system believes to be reasonable and appropriate to identify, locate, and obtain required application materials from an eligible beneficiary.

(c) For the estate of the decedent to be an eligible beneficiary, the estate must:

(i) be in formal or informal probate at the time the distribution is to be made;

(ii) have a court-appointed personal representative; and

(iii) have a tax identification number.

(d) For a trust created by the decedent to be an eligible beneficiary, the trust at the time the distribution is to be made must:

(i) legally exist;

(ii) be irrevocable;

(iii) have a tax identification number.

(6) The eligible beneficiary or beneficiaries are determined at the time the first distribution is to be made by the retirement system as a result of the death of a decedent in the following order of priority to:

(a) one or more primary designated beneficiaries;

(b) one or more contingent designated beneficiaries; or

(c) one or more alternate beneficiaries.

(7) An individual who is a designated beneficiary may renounce the individual's beneficiary interest. A renunciation must be made of the beneficiary's entire interest. A partial renunciation

may not be made. A beneficiary who renounces the beneficiary's interest is deemed to have predeceased the designator.

19-20-1007. Requirements for beneficiary designation to be effective. (1) To be accepted as an effective beneficiary designation, the beneficiary designation record must:

(a) be made on a paper form or by an electronic process prescribed by the retirement system specifically for the designation of beneficiaries;

(b) if submitted electronically, include the certified digital signature of the member or, if submitted on a paper form, be signed by the member and notarized;

(c) specifically identify each eligible beneficiary intended to be designated as a beneficiary;

(d) include all required information and supporting documentation for each designated beneficiary;

(e) comply with all other stated requirements and limitations; and

(f) be submitted to the retirement system while the member is still alive.

(3) (a) The retirement system is not responsible for verifying beneficiary information provided by a designator.

(b) The retirement system may accept or decline a beneficiary designation record pending receipt of required supporting documentation. However, if the retirement system accepts a beneficiary designation record pending receipt of supporting documentation, the beneficiary designation is not effective unless the retirement system receives all required supporting documentation within the required timeframe.

(c) If multiple beneficiaries are designated on a beneficiary designation record and the retirement system accepts the beneficiary designation as effective but later determines that one or more of the beneficiaries was not effectively designated or is not an eligible beneficiary at the time payment is to be made, the beneficiary designation will remain in effect with the ineffectively designated or ineligible beneficiaries deemed to have predeceased the member.

History: **En. Sec. 16, Ch. 276, L. 2019.**

19-20-1008. Changes to beneficiary designations — limitations on changing spouse beneficiary interest. (1) Once accepted by the retirement system, a beneficiary designation may be changed only by the member submitting to the retirement system a new effective beneficiary designation record. No other action, process, or provision of law may invalidate, revoke, terminate, or otherwise modify the beneficiary designation record. Divorce, annulment, or other circumstances resulting in the termination of a valid or invalid marriage does not void the member's designation of the former spouse or purported spouse as a beneficiary.

(2) (a) Except as provided in subsection (3), a member may change the member's beneficiary designation at any time by filing with the retirement system a new beneficiary designation record.

(b) The new beneficiary designation must meet all requirements specified in 19-20-1007 to be effective.

(c) A new effective beneficiary designation invalidates all prior beneficiary designations.

(3) (a) A member may not reduce or revoke the beneficiary interest of a designated beneficiary identified as the member's spouse if a divorce is pending, except with a signed and notarized waiver of beneficiary interest made by the spouse or pursuant to an order of the court in which the divorce is pending.

(b) If a change resulting in a reduction or revocation of a spouse beneficiary's interest is made by the member, the member shall establish the member's right to reduce or revoke the spouse beneficiary's interest by completing a certification of marital status.

19-20-1009. Payment to minor child — opportunity to name custodian. (1) The retirement system may not make a payment directly to an individual who is less than 21 years of age.

(2) The retirement system shall make a payment to which a minor child is entitled by making the payment to an entity or adult designated as a custodian for the minor child pursuant to the Montana Uniform Transfers to Minors Act or to a person or entity designated by court order as legal guardian or conservator for the minor child.

(3) If a custodian for the child has not been designated, the retirement system shall withhold payment of any amount until the minor child attains 21 years of age or until a court order of guardianship or conservatorship is issued on behalf of the child.

Group Insurance

19-20-1101. Withholding of group insurance premium from retirement allowance. (1) A retired member who is a participant in an approved employer-sponsored group insurance plan may elect to have the monthly premium for the group insurance withheld from the member's retirement allowance by the retirement system. Premiums withheld must be paid directly to the sponsoring employer.

(2) Upon the death of a retired member, the joint annuitant or beneficiary, if eligible, may elect to continue to have the monthly insurance premium withheld from a monthly retirement benefit.

(3) Each month, using the retirement system's online employer reporting system, the employer shall commence withholding, cease withholding, or process any necessary adjustments to the premium amount on behalf of the benefit recipient, including verification that all authorized insurance deductions are correct.

(4) The employer shall notify the benefit recipient of any changes related to the premiums, including any changes to the premium amount, prior to the effective date of the change.

Part 12
Unpaid Contributions and Overpayments

19-20-1201. Definitions. As used in this part, the following definitions apply:

(1) "Amount owed" means the total amount of overpaid benefits or unpaid contributions plus accrued interest as provided in 19-20-1206 and costs and fees awarded as provided in 19-20-1214.

(2) "Benefit recipient" means a benefit recipient as defined in 19-20-101, an alternate payee, or any other person or entity that is entitled to a future payment or that received an overpayment on behalf of the member.

(3) "Error" means any of the following, whether or not intended, that has resulted in or may result in the retirement system paying more or less on behalf of a member than is authorized to be paid or in the retirement system receiving more or less in contributions than is required to be paid to the retirement system pursuant to plan terms:

(a) a clerical mistake;

(b) a failure to fully and correctly perform a required act or provide required information;

(c) an assertion or other representation of fact or circumstance that is not complete and accurate; or

(d) an incorrect understanding, construction, or application of plan terms or other applicable law or policy.

(4) "Overpaid benefits" or "overpayment" means the total amount of all monthly retirement benefits or other amounts paid by the retirement system on behalf of a member due to an error.

(5) "Unpaid contributions" means the total amount of all monthly contributions or other contribution amounts not received by the retirement system due to an error.

History: **En. Sec. 1, Ch. 210, L. 2015.**

19-20-1202. Correction of errors. The retirement system shall correct errors and, as far as practicable, shall:

(1) in the case of underpaid benefits, adjust future benefit payments so the actuarial equivalent of the benefit to which the member or benefit recipient is correctly entitled will be paid;

(2) in the case of overpaid contributions, refund the excess contributions;

(3) in the case of unpaid contributions, recover the amounts owed for unpaid contributions; and

(4) in the case of overpaid benefits, recover the amounts owed for overpayment.

History: En. Sec. 2, Ch. 210, L. 2015.

19-20-1203. Recovery of unpaid employer contributions. An amount owed for unpaid employer contributions must be paid to the retirement system by the employer and is not subject to reduction for any reason.

History: En. Sec. 3, Ch. 210, L. 2015.

19-20-1204. Recovery of unpaid employee contributions. (1) An amount owed for unpaid employee contributions must be paid to the retirement system by the employer if, at the time the contributions were due, the employer was legally required to pick up and remit the contributions to the retirement system on behalf of the member pursuant to 19-20-602(3)(a) and the unpaid contributions resulted from or were furthered by the employer's error.

(2) An amount owed for unpaid employee contributions not payable by the employer under subsection (1) must be paid to the retirement system by the member or benefit recipient.

History: En. Sec. 4, Ch. 210, L. 2015.

19-20-1205. Recovery of overpayments. (1) Subject to subsection (2), an amount owed to the retirement system for overpaid benefits must be recovered as follows:

(a) from any retirement benefit or other amount payable by the retirement system to a benefit recipient; or

(b) through repayment by a benefit recipient who received an overpayment or by the estate of the benefit recipient.

(2) If an overpayment resulted from or was furthered by an employer's error, the employer is jointly and severally liable for all amounts owed to the retirement system for the overpayment.

History: En. Sec. 5, Ch. 210, L. 2015.

19-20-1206. Interest on overpayments and unpaid contributions. (1) Except as provided in subsection (2), overpaid benefits and unpaid contributions accrue interest at the retirement system's actuarially assumed annual rate of return, compounded monthly. Interest accrues beginning on the date that the first erroneous payment was made or that the contributions were first due and continues to accrue until the amount owed to the retirement system is fully paid.

(2) If overpaid benefits or unpaid contributions resulted solely from an error made by the retirement system, the amount owed may not include interest.

History: En. Sec. 6, Ch. 210, L. 2015.

19-20-1207 through 19-20-1210 reserved.

19-20-1211. Notices required — initial notice — final staff determination. (1) (a) Before taking action to correct an error or recover overpaid benefits or unpaid contributions, the retirement system shall provide a written initial notice to any person or entity from whom the overpayment or unpaid contributions may be recovered.

(b) The initial notice must:

(i) specify the grounds for the retirement system's initial determination that an error has occurred;

(ii) specify, to the extent practicable, the amount owed for overpaid benefits or unpaid contributions;

(iii) identify additional documentation or information, if any, required to be provided to the retirement system for a final staff determination; and

(iv) provide an opportunity for the noticed party or parties to submit additional documentation or information they believe is relevant to the retirement system's determination.

(2) (a) Unless additional time is required for good cause, the retirement system shall issue a final staff determination within 180 days after the date the initial notice was issued.

(b) The final staff determination must specify the process required for a party to appeal the final staff determination to the retirement board.

(3) Notice provided pursuant to this section may be provided to multiple persons or entities as a standardized notice directed to multiple recipients.

History: En. Sec. 7, Ch. 210, L. 2015.

19-20-1212. Recovery methods. (1) The retirement system may use any or all of the following methods to recover amounts owed from a member or benefit recipient:

(a) accept a lump-sum payment;
(b) accept installment payments;
(c) accept a rollover payment from a member;
(d) actuarially adjust monthly benefit payments;
(e) withhold up to 50% of each monthly benefit payment;
(f) withhold up to 100% of a lump-sum distribution; or
(g) withhold up to 100% of the lump-sum death benefit payable under 19-20-1001(1)(b) or 19-20-1002(1)(a).

(2) For payment of amounts owed by an employer, the retirement system may use any or all of the following methods:

(a) adjust the amount of subsequent contributions due from the employer;
(b) accept installment payments; or
(c) accept a lump-sum payment.

History: En. Sec. 9, Ch. 210, L. 2015; amd. Sec. 20, Ch. 276, L. 2019.

19-20-1213. Retirement system's discretion — priority right to recover. (1) Nothing in this part is intended to prohibit retirement system staff from working informally with an employer, a member, or a benefit recipient to mutually resolve an error and recover amounts owed to the retirement system prior to the retirement system taking formal action as provided in this part.

(2) The retirement system has sole discretion to determine the most appropriate method for correcting errors and recovering amounts owed to it.

(3) The retirement system's right to recover amounts owed to it as set forth in this part does not prohibit the retirement system from pursuing any other remedy or penalty available to the retirement system.

(4) The retirement system's right to recover amounts owed to it has priority over the claim of any member, benefit recipient, or other individual or entity claiming an interest in any amount payable by the retirement system to or on behalf of the member.

History: En. Sec. 10, Ch. 210, L. 2015.

19-20-1214. Costs and fees for recovering amounts owed. (1) Unless an overpayment or unpaid contributions resulted solely from an error of the retirement system, in any contested case or other civil proceeding for correction of an error or recovery of an overpayment or unpaid contributions, the retirement system is entitled to the costs enumerated in 25-10-201 and to reasonable attorney fees if:

(a) the retirement system prevails in its claim or defense; and

(b) the court finds, upon judicial review, that the claim or defense of the other party that brought or defended the action was frivolous or was pursued in bad faith.

(2) If there are multiple parties adverse to the retirement system in a contested case, the parties are jointly and severally liable for the costs and fees awarded to the retirement system.

History: En. Sec. 11, Ch. 210, L. 2015.

19-20-1215. Statute of limitations. (1) If overpaid benefits or unpaid contributions resulted solely from an error made by the retirement system, the retirement system may recover amounts owed for overpayments or unpaid contributions only for benefits or other amounts actually paid by the retirement system or for contributions that were actually due in the timeframe beginning 24 months prior to the date on which the retirement system issues an initial notice and ending when all amounts owed for overpayments or unpaid contributions are fully paid.

(2) If overpaid benefits or unpaid contributions resulted solely or partially from an error made by an employer, a member, or a benefit recipient, the retirement system may recover all amounts owed for the overpayment or unpaid contributions beginning on the date that the first erroneous payment was made or that contributions were first due. The retirement system may not recover amounts owed under this subsection unless the retirement system issues an initial notice no later than 24 months after the date on which the last payment of a retirement benefit or other amount was made by the retirement system on behalf of the member.

(3) No other statute of limitations or legal or equitable defense to the application of a statute of limitations may be applied to shorten the timeframes in which or for which the retirement system may seek recovery of amounts owed for overpayments or unpaid contributions.

History: En. Sec. 8, Ch. 210, L. 2015.

The program may be an independent plan or part of a larger plan with respect to some or all of the benefits provided. The benefits under the program must be provided through individual annuity contracts, either fixed or variable, or a combination of contracts, issued to and owned by the participants in the program. The program must comply with applicable sections of the Internal Revenue Code.

19-21-103. Duties of board of regents. The board of regents shall:

(2) provide for the administration of the program;

(3) designate the company or companies from which the contracts are to be purchased and approve the form and content of the contracts, taking into consideration the:

(a) nature and extent of the rights and benefits to be provided by the contracts for participants and their beneficiaries;

(b) relationship of these rights and benefits to the amount of contributions to be made;

(c) suitability of these rights and benefits to the needs of the participants and the interests of the Montana university system in the recruitment and retention of administrative officers and members of the instructional and scientific staff; and

Part 2
Participation — Benefits

19-21-201. Participation in program. (1) Except as provided in this section, academic and professional administrative personnel with individual contracts under the authority of the board of regents are eligible for and may elect to participate in the program instead of the teachers' retirement system. This election must be exercised:

(a) before January 1, 1988, for an eligible person hired before July 1, 1987;

(b) within 90 days after entry into service or before January 1, 1988, whichever is later, for a person hired in an eligible position on or after July 1, 1987; and

(c) within 30 days after receiving written notice of eligibility or before January 1, 1988, whichever is later, for an employee who becomes eligible to participate in the program by reason of appointment, promotion, transfer, or reclassification to an eligible position.

(2) (a) An eligible person hired on or after July 1, 1993, shall become a member of the program unless the person is, on the date hired, an active, inactive, or retired member of a public retirement system created in Title 19, chapter 3 or 20.

(b) Except as provided in subsection (3), an eligible person hired who is a member of a public retirement system created in Title 19, chapter 3 or 20, shall elect to:

(i) remain with the retirement system of which the person is a member on the date hired, subject to subsection (7); or

(ii) become a member of the program.

(c) A person eligible to make an election under this subsection (2) shall exercise the election within 30 days of being hired.

(3) A person is ineligible to make an election under subsection (1) or (2) if the person previously elected to remain in the teachers' retirement system pursuant to subsection (1) or to

remain in the public employees' retirement system or the teachers' retirement system pursuant to subsection (2).

(4) An election under this section must be exercised by filing a written irrevocable election with the teachers' retirement system or the public employees' retirement system and the disbursing officer of the employer. The election is effective as of the date the notice is filed or January 1, 1988, whichever is later.

(5) If an eligible person fails to exercise an election under this section, the person shall remain or become a member of the teachers' retirement system or the public employees' retirement system.

(6) An election under this section is not effective unless the notice filed with the disbursing officer of the employer is accompanied by an appropriate application, if one is required, for the issuance of a contract or contracts under the program.

(7) Beginning July 1, 2017, if a person making an election under subsection (2)(b) is an active, inactive, or retired member of both the public employees' retirement system and the teachers' retirement system, the person may only elect, under subsection (2)(b)(i), to remain a member of the system to which the position is reportable under the regular participation criteria specified in 19-3-401 or 19-20-302.

History: **En. Sec. 3, Ch. 494, L. 1987; amd. Sec. 3, Ch. 178, L. 1993; amd. Sec. 37, Ch. 471, L. 1999; amd. Sec. 33, Ch. 490, L. 2001; amd. Sec. 1, Ch. 40, L. 2017.**

19-21-202. Effect on rights under teachers' retirement system. (1) An election under 19-21-201 to participate in the program is a waiver of all rights and benefits under the teachers' retirement system except as provided in this section.

(2) A member of the teachers' retirement system who elects to participate in the program is considered, for the purpose of determining eligibility for rights and benefits under that system, to be no longer employed in a capacity that allows active membership in that system as of the effective date of the election. Thereafter, the member is considered an inactive member of the system if qualified under 19-20-303, with the rights and privileges provided under 19-20-603.

(3) A person who elects to participate in the program is ineligible to be an active member of the teachers' retirement system while continuously employed in a position eligible to participate in the program.

History: **En. Sec. 4, Ch. 494, L. 1987; amd. Sec. 38, Ch. 471, L. 1999; amd. Sec. 35, Ch. 490, L. 2001; amd. Sec. 21, Ch. 276, L. 2019.**

19-21-203. Contributions — supplemental contributions. The following provisions apply to program participants not otherwise covered under 19-21-214:

(1) (a) Each program participant shall contribute an amount equal to the member's contribution required under 19-20-602.

(b) (i) Each month, the board of regents shall calculate an amount equal to 1% of each participant's earned compensation and total the amounts calculated.

(ii) The board of regents shall allocate and deposit to the account of each participant the amount calculated for that participant under subsection (1)(b)(i). The amounts allocated under this subsection (1)(b)(ii) to each participant whose wages or salary and benefits are paid from the current unrestricted subfund as described in 17-2-102 are statutorily appropriated, as provided in 17-7-502, to the board of regents from the general fund.

(c) The board of regents shall contribute an amount that, when added to the sum of the participant's contribution plus the contribution made under subsection (1)(b)(ii), is equal to 13% of the participant's earned compensation.

(2) (a) The board of regents may:

(i) reduce the participant's contribution rate established in subsection (1) to an amount not less than 6% of the participant's earned compensation; and

(ii) increase the employer's contribution rate to an amount not greater than 6% of the participant's earned compensation.

(b) Notwithstanding the supplemental contributions required under 19-20-604 and subsection (5) of this section, the sum of the participant's contributions made under subsection (1)(a), the state's contributions made under subsection (1)(b), and the employer's contributions made under subsection (1)(c) must remain at 13% of the participant's earned compensation.

(3) The board of regents shall determine whether the participant's contribution is to be made by salary reduction under section 403(b) of the Internal Revenue Code, 26 U.S.C. 403(b), as amended, or by employer pickup under section 414(h)(2) of that code, 26 U.S.C. 414(h)(2), as amended.

(4) The disbursing officer of the employer or other official designated by the board of regents shall pay both the participant's contribution and the appropriate portion of the board of regents' contribution to the designated company or companies for the benefit of the participant.

(5) The board of regents shall make the supplemental contributions to the teachers' retirement system, as provided in 19-20-621, to discharge the obligation incurred by the Montana university system for the past service liability incurred by active, inactive, and retired members of the teachers' retirement system.

19-50-102. Deferred compensation programs permitted — rules. (1) The state or a political subdivision may establish deferred compensation plans that are eligible under section 457 of the Internal Revenue Code, 26 U.S.C. 457, as amended, and in compliance with regulations of the U.S. department of the treasury. Eligible deferred compensation plans for employees may be established in addition to any retirement, pension, or other benefit plan administered by the state or a political subdivision.

(2) An employee may enter into a written agreement with the state or a political subdivision to defer a part of the employee's compensation to one or more of the investment options provided in subsection (4) for the purpose of investment as provided by this chapter. The total amount deferred may not exceed the employee's annual salary and may not exceed the amounts permitted under applicable sections of the Internal Revenue Code.

(3) Compensation deferred pursuant to this chapter is included as compensation for the purpose of computing retirement or pension benefits.

(4) The board or an appropriate officer of a political subdivision shall from time to time select the type of investment options and the financial institutions or entities in which state or political subdivision employee deferred compensation plan funds may be invested. The board or an appropriate officer of a political subdivision shall notify affected plan members of potential changes in investment options and financial institutions before the changes are made. The investment options and entities may include:

(a) a state deferred compensation investment fund established pursuant to Title 17 for the purpose of administering a state-invested deferred compensation plan. All contributions made by participants in the state deferred compensation investment fund and all interest or increase in the fund must be credited to the fund. These state-invested funds may be commingled with other state investment funds, but separate accounting must be maintained. The assets of the fund must be maintained for the benefit of participants and may not be diverted except for paying the reasonable expenses for administering the state deferred compensation investment fund.

(b) savings accounts in federally insured financial institutions;

(c) life insurance contracts and fixed annuity and variable annuity contracts from companies that are licensed to do business in the state and subject to regulation by the insurance commissioner;

(d) investment funds managed pursuant to investment services contracts maintained by the board or an appropriate officer of a political subdivision with investment managers registered with the United States securities and exchange commission, unless exempt from the commission's regulation;

(e) mutual funds provided through contracts maintained by the board or an appropriate officer of a political subdivision with mutual fund companies regulated by the United States securities and exchange commission, unless exempt from the commission's regulation; or

(f) a combination of the items in subsections (4)(a) through (4)(e).

(5) The deferred compensation plan funds invested pursuant to this section and the income from those funds must be held in a trust, custodial account, or insurance contract for the exclusive benefit of participants and their beneficiaries.

(6) The administrator may allocate any necessary costs against the assets and interest earnings accumulated in funds, accounts, or contracts established under this chapter.

(2) Except as provided in subsection (3), any sum deferred under the deferred compensation program is not subject to taxation until distribution is actually made to the participant or the participant's beneficiary because of severance from employment, retirement, or unforeseeable emergency.

(3) Effective July 1, 2013, any deferred compensation program established under this chapter may include Roth accounts and accept Roth deferrals pursuant to section 402A of the Internal Revenue Code, 26 U.S.C. 402A. The Interstate Compact on Educational Opportunity for Military Children is enacted into law and entered into with all other jurisdictions joining in the compact in the form substantially as follows:

(c) facilitating the qualification and eligibility for enrollment, educational programs, and participation in extracurricular academic, athletic, and social activities;

(c) veterans of the uniformed services, except as provided in subsection (1); and

(d) other U.S. department of defense personnel and other federal agency civilian and contract employees not defined as active duty members of the uniformed services.

ARTICLE IV
EDUCATIONAL RECORDS AND ENROLLMENT

(1) In the event that official education records cannot be released to the parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial educational records from a local education facility,

as defined by federal law, containing uniform information as determined by the Interstate Commission. Upon receipt of the unofficial education records by a school in the receiving state, the school shall enroll and appropriately place the student based on the information provided in the unofficial records, pending validation by the official records, as quickly as possible.

(2) Simultaneous with the enrollment and conditional placement of the student, the school in the receiving state shall request the student's official education record from the school in the sending state. Upon receipt of this request, the school in the sending state shall process and furnish the official education records to the school in the receiving state within 10 days or within a time that is reasonably determined under the rules promulgated by the Interstate Commission.

(3) Receiving states shall give 30 days from the date of enrollment or a time as is reasonably determined under the rules promulgated by the Interstate Commission for students to obtain any immunizations required by the receiving state. For a series of immunizations, initial vaccinations must be obtained within 30 days or within a time that is reasonably determined under the rules promulgated by the Interstate Commission.

(4) Students must be allowed to continue their enrollment at grade level in the receiving state commensurate with their grade level, including kindergarten, from a local education agency in the sending state at the time of transition regardless of age. A student that has satisfactorily completed the prerequisite grade level in the local education agency in the sending state must be eligible for enrollment in the next highest grade level in the receiving state regardless of age. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state on the student's validated level from a school in the sending state.

ARTICLE V
PLACEMENT AND ATTENDANCE

(1) When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school, educational assessments conducted at the school in the sending state, or both, if the courses are offered and space is available. Course placement includes but is not limited to honors, international baccalaureate, advanced placement, and vocational, technical, and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the courses.

(2) The receiving state school shall initially honor placement of the student in educational programs based on space availability and current educational assessments conducted at the school in the sending state or participation or placement in like programs in the sending state. Such programs include but are not limited to gifted and talented programs. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student. This section does not require a local education agency to create programs or offer services that were not in place prior to the enrollment of the student unless the programs or services are required by federal or state law.

(3) (a) In compliance with the federal requirements of the Individuals with Disabilities Education Act, 20 U.S.C. 1400, et seq., the receiving state shall initially provide comparable services to a student with disabilities based on the student's current individualized education program.

(b) In compliance with the requirements of section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 794, and with Title II of the Americans with Disabilities Act of 1990, 42 U.S.C. 12131 through 12165, the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

(4) Local education agency administrative officials have flexibility in waiving course or program prerequisites or other preconditions for placement in courses or programs offered under the jurisdiction of the local education agency.

(5) A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat support posting must be granted additional excused absences at the discretion of the local education agency superintendent to visit with the student's parent or legal guardian relative to the leave or deployment of the parent or guardian.

ARTICLE VI
ELIGIBILITY

(1) A special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law, is sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

(2) A local education agency is prohibited from charging local tuition to a transitioning military child placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

(3) A transitioning military child, placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent may continue to attend the school in which the child was enrolled while residing with the custodial parent.

(4) State and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

ARTICLE VII
GRADUATION

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall incorporate the following procedures:

(1) Local education agency administrative officials shall waive specific courses required for graduation if similar course work has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. If a waiver is not granted to a student who would qualify to graduate from the sending state, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

(2) (a) In lieu of testing requirements for graduation in the receiving state, states shall accept:

(i) exit or end-of-course exams required for graduation from the sending state;

(ii) national norm-referenced achievement tests; or

(iii) alternative testing.

(b) In the event that the above alternatives cannot be accommodated by the receiving state for a student transferring to the school during the student's senior year, the provisions of subsection (3) of this article apply.

(3) If a military student transferring at the beginning of or during the student's senior year is ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with subsections (1) and (2) of this article.

ARTICLE VIII
STATE COORDINATION

(1) Each member state shall, through the creation of a state council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the state's participation in and compliance with this compact and Interstate Commission activities. While each member state may

determine the membership of its own state council, its membership must, at a minimum, include the state superintendent of public instruction, a superintendent of a school district with a high concentration of military children, a representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups that the state council considers appropriate.

(2) The state council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

(3) The compact commissioner responsible for the administration and management of the state's participation in the compact must be appointed by the governor or as otherwise determined by each member state.

(4) The compact commissioner and the military family education liaison designated herein are ex-officio members of the state council unless either is already a full voting member of the state council.

ARTICLE IX
INTERSTATE COMMISSION ON EDUCATIONAL OPPORTUNITY FOR MILITARY CHILDREN

The member states hereby create the Interstate Commission on Educational Opportunity for Military Children. The activities of the Interstate Commission are the formation of public policy and are a discretionary state function.

(1) The Interstate Commission is a body corporate and joint agency of the member states and has all the responsibilities, powers, and duties set forth herein and additional powers that may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

(2) (a) The Interstate Commission consists of one voting representative from each member state who is that state's compact commissioner.

(b) Each member state represented at a meeting of the Interstate Commission is entitled to one vote.

(c) A majority of the total member states constitute a quorum for the transaction of business unless a larger quorum is required by the bylaws of the Interstate Commission.

(d) A representative may not delegate a vote to another member state. In the event that the compact commissioner is unable to attend a meeting of the Interstate Commission, the governor or state council may delegate voting authority to another person from the state for a specified meeting.

(e) The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

(3) The Interstate Commission consists of ex-officio, nonvoting representatives who are members of interested organizations. The ex-officio members, as defined in the bylaws, may include but may not be limited to members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. department of defense, the education commission of the states, the Interstate Agreement on the Qualification of Educational Personnel, and other interstate compacts affecting the education of children of military members.

(5) The Interstate Commission shall establish an executive committee, whose members must include the officers of the Interstate Commission and any other members of the Interstate Commission as determined by the bylaws. Members of the executive committee shall serve 1-year terms. Members of the executive committee are entitled to one vote each. The executive committee has the power to act on behalf of the Interstate Commission, with the exception of rulemaking, during periods when the Interstate Commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact, including enforcement and compliance with the provisions of the compact and its bylaws and rules and other duties considered necessary. The U.S. department of defense shall serve as an ex-officio, nonvoting member of the executive committee.

(6) The Interstate Commission shall establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

(7) Public notice must be given by the Interstate Commission of all meetings, and all meetings must be open to the public except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting or portion thereof if it determines by a two-thirds vote that an open meeting would be likely to:

(a) relate solely to the Interstate Commission's internal personnel;

(b) disclose matters specifically exempted from disclosure by federal and state statute;

(c) disclose trade secrets or commercial or financial information that is privileged or confidential;

(d) involve accusing a person of a crime or formally censuring a person;

(e) disclose information of a personal nature when disclosure would constitute a clearly unwarranted invasion of personal privacy;

(f) disclose investigative records compiled for law enforcement purposes; or

(g) specifically relate to the Interstate Commission's participation in a civil action or other legal proceeding.

(8) For a meeting or portion of a meeting closed pursuant to this provision, the Interstate Commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exemptible provision. The Interstate Commission shall keep minutes, which shall fully and clearly describe all matters discussed in a meeting, and shall provide a full and accurate summary of actions taken and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action must be identified in the minutes. All minutes and documents of a closed meeting must remain under seal, subject to release by a majority vote of the Interstate Commission.

(9) The Interstate Commission shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules, which shall specify the data to be collected, the means of collection, and data exchange and reporting requirements. The methods of data collection, exchange, and reporting must, in so far as is reasonably possible, conform to current technology, and the Interstate Commission shall coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

(10) The Interstate Commission shall create a process that permits military officials, education officials, and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section may not be construed to create a private right of action against the Interstate Commission, any member state, or any local education agency.

ARTICLE X

(b) establishing an executive committee and other committees as may be necessary;

(c) providing for the establishment of committees and for governing any general or specific delegation of authority or function of the Interstate Commission;

(d) providing reasonable procedures for calling and conducting meetings of the Interstate Commission and ensuring reasonable notice of each meeting;

(e) establishing the titles and responsibilities of the officers and staff of the Interstate Commission;

(f) providing a mechanism for concluding the operations of the Interstate Commission and the return of surplus funds that may exist upon the termination of the compact after the payment and reserving of all of its debts and obligations;

(g) providing startup rules for initial administration of the compact.

(2) The Interstate Commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice chairperson, and a treasurer, each of whom has authority and duties as specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice chairperson, shall preside at all meetings of the Interstate Commission. The officers shall serve without compensation or remuneration from the Interstate Commission. However, subject to the availability of budgeted funds, the officers must be reimbursed for ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the Interstate Commission.

(3) The executive committee has authority and duties as set forth in the bylaws, including but not limited to:

(a) managing the affairs of the Interstate Commission in a manner consistent with the bylaws and purposes of the Interstate Commission;

(b) overseeing an organizational structure and appropriate procedures for the Interstate Commission to provide for the creation of rules, operating procedures, and administrative and technical support functions; and

(c) planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the Interstate Commission.

(4) The executive committee may, subject to the approval of the Interstate Commission, appoint or retain an executive director for a period, upon terms and conditions, and for compensation as the Interstate Commission considers appropriate. The executive director shall serve as secretary to the Interstate Commission, but may not be a member of the Interstate Commission. The executive director shall hire and supervise other persons as authorized by the Interstate Commission.

(5) The Interstate Commission's executive director and its employees are immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred or that the person had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities. However, that person is not protected from suit or liability for damage, loss, injury, or liability caused by the person's intentional or willful and wanton misconduct.

(6) The liability of the Interstate Commission's executive director and employees or Interstate Commission representatives, acting within the scope of their employment or duties for acts, errors, or omissions occurring within their state, may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection may be construed to protect a person from suit or liability for damage, loss, injury, or liability caused by the person's intentional or willful and wanton misconduct.

(7) The Interstate Commission shall defend the executive director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend the Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities if the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of the person.

(8) To the extent not covered by the state involved, the member state, the Interstate Commission, or the representatives or employees of the Interstate Commission must be held harmless in the amount of a settlement or judgment, including attorney fees and costs, obtained against those persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities or that the persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities if the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of the persons.

ARTICLE XII
RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

(1) The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this compact or the powers granted under the compact, then such an action by the Interstate Commission is invalid and has no force or effect.

(2) Rules must be made pursuant to a rulemaking process that substantially conforms to the Model State Administrative Procedure Act revised as of 2012 as may be appropriate to the operations of the Interstate Commission.

(3) Not later than 30 days after a rule is promulgated, any person may file a petition for judicial review of the rule. However, the filing of a petition does not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable law and may not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

(4) If a majority of the legislatures of the member states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then the rule has no further force and effect in any member state.

ARTICLE XIII
OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION

(1) Each member state shall enforce this compact to effectuate the compact's purposes and intent.

(2) All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact that may affect the powers, responsibilities, or actions of the Interstate Commission.

(3) The Interstate Commission is entitled to receive all service of process in any such proceeding and has standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission renders a judgment or order void as to the Interstate Commission, this compact, or promulgated rules.

(4) The purpose of this compact is not to supersede the sovereignty of any member state but instead to facilitate the collective exercise of each state's sovereignty to allow a uniform solution without federal intervention. No provision of the interstate compact may be construed as a waiver of a state's sovereignty.

(5) If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the bylaws or promulgated rules, the Interstate Commission shall:

(a) provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default, and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state is required to cure its default.

(b) provide remedial training and specific technical assistance regarding the default.

(6) If the defaulting state fails to cure the default, the defaulting state must be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges, and benefits conferred by this compact must be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default, except that in the event of a default by this state, its total financial responsibility is limited to the amount of its most recent annual assessment.

(7) Suspension or termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the Interstate Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(8) The state that has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination up to a maximum amount of $5,000 multiplied by the number of years that the state has been a member of the compact. In the event that this state is suspended or terminated, its total financial responsibility is limited to the amount of its most recent annual assessment.

(9) The Interstate Commission may not bear any costs relating to any state that has been found to be in default or that has been suspended or terminated from the compact unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

(10) The defaulting state may appeal the action of the Interstate Commission by petitioning the U.S. district court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party must be awarded all costs of litigation, including reasonable attorney fees.

(11) The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes that are subject to the compact and that may arise among member states and between member and nonmember states.

(12) The Interstate Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

ARTICLE XIV
FINANCING OF THE INTERSTATE COMMISSION

(1) The Interstate Commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

(2) The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff, which must be in a total amount sufficient to cover the Interstate Commission's annual budget as approved each year. The aggregate annual assessment amount must be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states to the limits as specified herein.

(3) The annual assessment applicable to this state may not exceed an amount equal to the per-student amount determined by the Interstate Commission multiplied by the latest available number of children of military families in this state.

(4) This state may not be held liable for the payment of any special assessment or other assessment other than the annual assessment in the amount established by subsection (3).

(5) The Interstate Commission may not incur obligations of any kind prior to securing the funds adequate to meet those obligations, and the Interstate Commission may not pledge the credit of any of the member states except by and with the authority of the member state.

(6) The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission are subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission must be audited yearly by a certified or licensed public accountant, and the report of the audit must be included in and become part of the annual report of the Interstate Commission.

(7) All expenditures for the state, including withdrawal or dissolution costs, or both, will be determined by the Interstate Commission.

ARTICLE XV
MEMBER STATES, EFFECTIVE DATE, AND AMENDMENT

(1) Any state is eligible to become a member state, except that in the case of this state, withdrawal from the compact may also be accomplished by statutorily allowing for expiration of this section.

(2) Withdrawal from the compact must be by the enactment of a statute repealing the compact, except in the case of this state, withdrawal from the compact may also be accomplished by statutorily allowing for the expiration of this section.

(3) The Interstate Commission may propose amendments to the compact for enactment by the member states. An amendment may not become effective and binding upon the Interstate Commission and the member states unless it is enacted into law by unanimous consent of the member states.

ARTICLE XVI
WITHDRAWAL AND DISSOLUTION

(1) Once effective, the compact continues in force and remains binding upon each and every member state. However, a member state may withdraw from the compact by specifically repealing the statute that enacted the compact into law, except that in the case of this state, withdrawal from the compact may also be accomplished by statutorily allowing for expiration of this section.

(2) Withdrawal from this compact must be by the enactment of legislation repealing the compact except in the case of this state, withdrawal from the compact may also be accomplished by statutorily allowing for the expiration of this section.

(3) The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state, except that if this state elects to withdraw from the compact by statutorily allowing for the expiration of this section, this state shall notify the chairperson of the commission when it becomes evident that the expiration will take effect. The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within 60 days of its receipt of the notice.

(4) The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal up to a maximum amount equal to the per-student amount determined by the Interstate Commission multiplied by the latest available number of children of military families in this state.

(5) Reinstatement following withdrawal of a member state may occur upon the withdrawing state reenacting the compact or upon a later date as determined by the Interstate Commission.

(6) (a) This compact dissolves on the date of the withdrawal or default of the member state that reduces the membership in the compact to one member state.

(b) Upon the dissolution of this compact, the compact becomes null and void and is of no further force or effect and the business and affairs of the Interstate Commission must be concluded and surplus funds must be distributed in accordance with the bylaws.

ARTICLE XVII
SEVERABILITY AND CONSTRUCTION

(1) The provisions of this compact are severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact are enforceable.

(2) The provisions of this compact must be liberally construed to effectuate its purposes.

(3) Nothing in this compact may be construed to prohibit the applicability of other interstate compacts to which the states are members.

ARTICLE XVIII
BINDING EFFECT OF COMPACT AND OTHER LAWS

(1) Nothing in this compact prevents the enforcement of any other law of a member state that is not inconsistent with this compact. All member states' laws conflicting with this compact are superseded to the extent of the conflict.

(2) All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Interstate Commission, are binding upon the member states.

(3) All agreements between the Interstate Commission and the member states are binding in accordance with their terms.

(4) In the event that any provision of this compact exceeds the constitutional limits imposed on the legislature of any member state, that provision is ineffective to the extent of the conflict with the constitutional provision in question in that member state.

20-2-501. Compact for Education approved. The Compact for Education established by the education commission of the states is enacted into law and entered into with all other jurisdictions legally joining in the compact, in the form substantially as follows:

THE COMPACT FOR EDUCATION

ARTICLE I
PURPOSE AND POLICY

(1) It is the purpose of this compact to:

(a) establish and maintain close cooperation and understanding among executive, legislative, professional educational, and lay leadership on a nationwide basis at the state and local levels;

(b) provide a forum for the discussion, development, crystallization, and recommendation of public policy alternatives in the field of education;

(c) provide a clearinghouse of information on matters relating to education problems and how they are being met in different places throughout the nation; and

(d) facilitate the improvement of state and local education systems.

(2) It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement, and administration of education systems and institutions.

(3) The states that have entered into this compact recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own education systems and institutions.

ARTICLE II
STATE DEFINED

As used in this compact, "state" means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

ARTICLE III
THE COMMISSION

(1) The education commission of the states (commission) is hereby established. The commission consists of seven members representing each state that has entered into the compact. One of the state members must be the governor, two must be members of the legislature selected by its respective houses and serving in a manner as the legislature may determine, one must be

the state superintendent of public instruction, and three must be appointed by and serve at the pleasure of the governor. The guiding principle for the composition of the membership on the commission from each party state must be that the members representing the state shall, by virtue of their training, experience, knowledge, or affiliations, reflect broadly the interests of the state government, higher education, the state education system, local education, and public and nonpublic educational leadership. In addition to the members of the commission representing the party states, there may be no more than 10 nonvoting commissioners selected by the steering committee for terms of 1 year. The commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

(2) The members of the commission are entitled to one vote each on the commission. Any action of the commission is not binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor of the action. Any action of the commission must be taken only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to any directions and limitations as may be contained in the bylaws, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV, and adoption of the annual report pursuant to Article III(10).

(3) The commission must have a seal.

(4) The commission shall elect annually, from among its members, a presiding officer, who must be a governor; a vice presiding officer; and a treasurer. The commission shall appoint an executive director. The executive director shall serve at the pleasure of the commission and, together with the treasurer and other personnel as the commission may consider appropriate, must be bonded in an amount determined by the commission. The executive director shall serve as secretary.

(5) The executive director, subject to the approval of the steering committee, shall appoint, remove, or discharge any personnel as may be necessary for the performance of the functions of the commission. The executive director shall fix the duties and compensation of the personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

(6) The commission may borrow, accept, or contract for the services of personnel.

(7) The commission may accept for any of its purposes and functions under this compact any donations and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation and may receive, utilize, and dispose of any gifts and grants. Any donation or grant accepted by the commission pursuant to this section or services borrowed pursuant to subsection (6) of this article must be reported in the annual report of the commission. The report must include the nature, amount, and conditions, if any, of the donation, grant, or services borrowed and the identity of the donor or lender.

(8) The commission may establish and maintain any facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest in property.

(9) The commission shall adopt bylaws for the conduct of its business and may amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy of its bylaws and any amendments with the appropriate agency or officer in each state that has entered into this compact.

(10) The commission annually shall make and provide to the governor and legislature of each state that has entered into the compact a report covering the activities of the commission for the preceding year. The commission may make any additional reports as it considers desirable.

ARTICLE IV
POWERS

In addition to any authority conferred on the commission by other provisions of the compact, the commission may:

(1) collect, correlate, analyze, and interpret information and data concerning educational needs and resources;

(2) encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public education systems;

(3) develop proposals for adequate financing of education as a whole and at each of its many levels;

(4) conduct or participate in research in any instance where it finds that the research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional organizations for higher education, and other agencies and institutions, both public and private;

(5) formulate suggested policies and plans for the improvement of public education as a whole, or for any segment of public education, and make recommendations with respect to public education available to the appropriate governmental units, agencies, and public officers; and

(6) do other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to the compact.

ARTICLE V
COOPERATION WITH FEDERAL GOVERNMENT

(1) If the laws of the United States specifically provide, or if administrative provision is made within the federal government, the United States may be represented on the commission by not more than 10 representatives. A representative of the United States must be appointed and serve in the manner as may be provided by federal law and may be drawn from any one or more branches of the federal government. A representative of the United States may not have a vote on the commission.

(2) The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states and may confer with any federal agencies or officers concerning any matter of mutual interest.

ARTICLE VI
COMMITTEES

(1) To assist in the conduct of its business when the full commission is not meeting, the commission shall elect a steering committee that, subject to the provisions of this compact and consistent with the policies of the commission, is constituted and functions as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee must consist of governors, one-fourth must consist of legislators, and the remainder must consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but may not vote. The voting members of the steering committee shall serve a term of 2 years. The presiding officer, vice presiding officer, and treasurer of the commission must be members of the steering committee and, notwithstanding anything in this section to the contrary, shall serve during their continuance in these offices. Vacancies on the steering committee do not affect its authority to act, but the commission at its next regular meeting following the occurrence of any vacancy shall fill it for the unexpired term. A person may not serve more than two terms as a member of the steering committee, provided that service for a partial term of 1 year or less may not be counted toward the limitation.

(2) The commission may establish advisory and technical committees composed of state, local, or federal officers and private persons to advise it with respect to any one or more of its functions. An advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the states that have entered into this compact.

(3) The commission may establish any additional committees as its bylaws may provide.

ARTICLE VII
FINANCE

(1) The commission shall advise the governor or designated officer of each state that has entered into this compact of its budget and estimated expenditures for any period as may be

required by the laws of that state. Each of the commission's budgets of estimated expenditures must contain specific recommendations of the amount to be appropriated by each of the states.

(2) The total amount of appropriation requests under any budget must be apportioned among the states. In making the apportionment, the commission shall devise and employ a formula that takes equitable account of the population and per capita levels of income of the states.

(3) The commission may not pledge the credit of any state. The commission may meet any of its obligations in whole or in part with money available to it pursuant to Article III of this compact, provided that the commission takes specific action setting aside the money before incurring an obligation to be met in whole or in part in that manner. Except when the commission makes use of money available to it pursuant to Article III, the commission may not incur any obligation before receiving an allotment of money from the states that is adequate to meet the obligation.

(4) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission are subject to the procedures for audit and accounting established by its bylaws. However, all receipts and disbursements of money handled by the commission must be audited yearly by a qualified public accountant. The report of the audit must be included in and become part of the annual report of the commission.

(5) The accounts of the commission must be open at any reasonable time for inspection by officers of the states that have entered into this compact and by any other persons authorized by the commission.

(6) The provisions in this compact may not prohibit compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

ARTICLE VIII
ELIGIBLE PARTIES — ENTRY INTO AND WITHDRAWAL

(1) This compact has as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. With respect to any jurisdiction not having a governor, the term "governor", as used in this compact, means the closest equivalent officer of the jurisdiction.

(2) Any state or other eligible jurisdiction may enter into this compact and it becomes binding when it is adopted by that state or jurisdiction, except that in order to enter into initial effect, adoption by at least 10 eligible jurisdictions is required.

(3) Any state may withdraw from this compact by enacting a statute repealing the compact, but withdrawal may not take effect until 1 year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other states that have entered into this compact. Withdrawal does not affect any liability already incurred by or chargeable to a state before its withdrawal.

ARTICLE IX
AMENDMENTS TO THE COMPACT

This compact may be amended by a vote of two-thirds of the members of the commission present and voting when ratified by the legislatures of two-thirds of the states that have entered into this compact.

ARTICLE X
CONSTRUCTION AND SEVERABILITY

This compact must be liberally construed so as to accomplish its purposes. The provisions of this compact are severable, and if any phrase, clause, sentence, or provision of this compact is declared to be unconstitutional, or the application of the compact to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact may not be affected. If this compact is held to be contrary to the constitution of any state participating in the compact, the compact remains in effect as to the state affected as to all severable matters.

20-3-302. Legislative intent to elect less than majority of trustees. (1) It is the intention of the legislature that the terms of a majority of the trustee positions of any district with elected trustees may not regularly expire and be subject to election on the same regular school election day. In elementary districts, there may not be more than three trustee positions in first-class districts, two trustee positions in second-class districts or third-class districts having five trustee positions, or one trustee position in third-class districts having three trustee positions regularly subject to election at the same time. In high school districts there may not be more than two additional trustee positions in first- or second-class districts or more than one in third-class districts regularly subject to election at the same time. In county high school districts, there may not be more than two trustee positions to be filled by members residing in the elementary district where the county high school building is located or more than one trustee position to be filled by members residing outside of the elementary district where the county high school building is located subject to election at the same time.

(2) In the following circumstances relating to newly created trustee positions, the initial terms may be shortened to comply with the intent of subsection (1):

(a) the reorganization of school districts under the provisions of 20-6-423;

(b) the establishment of additional trustee positions of a high school district under the provisions of 20-3-353 or 20-3-354 or new trustee positions under the provisions of 20-3-352(3);

(c) the change of a district's classification under the provisions of 20-6-201 or 20-6-301;

(d) the establishment of additional elementary trustee positions under the provisions of 20-3-341(3); or

(e) the establishment of additional high school trustee positions under the provisions of 20-6-313.

(3) If the change of a district's classification under 20-6-201 or 20-6-301 decreases the number of trustee positions, the positions must be eliminated in a manner that complies with the intent of subsection (1).

(4) Although the legislature intends that the terms of a majority of trustees of any district may not regularly expire and be subject to election at the same time, it is recognized that filling a vacancy under 20-3-308 may lead to a subsequent school election in which a majority of trustee positions are subject to election at the same time.

The board of trustees may reduce the number of trustee positions from seven to five upon receiving a petition for that purpose from at least 10 qualified electors of the district.

20-3-352. Request and determination of number of high school district additional trustee positions — nonvoting trustee. (1) As provided in 20-3-351(1)(b), a high school district, except a county high school district, may have additional trustee positions when the trustees of a majority of the elementary districts with territory located in the high school district, but without equitable representation on the high school district trustees under the provision of 20-3-351(1)(a), request the establishment of additional trustee positions under the provisions of subsection (2) or when the electors approve an alternative method of electing members of the board of trustees under the provisions of subsection (3).

(2) A request for additional trustee positions must be made to the county superintendent by a resolution of the trustees of each elementary district. When a resolution has been received from a majority of the elementary districts without representation on the high school district trustees, the county superintendent shall determine the number of additional trustee positions for the affected high school district in accordance with the following procedure:

(a) The taxable valuation of the elementary district that has its trustees placed on the high school trustees must be divided by the number of positions on the trustees of the elementary district to determine the taxable valuation per trustee position.

(b) The taxable valuation used for the calculation in subsection (2)(a) must be subtracted from the taxable valuation of the high school district to determine the taxable valuation of the territory of the high school district without representation on the high school district trustees.

(c) The taxable valuation determined in subsection (2)(b) must be divided by the taxable valuation per trustee position calculated in subsection (2)(a). The resulting quotient must be rounded off to the nearest whole number, except that when the quotient is less than 0.5, at least one nonvoting trustee position must be established for the territory without representation on the high school district board of trustees under the provision of 20-3-351(1)(a).

(d) Except for a nonvoting trustee position, the number determined in subsection (2)(c) must be the number of additional trustee positions, except that the number of additional trustee positions may not exceed four in a first- or second-class high school district or two in a third-class high school district except when two-thirds or more of the high school enrollment of the high school district and two-thirds or more of the taxable valuation of the high school district are located outside of the elementary district that has its trustees placed on the high school district trustees. When this situation exists, three additional trustees must be elected from the elementary school districts in which the high school is not located and one additional trustee must be elected at large in the high school district.

(e) An additional trustee may serve as the presiding officer of the board of trustees of an elementary district in accordance with 20-3-321(3).

(3) (a) If more than half of the electors of the high school district reside outside the territory of the elementary school district in which the high school district buildings are located, at least 10% of the electors of the high school district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent, requesting an election to consider a proposition on the question of establishing one of the following alternative methods of electing the members of the high school district board of trustees:

(i) one trustee must be elected from each elementary school district with territory included in the high school district and two or three trustees must be elected at large in the high school district, whichever number results in an odd number of members on the board of trustees; or

(ii) the county superintendent shall establish four trustee nominating districts within the high school district but outside the territory of the elementary school district in which the high school buildings are located. One trustee must be elected from each trustee nominating district and three trustees must be elected from the elementary district in which the high school buildings are located, for a total of seven trustees on the high school district board of trustees. Trustees elected from the elementary district in which the high school buildings are located shall serve on both the high school district board of trustees and on the elementary school district board of trustees.

(b) (i) When the county superintendent receives a valid petition, the county superintendent shall order the trustees of the high school district to conduct an election on the next regular school election day on the proposition allowed under the provisions of subsection (3)(a).

(ii) If the electors of the district approve a proposition to establish the alternative method of electing the high school district board of trustees, the county superintendent shall order that the members of the board of trustees be elected according to subsection (3)(a) at the next regular school election.

(c) Whenever the trustees are elected at one regular election under subsection (3)(b), the members who are elected shall draw by lot to determine their terms of office. The terms of office by trustee position must be divided as equally as practicable among 1-year, 2-year, and 3-year terms.

(d) A petition to call an election for the purposes of subsection (3) may not be submitted to the county superintendent more than one time in each 5-year period.

20-3-353. Establishment and purpose of trustee nominating districts. (1) After the county superintendent has determined the number of additional trustee positions, the county superintendent shall establish trustee nominating districts in that portion of the high school district without representation on the high school trustees. There must be one trustee nominating district for each additional trustee position, except the additional trustee-at-large. Unless it is impossible, the trustee nominating district boundaries must be coterminous with elementary district boundaries.

(2) The purpose of the trustee nominating district is to establish a representative district for the nomination and election of a resident of the district to be an additional member of the trustees of a high school district. The electors qualified to vote in the high school district under the provisions of 20-20-301 and who reside in the trustee nominating district are the only electors who may vote for the additional trustee representing the district. They must also be permitted to vote for a trustee position at large, if there is one, but not for any other high school trustee position.

(3) Any additional trustee position established under the provisions of this section must be filled in a manner prescribed under the provisions of 20-3-309. Each additional trustee position filled by appointment under this section is subject to election at the next regular school election.

20-3-354. Redetermination of additional trustee positions and subsequent adjustments. Whenever there is a revision of the taxable valuation of the high school district or the elementary districts within the high school district or there is a reclassification of the elementary district that has its trustees placed on the high school district board of trustees, the county superintendent shall redetermine the number of additional trustee positions for the high school district in accordance with 20-3-352. If there is a change in the allowable number of additional trustee positions, the county superintendent shall reestablish the trustee nominating districts in accordance with 20-3-353. If the number of additional trustee positions is less than the previous number of positions, the county superintendent shall designate which present additional positions are to terminate upon the order reestablishing the trustee nominating districts. If the number of additional trustee positions is more than the previous number of positions, the additional trustee positions must be filled in the manner prescribed under the provisions of 20-3-309. Each additional trustee position filled by appointment under this section is subject to election at the next regular school election.

20-3-355. Determination of terms after establishment or reestablishment of additional trustee positions. (1) Whenever all of the additional trustee positions are subject to election at one regular school election under the circumstance described in 20-3-302(2)(b), the members who are elected shall draw by lot to determine their terms of office. The terms of office by number of members elected must be:

(a) two for 3 years, if four are elected;

(b) one for 3 years, if one, two, or three are elected;

(c) one for 2 years, if two, three, or four are elected; and

(d) one for 1 year, if three or four are elected.

(2) Whenever the reestablishment of the additional trustee positions for a high school district under the provisions of 20-3-354 results in an increased number of additional trustee positions, the members who are elected at the next regular school election shall draw by lot to determine their terms of office and the terms must be determined in accordance with the additional trustee terms prescribed in this section.

20-3-361. Joint board of trustees organization and voting membership. (1) The board of trustees of two or more school districts may form a joint board of trustees for the purpose of coordinating any educational program or support service of the districts. A joint board of trustees may coordinate only those programs and services agreed to by the participating boards of trustees.

(2) When a joint board of trustees is formed, all of the members of the districts' trustees must be members of the joint board of trustees and each member must have the right to participate in the meetings, but voting on matters considered by the joint board is limited by the provisions of this section.

(3) At the first meeting of the joint board of trustees, a presiding officer of the joint board of trustees must be selected from among the membership. A secretary of the joint board must be selected from the membership. The presiding officer, when selected as a voting member, may not be disqualified from voting because of the position. The secretary may not be a voting member except that the secretary shall cast the deciding vote when three successive ballots have resulted in a tie vote of the joint board of trustees.

(4) The voting membership of the joint board of trustees must be equalized among the trustee membership of the participating districts. After the selection of the presiding officer and the secretary, if necessary, the voting membership is:

(a) all of the membership of the board of trustees of the smallest class of district, according to 20-6-201 or 20-6-301, unless one of its members is selected as secretary, in which case that member may not be a voting member; and

(b) the members of the board of trustees of the other district or districts who are selected by the trustees as voting members of the joint board in a number equal to the number of voting members of the district as established under subsection (4)(a). The names of the voting membership selected by the trustees must be submitted in writing to the secretary of the board and are the only members of the district's trustees eligible to vote on joint board matters unless the list is revised in writing by the trustees.

(5) Each voting member is entitled to cast one vote, individually, upon every matter submitted to the joint board for a vote.

(6) A joint board shall remain in existence for at least 1 school year and may not be dissolved until the end of a school year.

(7) A school district that elects to participate in a joint board formed under this section for special education purposes shall confirm in writing to the joint board by October 1 of the current school fiscal year the district's intention to participate or to not participate in a joint board agreement for the next school fiscal year.

20-3-363. Multidistrict agreements — fund transfers. (1) (a) The boards of trustees of any two or more school districts may enter into a multidistrict agreement to create a multidistrict cooperative to perform any services, activities, and undertakings of the participating districts, including full joint funding and operation of all programs and services of the participating districts upon the terms and conditions as may be mutually agreed to by the districts subject to the conditions of this section.

(b) A multidistrict agreement may include an agreement through which one district provides culturally rooted instruction aligned to a learning environment for English language learners or an Indian language immersion program to pupils of a district participating in the multidistrict agreement. The costs and other terms of service must be reflected in the multidistrict agreement.

(c) An agreement must include provisions for dissolution of the cooperative, including the conditions under which dissolution may occur and the disposition of any remaining funds that had been transferred to an interlocal cooperative fund in support of the cooperative. An agreement must be approved by the boards of trustees of all participating districts and must include a provision specifying terms upon which a district may exit the multidistrict cooperative.

(2) All expenditures in support of the multidistrict agreement may be made from each participating school district's interlocal cooperative fund. The board of trustees of each participating district of the multidistrict cooperative may transfer funds into the district's interlocal cooperative fund from the district's general fund, budgeted funds other than the retirement fund or debt service fund, or nonbudgeted funds other than the compensated absence liability fund. Transfers to the district's interlocal cooperative fund from the school district's general fund are limited to an amount not to exceed the direct state aid in support of the respective school district's general fund. Transfers from the retirement fund and debt service fund are prohibited. Transfers may not be made with funds restricted by federal law unless the transfer is in compliance with any restrictions or conditions imposed by federal law.

(3) Expenditures from the interlocal cooperative fund under this section may include any expenditures that are considered by the board of trustees of the district to be reasonable and necessary to efficiently and effectively finance the expenditures pursuant to the terms of the multidistrict agreement, not to exceed the total expenditures approved by the board of trustees for the budgeted fund from which the transfer was made, including expenditures pursuant to any budget amendment adopted pursuant to 20-9-165.

(4) The intent of this section is to increase the flexibility and efficiency of school districts without an increase in local taxes. In furtherance of this intent, if transfers of funds are made from any school district fund supported by a nonvoted levy, the district may not increase its nonvoted levy for the purpose of restoring the amount of funds transferred.

(5) (a) Beginning in school fiscal year 2027, school districts that achieve the legislative goal for countywide resource sharing outlined in this subsection (5) must receive a 50% increase in their total quality educator and qualified staff payment as defined in 20-9-306.

(b) The legislative goal for countywide resource sharing is for each school district with a majority of its territory in a county to participate in a countywide multidistrict agreement as specified in this subsection (5). To receive the enhanced incentive, the multidistrict agreement executed by the participating districts must:

(i) include at least all school districts with a majority of their territory within the boundaries of the same county. Provided that at least all school districts in at least one county have entered into a multidistrict agreement under this subsection (5), other school districts located in other counties that participate in the multidistrict agreement must also receive the enhanced total quality educator and qualified staff payment calculated in accordance with subsection (5)(a).

(ii) provide for the joint funding and operation of the participating districts as described in this subsection (5);

(iii) contractually allocate an amount at least equal to each district's general fund direct state aid for the support of joint funding and operations among all participating districts as described in this subsection (5); and

(iv) to the extent of the funds committed, jointly and mutually establish, maintain, budget, and finance the programs of the participating districts identified under this subsection (5). Activities must be in compliance with the accreditation standards of the board of public education and may include the sharing of staff among the participating districts when that is consistent with collective bargaining, if applicable, and when that is determined by the board of trustees of each participating school district to be the most efficient and effective use of district staff. The programs of the participating districts that are mutually administered must include, at a minimum:

(A) administration functions, including budgeting, payroll, human resources, elections, and services provided in support of the board of trustees;

(B) custodial services;

(C) instructional services and support, including remote instruction, selection of textbooks, library and media services, and curriculum development and implementation;

(D) K-12 career and vocational/technical education and work-based learning;

(E) school food services;

(F) software licensing and other information technology;

(G) extracurricular activities;

(H) special education programs; and

(I) transportation for instruction and school activities.

(6) Nothing in this section may be construed to prohibit a district that has entered into a countywide multidistrict agreement from entering into any other multidistrict agreement otherwise meeting the requirements of this section other than subsection (5). Districts participating in a countywide multidistrict agreement from one county may also cooperate with districts from any other county to form multicounty regional multidistrict agreements.

(7) As used in this title, "multidistrict cooperative" means a public entity created by two or more school districts executing a multidistrict agreement under this section with each other or with any other public or private entity participating in the cooperative and complying with the requirements of this section and other laws governing public schools in the state.

20-3-366. Qualifying district health insurance trusts — qualifications — definitions — rulemaking. (1) The first district health insurance trust that is qualified by the state auditor under this section must be provided the insurance trust incentive payment under 20-3-369 to stabilize health insurance costs and capitalize an operating reserve for the school district members of the trust. The state auditor may qualify only the first district health insurance trust meeting the criteria of this section.

(2) A district health insurance trust seeking qualification from the state auditor under subsection (3) shall apply to the state auditor demonstrating that the district health insurance trust:

(a) has been created on or after July 1, 2023, by a multidistrict agreement pursuant to 20-3-363 or by an interlocal cooperative agreement among participating school districts pursuant to the provisions of Title 20, chapter 9, part 7. The terms of the agreement must include the state auditor or the auditor's designee as an ex officio nonvoting member of the trust's governing board.

(b) has a binding contractual agreement among at least 150 districts employing a minimum of 12,000 employees to participate in and obtain health insurance for its employees through the trust. The calculation of these thresholds may include:

(i) only the number of employees that are contracted to participate in and obtain health insurance through the trust by each participating district; and

(ii) school districts and their employees with current renewal cycles other than a school fiscal year provided that the districts and employees are purchasing insurance through the trust not later than the earlier of the day after the date of the expiration of their previous policy or January 1 in the first year of the trust's operation.

(c) equally allocates the shared risk of assessments among all members of the trust;

(d) determines plan design, contribution rates, and a contribution tier structure in consultation with a certified actuary;

(e) has adopted a required limit on administrative costs of not more than 12% of total costs in the formative documents of the trust. An initial commitment included in the application for qualification is legally binding on the trust in its operations.

(f) maintains full control over claims data for medical and pharmacy benefits and makes the data available to member districts on request in compliance with the Health Insurance Portability and Accountability Act of 1996, 42 USC 1320d, et seq.;

(g) provides, either directly or through a third-party administrator, estimates of costs for employees' anticipated medical treatments and procedures and estimates of required cost sharing by members;

(h) has formed as an agreement between school districts undertaken to separately or jointly indemnify one another by way of a pooling, joint retention, deductible, or self-insurance plan as described in and subject to 33-1-102(9);

(i) prohibits any preexisting health benefits trust or district from imposing its liabilities on the trust that were incurred prior to joining the trust; and

(j) adopts contribution rates as recommended by its contracted actuary to pay all claims and maintain plan reserves at or above minimum levels of risk-based capital recommended by its actuary. The trust shall prepare and submit to the state auditor a report of its financials in a form and containing information as required by the state auditor by rule.

(3) Nothing in this section may be construed to require a district to obtain insurance through the trust in whole or in part. A district may provide insurance through the trust for some groups and through other means for other groups, provided that at least 12,000 employees must be covered under the trust to qualify for the incentives under 20-3-369. Any group of a district obtaining insurance through the trust is subject to the same requirements applicable to districts regarding the minimum duration of participation, conditions for withdrawal, and delay of return to the trust under 20-3-367.

(4) A district health insurance trust qualified by the state auditor may, at its option, contract services with a third-party administrator for services needed by the trust, including but not limited to enrollment, claims processing, wellness plans, and access to financial arrangements with providers through provider network agreements via a contract.

(5) The state auditor shall adopt rules necessary to implement 20-3-366 through 20-3-370. The rules must address minimum reserves and reporting requirements for the trust. The state auditor may order the dissolution of the trust if the trust fails to comply with the provisions of 20-3-366 through 20-3-370 or the rules adopted by the state auditor.

(6) For the purposes of 20-3-366 through 20-3-370, the following definitions apply:

(a) "Administrative costs" means the overall costs of operating a district health insurance trust except for:

(i) the cost of providing health care to members, including wellness plans to improve and promote health and fitness;

(ii) additions to reserves as recommended by the district health insurance trust's actuary under subsection (2); and

(iii) the cost of excess insurance or reinsurance for high-cost claims within the trust with plan design and deductible levels as recommended by the trust's actuary.

(b) "District" means a public school district as provided in 20-6-101 and 20-6-701 and any cooperative formed pursuant to 20-7-451 through 20-7-457.

(c) "District health insurance trust" or "trust" means an arrangement, plan, interlocal agreement, or multidistrict agreement complying with the requirements of this section that jointly provides disability insurance as defined in 33-1-207 to the officers, elected officials, or employees of districts through a member-governed, self-funded program.

(d) "Employee" means an individual employed by a district in any capacity, including but not limited to an employee meeting the definition in 2-18-601 and a teacher or principal as defined in 20-1-101 who is regularly scheduled to work at least 20 hours or more a week during the academic year.

(e) "Member" means any employee and the employee's qualified dependents who are obtaining health insurance coverage under the trust by virtue of their status as a dependent of the employee.

History: **En. Sec. 1, Ch. 770, L. 2023.**

20-3-367. District withdrawal — procedures. (1) Except as provided in subsection (2), a district or an employee group of a district that voluntarily joins the trust must participate in the trust for at least 5 consecutive school fiscal years before becoming eligible to withdraw from the trust. To complete its withdrawal effective not earlier than the completion of at least 5 consecutive school fiscal years, the district shall notify the trust prior to withdrawing from participation pursuant to the contractual terms of coverage and membership in the district health insurance trust.

(2) (a) On or before January 1 of each plan year beginning after the second full year of providing health benefits to the members of the trust, the trust shall prepare a report for each of its participating districts and employee groups that includes the following:

(i) a per-member cost for the immediately preceding plan year calculated by dividing the total cost to the trust of providing member benefits to the district or employee group by the total number of members in the district or employee group for the applicable year. This calculation is referred to as the "cost rate" in this section.

(ii) a calculation of what the per-member contribution rates would be for the district or employee group for the current plan year using the same number of members in each of the plans offered by the trust in the immediately preceding plan year. This calculation is referred to as "the contribution rate" in this section.

(iii) a percentage rounded to the nearest tenth, calculated by dividing the contribution rate calculated as provided in subsection (2)(a)(ii) by the cost rate calculated as provided in subsection (2)(a)(i), subtracting 1, and multiplying by 100 to produce a percentage. This calculation is referred to as "the adjusted contribution inflation rate" in this section.

(iv) the annual inflation rate for medical care derived from the medical care index of the United States bureau of labor statistics for July 1 of the current plan year, converted to a percentage. This rate is referred to as "the medical care index rate" in this section.

(v) a computation and the resulting number rounded to the nearest tenth that is yielded from dividing the adjusted contribution inflation rate of the district or employee group by the medical care index rate. The resulting number is referred to as "the inflation gap factor" for the district or employee group in this section.

(b) A district or an employee group with an inflation gap factor equal to or greater than 1.5 may withdraw from the trust upon the conclusion of the plan year in which the trust reports an inflation gap factor to the district or employee group above 1.5. To complete its withdrawal, the district shall notify the trust prior to withdrawing from participation pursuant to the contractual terms of coverage and membership in the district health insurance trust.

(3) A district that has withdrawn from a district health insurance trust under subsections (1) or (2):

(a) is ineligible to rejoin the trust for at least 5 full school fiscal years following the year in which the district withdraws;

(b) is ineligible for receipt of any portion of the net assets or reserve balance of the trust attributable to the distribution of funds under 20-3-369(3) on withdrawal. The portion of the net assets and reserve balance attributable to the distribution of state funds referenced under this subsection (3) must be determined by an actuarial reserve balance analysis conducted by the trust's contracted actuary; and

(c) shall reimburse the trust for the run-off liability of the withdrawing district or employee group, consisting of all claims of the withdrawing district or employee group that were incurred by the members of the district or employee group prior to the effective date of the district's or employee group's withdrawal.

History: En. Sec. 2, Ch. 770, L. 2023.

20-3-368. Dissolution — disqualification. (1) If, after being qualified by the state auditor, a district health insurance trust ceases to comply with the conditions under 20-3-366(1) for more than 3 consecutive years, the trust shall immediately notify the state auditor and dissolve the trust no later than the end of the next full fiscal year after the date of notification. A district health insurance trust may also voluntarily dissolve.

(2) When dissolving pursuant to this section, the district health insurance trust shall wind up the affairs of the trust in the following order:

(a) impose any assessments on the districts of the trust that are calculated by the trust's retained actuary as necessary to pay all liabilities of the trust;

(b) pay all remaining claims, including incurred but not reported claims;

(c) pay all remaining liabilities of the trust;

(d) return any reserve balance remaining from the distribution of state funds to the trust under 20-3-369(3) to the state of Montana, after adjustments under subsections (2)(a) through (2)(c), for deposit in the state general fund. The portion of the reserve balance attributable to the distribution of state funds referenced under this subsection (2)(d) must be determined by an actuarial reserve balance analysis conducted by an actuary chosen by the state auditor.

(e) distribute its remaining net assets, if any, proportionately to the districts of the trust pursuant to the contractual terms of coverage and membership in the trust. A district shall deposit funds distributed under this subsection (2)(e) in an internal service account and spend the funds in accordance with 20-3-330 or 20-3-331.

History: En. Sec. 3, Ch. 770, L. 2023.

20-3-369. State school health trust operating reserve account — distribution and uses. (1) There is a state school health trust operating reserve account in the state special revenue fund provided for in 17-2-102. The purpose of the account is to provide a one-time-only distribution of incentive funding to the first self-funded district health insurance trust that is qualified by the state auditor pursuant to 20-3-366.

(2) The state school health trust operating reserve account is statutorily appropriated, as provided in 17-7-502, to the office of public instruction for distribution as provided in this section.

(3) If a trust has been qualified by the state auditor on or before June 30, 2026, for initial operation beginning July 1, 2026, the superintendent shall, on July 1, 2026, or on qualification by the state auditor, distribute $40 million to the district health insurance trust. The qualifying district health insurance trust shall use the funds to stabilize health insurance costs through capitalization of an operating reserve for the district members of the trust.

(4) If a trust has not been qualified by June 30, 2026, the account balance must be transferred to the capital developments long-range building program account for uses consistent with 17-7-209.

20-3-370. Repayment of initial reserve from state from excess reserves. (1) Beginning July 1, 2036, a trust created under 20-3-366, shall, as part of its annual actuarial analysis, identify and report to the state auditor no later than 90 days following the completion of its annual audit, any excess reserves existing in the trust.

(2) The trust shall remit to the state any excess reserves identified pursuant to subsection (1) until the cumulative amounts remitted reaches $40 million. The state shall deposit any amounts remitted from year to year in the capital developments long-range building program account for uses consistent with 17-7-209.

(3) For the purposes of 20-3-366 through 20-3-370, "excess reserves" means reserves in excess of the greater of:

(a) reserve levels required under rules adopted by the state auditor;

(b) minimum risk-based capital recommended by the trust's actuary, using a confidence interval of 90%; or

(c) minimum capital calculated by the trust's actuary following the risk-based capital requirements applicable to a health organization that are specified in Title 33, chapter 2, part 19, at levels above the levels that would trigger a company action level event for a health organization under 33-2-1904.

Certification of Teaching and Supervisory Personnel

20-4-101. System and definitions of teacher and specialist certification — student teacher exception. (1) In order to establish a uniform system of quality education and to ensure the maintenance of professional standards, a system of teacher and specialist certification must be established and maintained under the provisions of this title and a person may not be permitted to teach in the public schools of the state until the person has obtained a teacher or specialist certificate or the district has obtained an emergency authorization of employment from the state.

(2) As used in this part, "teacher or specialist certificate" means a certificate issued or applied for under 20-4-106. The term "teacher or specialist" refers to a person certified under 20-4-106.

(3) The certification requirement does not apply to:

(a) a student teacher who is a student enrolled in an institution of higher learning approved by the board of regents of higher education for teacher training and who is jointly assigned by the institution of higher learning and the governing board of a district or a public institution to perform practice teaching in a nonsalaried status under the direction of a regularly employed and certificated teacher; or

(b) an instructor employed by the Montana university system or an accredited institution of equal rank and standing as that of any unit of the Montana university system when teaching any advanced course offered to pupils as defined in 20-1-101 for college credit, including courses provided pursuant to 20-3-324(28).

(4) An individual to whom the certification requirement does not apply under subsection (3) must be accorded the same protection of the laws as that accorded a certificated teacher and shall, while performing functions authorized under subsection (3), comply with all rules of the governing board of the district or public institution and the applicable provisions of 20-4-301 relating to the duties of teachers.

The board may, upon a request by a school district, inform the school district that a person's certification file includes a letter of reprimand, but the board may not provide a copy of the letter without first determining that the public's right to know outweighs the person's right to privacy.

(7) Whenever the superintendent of public instruction denies the issuance or the renewal of a teacher, administrator, or specialist certificate, the applicant may appeal the denial to the board of public education. The board shall hear the appeal in the same manner provided in this section for suspension or revocation and in accordance with the policies of the board. The decision of the board is final.

20-4-121. Interstate agreement on qualification of educational personnel. The interstate agreement on qualification of educational personnel is enacted into law and entered into with all jurisdictions legally joining therein in the form substantially as follows:

Article I. Purpose — Findings — Policy

(1) The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it and to authorize specific interstate educational personnel contracts to achieve that end.

(2) The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators are lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this compact can increase the availability of educational personnel.

Article II. Definitions

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise, the following definitions apply:

(1) "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

(2) "Designated state official" means the educational official of a state selected by that state to negotiate and enter into, on behalf of the official's state, contracts pursuant to this agreement.

(3) "Accept" or any variant thereof means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

(4) "State" means a state, territory, or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

(5) "Originating state" means a state (and the subdivisions thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

(6) "Receiving state" means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

Article III. Interstate Educational Personnel Contracts

(1) The designated state official of a party state may make one or more contracts on behalf of the designated state official's state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it and the subdivisions of those states with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which the designated state official finds that there are programs of education, certification standards, or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable even though not identical to that prevailing in the designated state official's own state.

(2) Any such contract shall provide for:

(a) its duration;

(b) the criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state;

(c) such waivers, substitutions, and conditional acceptance as shall aid the practical effectuation of the contract without sacrifice of basic educational standards; and

(d) any other necessary matters.

(3) No contract made pursuant to this agreement shall be for a term longer than 5 years, but any such contract may be renewed for like or lesser periods.

(4) Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

(5) The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.

(6) A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report not less than once a year to the heads of the appropriate education agencies of the contracting states.

Article IV. Approved and Accepted Programs

(1) Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

(2) To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

Article V. Interstate Cooperation

The party states agree that:

(1) they will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this agreement; and

(2) they will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

Article VI. Agreement Evaluation

The designated state officials of any party states may meet from time to time as a group to evaluate progress under the agreement and to formulate recommendations for changes.

Article VII. Other Arrangements

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

Article VIII. Effect — Withdrawal

(1) This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

(2) Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until 1 year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

(3) No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article IX. Construction — Severability

This agreement shall be liberally construed so as to effectuate the purpose thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement is held to be contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

20-4-134. Professional stipends for teachers certified by national board for professional teaching standards. (1) Pursuant to subsection (5), an annual stipend of up to an amount equivalent to 50% of the quality educator and qualified staff payment amount provided in 20-9-306 for the applicable year must be provided to each teacher who holds a current certificate from the national board for professional teaching standards if the teacher is:

(a) a full-time classroom teacher, librarian, or other full-time employee serving in an assignment covered by national board certification assessment;

(b) certified to teach in Montana under the provisions of 20-4-103; and

(c) a full-time employee of:

(i) a Montana public school district, as defined in 20-6-101;

(2) An annual stipend of up to an amount equivalent to 85% of the quality educator and qualified staff payment amount provided in 20-9-306 for the applicable year must be provided to each teacher who meets the criteria for the stipend in subsection (1) and who has an instructional assignment in a school identified as:

(a) a school in a high-poverty area eligible to participate in the community eligibility provision under Public Law 111-296; or

(b) an impacted school as defined in 20-4-502.

(3) A teacher becomes eligible for the stipend in subsection (1) in the school year beginning July 1 after the teacher obtains certification or recertification from the national board for professional teaching standards.

(4) By March 1, the superintendent of public instruction shall distribute stipend payments to any entity listed in subsections (1)(c)(i) through (1)(c)(iv) that employs an eligible teacher.

(5) The obligation for funding a portion of the professional stipends is an obligation of the state. This section may not be construed to require a school district to provide its matching portion of a stipend to a qualifying teacher without a payment from the state to the district. If the money appropriated for the stipends is not enough to provide the full amount for each eligible teacher, the superintendent of public instruction shall request the state budget director to submit a request for a supplemental appropriation in the second year of the biennium that is sufficient to complete the funding of the stipends.

(6) (a) For a stipend under subsection (1), the state shall pay 50% of the maximum stipend amount under subsection (1) and another 1% of the amount for each 1% of the amount contributed by the teacher's school district, up to a maximum state contribution of 75% of the amount.

(b) For a stipend under subsection (2), the state shall pay 55% of the maximum stipend amount under subsection (2) and another 2% of the amount for each 1% of the amount contributed by the teacher's school district, up to a maximum state contribution of 85% of the amount.

Part 2
Teacher Employment — Tenure

20-4-201. Employment of teachers and specialists by contract. (1) The trustees of any district have the authority to employ any person as a teacher or specialist, but only a person who holds a valid Montana teacher or specialist certificate or for whom an emergency authorization of employment has been issued that qualifies the person to perform the duties prescribed by the trustees for the position of employment. Each teacher or specialist must be employed under written contract, and each contract of employment must be authorized by a proper resolution of the trustees and must be executed in duplicate by the presiding officer of the trustees and the clerk of the district in the name of the district and by the teacher or specialist.

(2) A contract of employment with a teacher or specialist may not require the teacher or specialist to teach more than 5 days a week or on any holiday recognized by 20-1-305. A deduction may not be made from a teacher's or specialist's salary by reason of the fact that a holiday falls on a school day. A teacher's or specialist's contract made in conflict with the 5-days-a-week provision of this section is not enforceable against the teacher or specialist.

(3) Whenever the boards of trustees of two or more school districts form a joint board of trustees under the provisions of 20-3-361 or when the boards of trustees of two or more school districts enter into an interlocal agreement pursuant to Title 7, chapter 11, part 1, to cooperatively share the employment of a teacher or specialist, the joint board of trustees or the boards of trustees of two or more school districts, pursuant to an interlocal agreement, may execute a contract of employment with a teacher or specialist who shall serve the districts. When a contract is executed, the districts shall prorate the compensation provided by the contract on the basis of the total number of instructional hours expended by the teacher or specialist within each district.

(4) Any contract executed under the provisions of this section may contain the oath or affirmation prescribed in 20-4-104, and the teacher or specialist shall subscribe to the oath or affirmation before an officer authorized by law to administer oaths.

20-4-202. Teacher and specialist certification registration. (1) Any person employed as a teacher, specialist, principal, or district superintendent shall register the person's certificate or the district shall register its emergency authorization of employment for a teacher with the county superintendent of the county in which the person is employed in order to validate the person's employment status and permit payment under the employment contract. If a teacher or specialist does not register the person's certificate with the county superintendent within 60 calendar days after the person begins to perform services, the person is not eligible to receive any further compensation under the contract of employment until the person has registered the certificate. After the schools of a district have been open for 60 calendar days in the current school fiscal year, the county superintendent shall notify each district of the county of each teacher or specialist who has registered a current valid certificate, and the district may not pay any teacher who has not registered the person's certificate until the county superintendent does notify the district of the registration.

(2) A teacher or specialist employed by a joint district shall register the person's certificate with the county superintendent of the county in which the person is working. A teacher or specialist employed by a special education cooperative shall register the person's certificate with the county superintendent of the county in which the special education cooperative is based.

20-4-203. Teacher tenure. (1) Except as provided in 20-4-208, whenever a teacher has been elected by the offer and acceptance of a contract for the fourth consecutive year of employment by a district in a position requiring teacher certification except as a district superintendent or specialist, the teacher is considered to be reelected from year to year as a tenured teacher at the same salary and in the same or a comparable position of employment as that provided by the last-executed contract with the teacher unless the trustees resolve by majority vote of their membership to terminate the services of the teacher in accordance with the provisions of 20-4-204.

(2) The tenure of a teacher with a district may not be impaired upon termination of services of the teacher if the following conditions exist:

(a) the tenure teacher is terminated because the financial condition of the district requires a reduction in the number of teachers employed; and

(b) continued employment rights are provided for in a collectively bargained contract of the district.

(3) (a) For the purposes of subsection (1), "same salary" means the daily rate of pay, excluding benefits and excluding stipends for nonteaching duties, multiplied by the number of days worked under the last-executed contract with the teacher, up to the total number of days funded by the state in the per-ANB entitlements, as provided in 20-9-311, including pupil-instruction-related days. The calculation of daily rate of pay is determined by dividing the salary in the last-executed contract with the teacher for pupil-instruction and pupil-instruction-related days, excluding benefits and excluding stipends for nonteaching duties, by the total number of contracted days under the last-executed contract.

(b) The definition of same salary may be modified if negotiated and agreed to in a collective bargaining agreement executed by the district and the teacher's exclusive representative pursuant to Title 39, chapter 31, or in an individual contract between the district and a teacher in a district in which the teachers have no exclusive representative as provided in Title 39, chapter 31.

(4) Upon receiving tenure, the employment of a teacher may be terminated for good cause.

20-4-204. Termination of tenure teacher services. (1) (a) The following persons may make a recommendation in writing to the trustees of the district for termination of the services of a tenure teacher:

(i) a district superintendent;

(ii) in a district without a district superintendent, a principal;

(iii) in a district without a district superintendent or a principal, the county superintendent or a trustee of the district.

(b) The recommendation must state clearly and explicitly the specific reason or reasons leading to the recommendation for termination.

(2) Whenever the trustees of a district receive a recommendation for termination, the trustees shall notify the teacher of the recommendation for termination and of the teacher's right to a hearing on the recommendation. The notification must be delivered by certified letter or by personal notification for which a signed receipt is returned. The notification must include:

(a) the statement of the reason or reasons that led to the recommendation for termination; and

(b) a printed copy of this section for the teacher's information.

(3) The teacher may, in writing, waive the right to a hearing. Unless the teacher waives the right to a hearing, the trustees shall set a hearing date, giving consideration to the convenience of the teacher, not less than 10 days or more than 20 days from receipt of the notice of recommendation for termination.

(4) The trustees shall:

(a) conduct the hearing on the recommendation at a regularly scheduled or special meeting of the board of trustees and in accordance with 2-3-203; and

(b) resolve at the conclusion of the hearing to terminate the teacher or to reject the recommendation for termination.

(5) The tenure teacher may appeal a decision to terminate an employment contract to the county superintendent if the teacher's employment is not covered by a collective bargaining agreement pursuant to Title 39, chapter 31, who may appoint a qualified attorney as a legal adviser who shall assist the superintendent in preparing findings of fact and conclusions of law. If the employment of the teacher is covered by a collective bargaining agreement pursuant to Title 39, chapter 31, a tenure teacher shall appeal a decision to terminate an employment contract to an arbitrator agreed upon by the district and the teacher's exclusive representative. If the exclusive representative has declined to represent the teacher, the teacher or the district may request that the board of personnel appeals provide a list of arbitrators from which the teacher and the district shall, after the toss of a coin to determine the order of striking, alternately strike names from the list until one arbitrator is selected and appointed. By mutual agreement between the parties, the county superintendent of schools may be appointed as the arbitrator.

(6) In a termination involving a teacher whose employment is not covered by a collective bargaining agreement pursuant to Title 39, chapter 31, either the teacher or the trustees may appeal to the district court of the county in which the teacher was employed. The proceedings must be commenced no later than 60 days after the date of the decision of the county superintendent.

(7) In a termination involving a teacher whose employment is covered by a collective bargaining agreement pursuant to Title 39, chapter 31, a request for arbitration must be made

within 20 days from the date of termination unless an alternative time period is provided by the terms of a collective bargaining agreement.

(8) The decision of the arbitrator is final and binding. Each party shall pay one-half of an arbitrator's charges unless a different cost allocation arrangement is agreed upon by the parties.

(9) An arbitrator may order a school district to reinstate a teacher who has been terminated without good cause and to provide compensation, with interest, to a teacher for lost wages and fringe benefits from the date of termination to the date that the teacher is offered reinstatement to the same or a comparable position. Interim earnings, including the amount that the teacher could have earned with reasonable diligence, must be deducted from the amount awarded for lost wages. Before interim earnings are deducted from lost wages, reasonable amounts spent by a teacher in searching for, obtaining, or relocating to new employment must be deducted from interim earnings.

(10) Except as provided in this section, an arbitrator may not order a school district to provide compensation for punitive damages, pain and suffering, emotional distress, compensatory damages, attorney fees, or any other form of damages.

(11) Upon submission of the termination decision to an arbitrator, the teacher or the teacher's exclusive representative may not file an action against the district for reinstatement or compensation of lost wages and fringe benefits.

(12) As used in this section, the following definitions apply:

(a) "Fringe benefits" means the value of any employer-paid vacation leave, sick leave, medical insurance plan, disability or life insurance plan, or pension benefit in effect on the date of termination.

(b) "Lost wages" means the gross amount of wages that would have been reported to the internal revenue service on form W-2 and includes any compensation deferred at the option of the employee.

(2) Any teacher who receives notification of reelection for the ensuing school fiscal year shall provide the trustees with written acceptance of the conditions of the reelection within 20 days after the receipt of the notice of reelection, and failure to notify the trustees within 20 days constitutes conclusive evidence of the teacher's nonacceptance of the tendered position.

(3) (a) Whenever the trustees of any district receive a recommendation for dismissal, the trustees shall notify the teacher of the right to a hearing before the trustees either by certified letter or by personal notification for which a signed receipt must be returned. The teacher may in writing waive the right to a hearing. Unless the teacher waives the right to a hearing, the teacher and trustees shall agree on a hearing date not less than 10 days or more than 20 days from the notice of intent to recommend dismissal.

(4) With the exception of a county superintendent, a person who recommends dismissal pursuant to subsection (2) may suspend the teacher from active performance of duty with pay pending the hearing date if the teacher's behavior or acts that led to the recommendation for dismissal are contrary to the welfare of the students or the effective operation of the school district.

(5) Any teacher who has been dismissed may in writing within 20 days appeal the dismissal under the guidelines set forth in 20-4-204. Part 7
Teacher Residency Program

20-4-701. Legislative findings — intent. (1) The legislature finds and affirms that, pursuant to 20-9-309, the definition of "a basic system of free quality public elementary and secondary schools" requires the recruitment and retention of qualified and effective teachers.
(2) The legislature finds and declares that the provision of and participation in a teacher residency program is constitutionally compliant and protected. The legislature declares that any public or private regulation that discriminates against a school district or an undergraduate student participating in a teacher residency program is inconsistent with constitutional goals and guarantees under Article X of the Montana constitution.
(3) The legislature intends that the teacher residency program be implemented in a collaborative and efficient manner among the various partnering entities and in a manner that results in teachers who participate in the program being:
(a) better prepared to teach effectively in the years following the program; and
(b) more inclined to remain in the teaching profession longer, especially in rural schools and high-need content areas.

History: **En. Sec. 1, Ch. 545, L. 2023.**

20-4-702. Teacher residency program. (1) The superintendent of public instruction shall administer a teacher residency program in collaboration with school districts and professional educator preparation programs.
(2) The teacher residency program must involve:
(a) a shared vision and partnership between:
(i) a resident;
(ii) a teacher-leader;
(iii) a school district; and
(iv) an educator preparation program;
(b) ensuring that a resident possesses the cultural competencies to succeed and be an effective educator in the school hosting the resident;
(c) selection and training for teacher-leaders;
(d) a resident being matched with a school district that provides a high-quality and supportive experience for residents working with a teacher-leader;
(e) flexible course delivery to allow a resident to complete required credits in the resident's preparation program;
(f) a cohort model with opportunities for virtual and in-person training and support;
(g) financial and other compensation for residents and teacher-leaders, including:
(i) housing for the resident or a housing allowance provided to the resident by the host school district;
(ii) for a resident in a professional educator preparation program accredited by the board of public education, a last-dollar tuition grant to eliminate tuition costs for the resident for the year of the residency;

(iii) a stipend for the teacher-leader; and

(iv) compensation for the resident, a portion of which may be conditioned on completion of the program and the signing of a teaching contract in a Montana public school for the following year; and

(h) a methodology for evaluating the effectiveness of the program.

(3) The superintendent of public instruction may contract with a professional educator preparation program located in a unit of the Montana university system to coordinate the teacher residency program or aspects of the program.

(4) If a resident does not complete the program or does not teach in a Montana public school for 3 or more years within 5 years of completing the teacher residency program, the superintendent of public instruction shall inform the commissioner of higher education and the commissioner shall convert the amount of any tuition grant provided to the resident under the program to a loan.

(5) For the purposes of this part, the following definitions apply:

(a) "Professional educator preparation program" means a postsecondary program intended to lead to teacher licensure that is accredited by the board of public education or recognized by the board as an essentially equivalent program for teacher certification purposes.

(b) "Resident" means a student enrolled in a professional educator preparation program who is selected for participation in a teacher residency program as described in this section and who commits to teaching in a Montana public school following completion of the teacher residency program.

(c) "School district" or "district" means the educational entities eligible for a quality educator and qualified staff payment under 20-9-327.

(d) "Teacher-leader" means an experienced classroom teacher who is selected to work with, coach, and mentor a resident.

(e) "Teacher residency program" or "program" means a partnership between a district and a professional educator preparation program to provide residents with a year-long, practice-based learning experience working directly with students in a manner that mirrors the experience of teachers in that school and meets the criteria of supervised teaching experience as defined by the board of public education.

20-5-101. Admittance of child to school. (1) The trustees shall assign and admit a child to a school in the district when the child is:

(a) 5 years of age or older on or before September 10 of the year in which the child is to enroll but is not yet 19 years of age;

(b) a resident of the district; and

(c) otherwise qualified under the provisions of this title to be admitted to the school.

(2) The trustees of a district may assign and admit any nonresident child to a school in the district under the tuition provisions of this title.

(3) (a) The trustees may at their discretion assign and admit a child to a school in the district who is under 5 years of age or an adult who is 19 years of age or older if there are exceptional circumstances that merit waiving the age provision of this section. The trustees may also admit an individual who has graduated from high school but is not yet 19 years of age even though no special circumstances exist for waiver of the age provision of this section.

(b) As used in this subsection (3), "exceptional circumstances" means any of the following:

(i) the child is being admitted into a preschool program established by the trustees pursuant to 20-7-117;

(ii) the child is determined by the trustees to be ready for kindergarten and the child's parents have requested early entry into the district's regular 1-year kindergarten program;

(iii) the child is being admitted into an early targeted intervention classroom or jumpstart program pursuant to Title 20, chapter 7, part 18;

(iv) the child is a child with a disability and is being admitted into a special education program pursuant to 20-7-411; or

(v) the adult is 19 years of age or older and in the trustees' determination would benefit from educational programs offered by a school of the district.

(c) The admittance of an individual under this subsection (3) does not in and of itself impact the ANB calculations governed by 20-9-311.

(4) The trustees shall assign and admit a child who is homeless, as defined in the Stewart B. McKinney Homeless Assistance Act, Public Law 100-77, to a school in the district regardless of residence. The trustees may not require an out-of-district attendance agreement or tuition for a homeless child.

(5) The trustees shall assign and admit a child whose parent or guardian is being relocated to Montana under military orders to a school in the district and allow the child to preliminarily enroll in classes and apply for programs offered by the district prior to arrival and establishing residency.

(6) Except for the provisions of subsection (4), tuition for a nonresident child must be paid in accordance with the tuition provisions of this title.

(7) The trustees' assignment of a child meeting the qualifications of subsection (1) to a school in the district outside of the adopted school boundaries applicable to the child is subject to the district's grievance policy. Upon completion of procedures set forth in the district's grievance policy, the trustees' decision regarding the assignment is final.

(8) The trustees shall assign and admit a child who is enrolled in a nonpublic or home school and who meets the requirements of subsection (1) as a part-time enrollee at the request of the child's parent or guardian.

(9) For the purposes of this part, "part-time enrollee" means a qualifying pupil who is enrolled and admitted at one of the fractional levels that qualify for part-time ANB pursuant to 20-9-311(4)(a) or (4)(d).

The trustees of the district shall adopt a policy defining the authority and procedure to be used by a teacher, superintendent, or principal in the suspension of a pupil and in defining the circumstances and procedures by which the trustees may expel a pupil. Expulsion is any removal of a pupil for more than 20 school days without the provision of educational services and is a disciplinary action available only to the trustees. A pupil may be suspended from school for an initial period not to exceed 10 school days. Upon a finding by a school administrator that the immediate return to school by a pupil would be detrimental to the health, welfare, or safety of others or would be disruptive of the educational process, a pupil may be suspended for one additional period not to exceed 10 school days if the pupil is granted an informal hearing with the school administrator prior to the additional suspension and if the decision to impose the additional suspension does not violate the Individuals With Disabilities Education Act, 20 U.S.C. 1400, et seq.

(2) (a) The trustees of a district shall adopt a policy for the expulsion of a student who is determined to have brought a firearm to school or to have possessed a firearm at school and for referring the matter to the appropriate local law enforcement agency. A student who is determined to have brought a firearm to school or to have possessed a firearm at school under this subsection (2)(a) must be expelled from school for a period of not less than 1 year, except that the trustees may authorize the school administration in writing to modify the requirement for expulsion of a student, up to and including eliminating the requirement for expulsion, on a case-by-case basis. The trustees shall annually review the district's weapons policy and any policy adopted under this subsection (2)(a) and update the policies as determined necessary by the trustees based on changing circumstances pertaining to school safety.

(b) A decision to change the placement of a student with a disability who has been expelled pursuant to this section must be made in accordance with the Individuals With Disabilities Education Act.

(3) In accordance with 20-4-302, 20-4-402, 20-4-403, and subsection (1) of this section, a teacher, superintendent, or principal may immediately suspend a student if, prior to a hearing conducted pursuant to subsection (6), there is cause to believe the student brought a firearm to school or possessed a firearm at school.

(4) Nothing in this section prevents a school district from:

(a) offering instructional activities related to firearms or allowing a student to bring a firearm to school for instructional activities sanctioned by the district if:

(i) the district has appropriate safeguards in place to ensure student safety; and

(ii) the firearm is secured in a locked container approved by the school district when the firearm is at school and is not in use for the instructional activity; or

(b) providing educational services in an alternative setting to a student who has been expelled from the student's regular school setting.

(5) Before holding a hearing as required under subsection (6) to determine if a student has violated this section, the trustees shall, in a clear and timely manner, notify the student if the student is an adult or notify the parent or guardian of a student if the student is a minor that the student may:

(a) waive the student's privacy interest by requesting that the hearing be held in public; and

(b) invite other individuals to attend the hearing.

(6) Before expelling a student under this section, the trustees shall hold a due process hearing that includes presentation of a summary of the information leading to the allegations and an opportunity for the student to respond to the allegations. The student may not be expelled unless the trustees find that the student knowingly, as defined in 1-1-204, brought a firearm to school or possessed a firearm at school.

(7) When a student subject to a hearing is found to have not violated this section, the student's school record must be expunged of the incident.

(8) The office of public instruction shall make available on its website the information gathered from school districts that is provided annually to the federal government under the reporting requirements of 20 U.S.C. 7151, provided that any personally identifiable information is redacted.

(9) The provisions of this section do not require expulsion of a student who has brought a firearm to school or possesses a firearm at school as long as the firearm is secured in a locked container approved by the school district or in a locked motor vehicle the entire time the firearm is at school, except while the firearm is in use for a school-sanctioned instructional activity.

(10) For the purposes of this section, the following definitions apply:

(a) "Firearm" has the same meaning as provided in 18 U.S.C. 921.

(b) (i) "School" means a building, grounds, or property of a public elementary or secondary school.

(ii) The term does not include a student's home, a locked vehicle, a parking lot, or a commercial business when the student is participating in an online, remote, or distance-learning setting.

20-5-320. Out-of-district attendance by parent or guardian request with no extenuating circumstances. (1) A child may be enrolled in and attend a school in a Montana school district that is outside of the child's district of residence at the request of the child's parent or guardian as described in this section.

(2) (a) Whenever a parent or guardian of a child wishes to have the child attend a school under the provisions of this section, the parent or guardian shall apply to the trustees of the district where the child wishes to attend.

(b) The application must be made on an out-of-district attendance agreement form supplied by the district and developed by the superintendent of public instruction. The attendance agreement must set forth the financial obligations, if any, for costs incurred for transporting the child as provided in 20-5-323 and Title 20, chapter 10.

(c) The trustees of the district of attendance may adopt policies for the application process, including but not limited to reasonable timelines for the submission of applications.

(d) The trustees of the district of attendance shall serve children who are residents of the district and nonresident children seeking enrollment under 20-5-321 prior to enrolling children under this section.

(e) In reviewing and determining whether to approve an application for attendance by a nonresident child, the trustees of the district of attendance shall approve the application unless the trustees find that the impact of approval of the application will negatively impact the quality of education for resident pupils by grade level, by school, or in the district in the aggregate in one or more of the following ways:

(i) the approval would result in exceeding limits of:

(A) building construction standards pursuant to Title 50, chapter 60;

(B) capacity and ingress and egress elements, either by individual room or by school building, of any fire code authorized by Title 50, chapter 3;

(C) maximum student contact hours for a teacher of the class or maximum class sizes under accreditation standards of the board of public education; or

(D) evacuation elements of the district's adopted school safety plan;

(ii) the approval would impede meeting goals, standards, or objectives of quality that the trustees have previously adopted in a plan for continuous educational improvement required under rules adopted by the board of public education; or

(iii) the approval would risk jeopardizing the educational quality within the district because the nonresident child who is applying was:

(A) truant as defined in 20-5-106 in the last school district attended;

(B) expelled by another school district at any time; or

(C) suspended in school or out of school in any school district in which the nonresident child was enrolled in any of the 3 school fiscal years preceding the school fiscal year for which attendance is requested. This subsection (2)(e)(iii)(C) does not apply to a student who is eligible for special education or related services.

(f) The trustees of a district that receives more applications than the district can accommodate under subsections (2)(e)(i) and (2)(e)(ii) may adopt and implement policy providing priority among the applications on any rational basis that prioritizes the quality of education for students who are residents of the district of attendance and the obligations of resident taxpayers.

(3) This section does not preclude the trustees of a district from approving an attendance agreement for educational program offerings not provided by the resident district, such as the kindergarten or grades 7 and 8 programs, if the trustees of both districts agree to the terms and conditions for attendance and any transportation requirement. The tuition requirements under 20-5-323 and 20-5-324 apply to agreements under this subsection. For purposes of this subsection, the trustees of the resident district shall initiate the out-of-district agreement.

(4) As used in 20-5-320 through 20-5-324, the term "guardian" means the guardian of a minor as provided in Title 72, chapter 5, part 2.

(1) An out-of-district attendance agreement that allows a child to enroll in and attend a school in a Montana school district that is outside of the child's district of residence or in a public school district of a state or province that is adjacent to the county of the child's residence is mandatory whenever any of the following extenuating circumstances exist:

(a) the child resides closer to the school that the child wishes to attend and more than 3 miles from the school the child would attend in the resident district and the resident district does not provide transportation;

(b) (i) the child resides in a location where, because of geographic conditions between the child's home and the school that the child would attend within the district of residence, it is impractical to attend school in the district of residence, as determined by the county transportation committee based on the following criteria:

(A) the length of time that is in excess of the 1-hour limit for each bus trip for an elementary child as authorized under 20-10-121;

(B) whether distance traveled is greater than 40 miles one way from the child's home to school on a dirt road or greater than a total of 60 miles one way from the child's home to school in the district of residence over the shortest passable route; or

(C) whether the condition of the road or existence of a geographic barrier, such as a river or mountain pass, causes a hazard that prohibits safe travel between the home and school.

(ii) The decision of the county transportation committee is subject to appeal to the superintendent of public instruction, as provided in 20-3-107, but the decision must be considered as final for the purpose of the payment of tuition under 20-5-324(4)(a)(ii) until a decision is issued by the superintendent of public instruction. The superintendent of public instruction may review and rule on a decision of the county transportation committee without an appeal being filed.

(c) (i) the child is a member of a family that is required to send another child outside of the elementary district to attend high school and the child of elementary age may more conveniently attend an elementary school where the high school is located, provided that the child resides more than 3 miles from an elementary school in the resident district or that the parent is required to move to the elementary district where the high school is located to enroll another child in high school. A child enrolled in an elementary school pursuant to this subsection (1)(c)(i) may continue to attend the elementary school after the other child has left the high school.

(ii) the child is a member of a family that is required to send another child outside of the high school district to attend elementary school and the child of high school age may more conveniently attend a high school where the elementary school is located, provided that the child resides more than 3 miles from a high school in the resident district or that the parent is required to move to the high school district where the elementary school is located to enroll another child in elementary school. A child enrolled in a high school pursuant to this subsection (1)(c)(ii) may continue to attend the high school after the other child has left the elementary school.

(d) the child is under the protective care of a state agency or has been adjudicated to be a youth in need of intervention or a delinquent youth, as defined in 41-5-103; or

(e) the child is required to attend school outside of the district of residence as the result of a placement in foster care or a group home licensed by the state.

(2) (a) Whenever a parent or guardian of a child, an agency of the state, or a court wishes to have a child attend a school under the provisions of this section, the parent or guardian, agency, or court shall complete an out-of-district attendance agreement in consultation with an appropriate official of the district that the child will attend.

(b) The attendance agreement must set forth the financial obligations, if any, for costs incurred for transportation as provided in 20-5-323 and Title 20, chapter 10.

(3) Except as provided in subsection (4), the trustees of the resident district and the trustees of the district of attendance shall approve the out-of-district attendance agreement. The trustees of the district of attendance shall:

(a) notify the county superintendent of schools of the county of the child's residence of the approval of the agreement within 10 days; and

(b) submit the agreement for a student attending under the provisions of subsection (1)(d) or (1)(e) to the superintendent of public instruction for approval for payment under 20-5-324.

(4) Unless the child is a child with a disability who resides in the district, the trustees of the district where the school to be attended is located may disapprove an out-of-district attendance agreement whenever they find that, because of insufficient room and overcrowding, the accreditation of the school would be adversely affected by the acceptance of the child.

(2) Within 10 days of the initial application for an agreement, the trustees of the district of attendance shall notify the parent or guardian of the child and the trustees of the district of residence involved in the out-of-district attendance agreement of the anticipated date for approval or disapproval of the agreement.

2025 Amendment: See 2025 Session Law for amendment made by sec. 2, Ch. 431, L. 2025. Amendment effective July 1, 2025.

Applicability: Section 10, Ch. 431, L. 2025, provided: "[This act] applies to out-of-district attendance agreements for school fiscal years beginning on or after July 1, 2025."

20-5-323. *(Temporary)* **Tuition — transportation.** (1) (a) Except as provided in subsections (1)(b), (1)(c), and (2) through (5), whenever a child enrolls in and attends a school outside of the child's district of residence under the provisions of 20-5-320 or 20-5-321, the district of residence shall pay the district of attendance a percentage equal to the lesser of the percentage of either school district's adopted general fund budget funded by BASE and over-BASE property tax levies in the year of attendance not to exceed 35.3% of the tuition per-ANB amount for the year of attendance as described in 20-5-324.

(b) If the district of residence is a nonoperating district, the required tuition is the percentage of the adopted general fund budget funded by over-BASE property taxes in the district of attendance in the year of attendance, not to exceed 20% of the tuition per-ANB amount for the year of attendance as described in 20-5-324.

(c) Tuition amounts for partial-year attendance, including midyear changes in residency under 1-1-215, must be prorated for the portion of the year the student is enrolled as a nonresident student, based on the percentage calculated by dividing the number of days the student is enrolled by the number of pupil instruction days scheduled by the school district of attendance in the year of attendance.

(2) Except for the tuition paid by the district of residence and the superintendent of public instruction under 20-5-324(2)(b), the district of residence shall pay the district of attendance as described in 20-5-324 the tuition for a child with a disability, and the amount of tuition must be the regular rate under subsection (1), plus the special education tuition rate determined by the district of attendance under rules adopted by the superintendent of public instruction for the calculation of tuition for special education pupils. The rules must provide:

(a) that tuition amounts must be reduced by the funding generated by the district of attendance due to the child's attendance; and

(b) an option for tuition set at the actual unique costs of providing a free appropriate public education.

(3) The state-paid tuition rate for out-of-district placement pursuant to 20-5-321(1)(d) and (1)(e) in addition to the tuition paid by the district of residence under 20-5-324(2)(b) for a student without disabilities who requires a program with costs that exceed the average district costs must be determined as the actual individual costs of providing that program according to the following:

(a) the district of attendance and the district or entity responsible for the tuition payments shall approve an agreement for the tuition cost;

(b) for a Montana resident student, 120% of the tuition per-ANB amount, received in the year for which the tuition charges are calculated, must be subtracted from the per-student program costs for a Montana resident student; and

(c) the maximum tuition rate paid to a district under this subsection (3) may not exceed $2,500 per student.

(4) When a child attends a public school of another state or province, the amount of daily tuition may not be greater than the average annual cost for each student in the child's district of residence. This calculation for tuition purposes is determined by totaling all of the expenditures for all of the district budgeted funds for the preceding school fiscal year and dividing that amount by the October 1 enrollment in the preceding school fiscal year. For the purposes of this subsection, the following do not apply:

(a) placement of a child with a disability pursuant to Title 20, chapter 7, part 4;

(b) placement made in a state or province with a reciprocal tuition agreement pursuant to 20-5-314;

(c) an order issued under Title 40, chapter 4, part 2; or

(d) out-of-state placement by a state agency.

(5) When a child is placed by a state agency in an out-of-state residential facility, the state agency making the placement is responsible for the education costs resulting from the placement.

(6) (a) An attendance agreement established under 20-5-320 or 20-5-321 must set forth the financial obligations, if any, for costs incurred for transportation as provided in this subsection (6) and Title 20, chapter 10.

(b) If the attendance agreement is for a child with a disability who has transportation included in the child's individualized education program, transportation or the costs of transportation must be paid by the child's district of residence.

(c) Except as provided in subsection (6)(b) and unless otherwise agreed to in the out-of-district attendance agreement:

(i) when a child has approval to attend a school outside the child's district of residence because of a parent's or guardian's request under the provisions of 20-5-320 or 20-5-321(1)(c), the parent or guardian of the child is responsible for transportation and the child is not an eligible transportee as defined in 20-10-101. The district of attendance may discretionarily provide transportation for a child who is not an eligible transportee pursuant to 20-10-122.

(ii) when a child attends a school outside the child's district of residence under the provisions of 20-5-321(1)(a) or (1)(b), the district of residence is responsible for transportation; and

(iii) when a child attends a school outside the child's district of residence under the provisions of 20-5-321(1)(d) or (1)(e), the district of attendance is responsible for transportation consistent with and subject to the provisions of 20 U.S.C. 6312(c)(5).

(d) The amount, if any, charged for transportation may not exceed the average transportation cost for each student in the child's district of residence. The average expenditures for the district transportation fund for the preceding school fiscal year must be calculated by dividing the transportation fund expenditures by the October enrollment count for the preceding fiscal year.

(7) As used in this section, "tuition per-ANB amount" means the applicable per-ANB maximum rate established in 20-9-306, plus the per-ANB amounts of the instructional block grant and related services block grant under 20-9-321.

20-5-323. *(Effective July 1, 2026)* **Tuition — transportation.** (1) (a) Except as provided in subsections (1)(b), (1)(c), and (2) through (5), whenever a child enrolls in and attends a school outside of the child's district of residence under the provisions of 20-5-320 or 20-5-321, the district of residence shall pay the district of attendance a percentage equal to the lesser of the percentage of either school district's adopted general fund budget funded by over-BASE property tax levies in the year of attendance not to exceed 20% of the tuition per-ANB amount for the year of attendance as described in 20-5-324.

(b) If the district of residence is a nonoperating district, the required tuition is the percentage of the adopted general fund budget funded by over-BASE property taxes in the district of attendance in the year of attendance, not to exceed 20% of the tuition per-ANB amount for the year of attendance as described in 20-5-324.

(c) Tuition amounts for partial-year attendance, including midyear changes in residency under 1-1-215, must be prorated for the portion of the year the student is enrolled as a nonresident student, based on the percentage calculated by dividing the number of days the student is enrolled by the number of pupil instruction days scheduled by the school district of attendance in the year of attendance.

(2) Except for the tuition paid by the district of residence and the superintendent of public instruction under 20-5-324(2)(b), the district of residence shall pay the district of attendance as described in 20-5-324 the tuition for a child with a disability, and the amount of tuition must be the regular rate under subsection (1), plus the special education tuition rate determined by the district of attendance under rules adopted by the superintendent of public instruction for the calculation of tuition for special education pupils. The rules must provide:

(a) that tuition amounts must be reduced by the funding generated by the district of attendance due to the child's attendance; and

(b) an option for tuition set at the actual unique costs of providing a free appropriate public education.

(3) The state-paid tuition rate for out-of-district placement pursuant to 20-5-321(1)(d) and (1)(e) in addition to the tuition paid by the district of residence under 20-5-324(2)(b) for a student without disabilities who requires a program with costs that exceed the average district costs must be determined as the actual individual costs of providing that program according to the following:

(a) the district of attendance and the district or entity responsible for the tuition payments shall approve an agreement for the tuition cost;

(b) for a Montana resident student, 120% of the tuition per-ANB amount, received in the year for which the tuition charges are calculated, must be subtracted from the per-student program costs for a Montana resident student; and

(c) the maximum tuition rate paid to a district under this subsection (3) may not exceed $2,500 per student.

(4) When a child attends a public school of another state or province, the amount of daily tuition may not be greater than the average annual cost for each student in the child's district of residence. This calculation for tuition purposes is determined by totaling all of the expenditures for all of the district budgeted funds for the preceding school fiscal year and dividing that amount by the October 1 enrollment in the preceding school fiscal year. For the purposes of this subsection, the following do not apply:

(a) placement of a child with a disability pursuant to Title 20, chapter 7, part 4;

(b) placement made in a state or province with a reciprocal tuition agreement pursuant to 20-5-314;

(c) an order issued under Title 40, chapter 4, part 2; or

(d) out-of-state placement by a state agency.

(5) When a child is placed by a state agency in an out-of-state residential facility, the state agency making the placement is responsible for the education costs resulting from the placement.

(6) (a) An attendance agreement established under 20-5-320 or 20-5-321 must set forth the financial obligations, if any, for costs incurred for transportation as provided in this subsection (6) and Title 20, chapter 10.

(b) If the attendance agreement is for a child with a disability who has transportation included in the child's individualized education program, transportation or the costs of transportation must be paid by the child's district of residence.

(c) Except as provided in subsection (6)(b) and unless otherwise agreed to in the out-of-district attendance agreement:

(i) when a child has approval to attend a school outside the child's district of residence because of a parent's or guardian's request under the provisions of 20-5-320 or 20-5-321(1)(c), the parent or guardian of the child is responsible for transportation and the child is not an eligible transportee as defined in 20-10-101. The district of attendance may discretionarily provide transportation for a child who is not an eligible transportee pursuant to 20-10-122.

(ii) when a child attends a school outside the child's district of residence under the provisions of 20-5-321(1)(a) or (1)(b), the district of residence is responsible for transportation; and

(iii) when a child attends a school outside the child's district of residence under the provisions of 20-5-321(1)(d) or (1)(e), the district of attendance is responsible for transportation consistent with and subject to the provisions of 20 U.S.C. 6312(c)(5).

(d) The amount, if any, charged for transportation may not exceed the average transportation cost for each student in the child's district of residence. The average expenditures for the district transportation fund for the preceding school fiscal year must be calculated by dividing the transportation fund expenditures by the October enrollment count for the preceding fiscal year.

(7) As used in this section, "tuition per-ANB amount" means the applicable per-ANB maximum rate established in 20-9-306, plus the per-ANB amounts of the instructional block grant and related services block grant under 20-9-321.

(a) the name and district of residence of each child who attended a school of the district under a mandatory out-of-district attendance agreement approved under the provisions of 20-5-321(1)(d) or (1)(e);

(b) the number of days of enrollment for each child reported under the provisions of subsection (1)(a);

(e) the names, schools of attendance, and amount of tuition to be paid by the district for resident students attending day-treatment programs under approved individualized education programs at private, nonsectarian schools.

(2) (a) Subject to the limitations of 20-5-323, the superintendent of public instruction shall:

(i) except as provided in subsection (2)(b) of this section, pay the district of attendance the amount of the tuition obligation reported under subsection (1)(c) of this section, prorated for the actual days of enrollment;

(ii) determine the total per-ANB entitlement for which the district of residence would have been eligible if the students reported in subsections (1)(d) and (1)(e) of this section had been enrolled in the resident district in the prior year; and

(iii) reimburse the district of residence for the state portion of the per-ANB entitlement for each student reported in subsections (1)(d) and (1)(e) of this section, not to exceed the district's actual payment of tuition or fees for service for the student in the previous year.

(b) The district of residence for each child reported under the provisions of subsection (1)(a) of this section shall pay the district of attendance the tuition rate under 20-5-323(1) prorated for the actual days of enrollment. The superintendent of public instruction is only responsible for any additional tuition amount pursuant to 20-5-323(2) and (3).

In order to provide local property tax reduction for the tuition amount received under 20-5-323(1), the amount of the reduction in the BASE budget mills levied as a result of anticipated tuition payments must be calculated as a final step in computing the district's general fund net BASE levy requirement pursuant to the procedure set forth in 20-9-141(2) and the district's guaranteed tax base aid must be calculated prior to the reduction in BASE mills.

(b) Any tuition receipts received for a pupil who is a child with a disability under 20-5-323(2) or for a student without disabilities who requires a program with costs that exceed the average district costs under 20-5-323(3) that exceed the tuition amount received for a pupil without disabilities must be deposited in the district miscellaneous programs fund and must be used in the manner provided for in 20-9-507 to support the costs of the program for which the tuition was received.

(b) The district of residence for each child reported under the provisions of subsection (1)(a) of this section shall pay the district of attendance the tuition rate under 20-5-323(1) prorated for the actual days of enrollment. (5) (a) Except as provided in subsection (5)(b), the district of attendance shall anticipate and credit tuition receipts to the district general fund over-BASE budget pursuant to 20-9-141 and transportation receipts to the transportation fund.

(b) Any tuition receipts received for a pupil who is a child with a disability under 20-5-323(2) or for a student without disabilities who requires a program with costs that exceed the average district costs under 20-5-323(3) that exceed the tuition amount received for a pupil without disabilities must be deposited in the district miscellaneous programs fund and must be used in the manner provided for in 20-9-507 to support the costs of the program for which the tuition was received.

(6) The reimbursements paid under subsection (2)(a)(iii) must be deposited into the district tuition fund and must be used by the district to pay obligations for resident students attending public schools out of state or for resident students attending day-treatment programs under approved individualized education programs at private, nonsectarian schools at district expense.

(7) The provisions of this section do not apply to out-of-state placements made by a state agency pursuant to 20-7-422.

Part 5
Enrollment of Pupil by Caretaker Relative

20-5-501. Purpose — legislative intent — parental rights — definitions. (1) The legislature recognizes that the rights of parents to the custody and control of a child are based upon liberties secured by the United States and Montana constitutions and that a parent's rights to that custody and control of a child are therefore normally supreme to the interests of other persons. The legislature also recognizes a growing phenomenon in which absent or otherwise unavailable parents have temporarily surrendered the custody and care of their children to a grandparent or other relative for lengthy periods of time. Regardless of the purpose of the absence, a child willfully surrendered to a relative for an extended time period still has the same needs as a child in the care of its parents. In this situation, a caretaker relative assumes responsibilities for the child but has no legal right of control over the child, a situation that interferes in the caretaker relative's ability to perform routine functions of child rearing, including tending to the educational and educationally related medical needs of the child. It is therefore the purpose of the legislature in these instances to protect the rights of a child granted by Article II, section 15, of the Montana constitution by granting a caretaker relative limited authority for a child left in the relative's care.

(2) It is the intent of the legislature that a caretaker relative given the responsibility of caring for a child with little or no warning and without any other provision having been made for the child's care, such as the appointment of a guardian or the provision of a power of attorney, be granted authority to enroll the child in school, discuss with the school district the child's educational progress, and consent to an educational service and to medical care for the child related to an educational service without superseding any parental rights regarding the child.

(3) This part is not intended to affect the rights and responsibilities of a parent, legal guardian, or other custodian regarding the child, does not grant legal custody of the child to the caretaker relative, and does not grant authority to the caretaker relative to consent to the marriage or adoption of the child or to receive notice of a medical procedure, including abortion, not consented to by the relative, if notice is required by law, for the child except as expressly provided in this section.

(4) For the purposes of this part, the following definitions apply:

(a) "Caretaker relative" or "relative" means an individual related by blood, marriage, or adoption by another individual to the child whose care is undertaken by the relative, but who is not a parent, foster parent, stepparent, or legal guardian of the child.

(b) "Caretaker relative educational authorization affidavit" or "affidavit" means an affidavit completed in compliance with 20-5-503.

(c) "Health care provider" means a person who provides medical care.

(d) "Medical care" means care by a health care provider, for which parental consent is normally required, for the prevention, diagnosis, or treatment of a mental, physical, or dental injury or disease.

(e) "Parent" means a biological parent, adoptive parent, or other legal guardian of the child whose parental rights have not been terminated.

History: En. Sec. 1, Ch. 442, L. 2007.

20-5-502. Enrollment by caretaker relative — residency — affidavit. (1) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child may, in accordance with this section, enroll the child in school using the rules of residence provided in 1-1-215 if:

(a) in leaving the child with the caretaker relative, the parent expressed no definite time period in which the parent would return for the child;

(b) the child is residing with the caretaker relative on a full-time basis;

(c) the caretaker relative is unable to contact either of the parents after the parents voluntarily leave the child with the caretaker relative or a parent whom the caretaker relative is able to contact is unable or unwilling to regain custody of the child;

(d) no adequate provision, such as the appointment of a guardian ad litem or execution of a power of attorney, has otherwise been made for the educational needs of the child; and

(e) a caretaker relative educational authorization affidavit is completed in compliance with 20-5-503.

(2) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child may enroll the child in school unless the child's residency with the caretaker relative is primarily for the purpose of:

(a) attending a particular school; or

(b) participating in athletics at a particular school.

(3) If the child was subject to formal disciplinary action, including suspension or expulsion, at the child's previous school, the school district in which the caretaker relative seeks to enroll the child may either implement the previous school district's disciplinary action without further due process or hold a hearing and determine whether the student's conduct in the previous school district merits denial of enrollment. If the district decides to enroll the child, then the school district may require the child to comply with a behavior contract as a condition of enrollment.

(4) The school district may require additional reasonable evidence that the caretaker relative lives at the address provided in the affidavit.

History: En. Sec. 2, Ch. 442, L. 2007; amd. Sec. 3, Ch. 211, L. 2011.

20-5-503. Caretaker relative educational authorization affidavit — use — immunity — format. (1) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child has the same authority as a custodial parent of the child to discuss with an educator the educational progress of the child, consent to an educational service, and consent to medical care related to an educational service for the child for which parental consent is usually required if a caretaker relative educational authorization affidavit is completed in compliance with this section.

(2) An affidavit is effective only if it is signed by the caretaker relative, under oath, before a notary public. A clear photographic copy of an affidavit completed in compliance with this section is sufficient in any instance in which an original is required by a school official or health care provider.

(3) Unless parental rights have been judicially terminated or unless the ability to give legal consent for the child to receive an educational service and any medical care related to the educational service for which parental consent is usually required has been granted to

the caretaker relative pursuant to 40-4-211 and 40-4-228, a decision by a parent of the child communicated to a school official, a health care provider, or both, regarding the child supersedes a conflicting decision by a caretaker relative made pursuant to an affidavit completed in compliance with this section. However, a decision by a parent does not supersede a decision by a caretaker relative pursuant to an affidavit completed in compliance with this section if the decision by the parent endangers the life of the child. A school official or health care provider may require reasonable proof of authenticity of a decision by a parent intended to supersede a decision by a caretaker relative.

(4) (a) A public or private entity or individual who acts in good faith reliance on a caretaker relative educational authorization affidavit completed in compliance with this section and who has no actual knowledge of facts contrary to those indicated in the affidavit is not subject to civil liability or criminal prosecution or to a professional disciplinary procedure for an action that would have been proper if the facts had been as the entity or individual believed them to be.

(b) This subsection (4) applies even if an educational service or educationally related medical care, or both, are provided to a child against the wishes of a parent of that child if the person rendering the service does not have actual knowledge of the parent's wishes.

(5) A person who relies on an affidavit completed in compliance with this section has no obligation to make further inquiry or investigation.

(6) An affidavit completed in compliance with this section is effective for the earlier of:

(a) the end of the first school year after delivery of the affidavit to a school district;

(b) until it has been revoked by the caretaker relative; or

(c) until the child no longer resides with the caretaker relative.

(7) If the child ceases to live with the caretaker relative or the caretaker relative revokes the affidavit, the caretaker relative shall provide written notice of that fact to all persons to whom the caretaker relative has given the affidavit or to whom the caretaker relative has caused the affidavit to be given.

(8) This section does not relieve a person from a violation of other law, and this section does not affect the rights of a child's parent except as provided in this section.

(9) A caretaker relative educational authorization affidavit is invalid unless it is written in substantially the following form and contains the warning provided for in paragraph 5 of the format below:

Part 1
School Districts — General Provisions

20-6-101. Definition of elementary and high school districts. (1) As used in this title, except as defined in 20-9-402 for bonding purposes or unless the context clearly indicates otherwise, the term "district" means the territory, regardless of county boundaries, organized under the provisions of this title to provide public educational services under the jurisdiction of the trustees prescribed by this title. High school districts may encompass all or parts of the territory of one or more elementary districts.

(2) (a) An elementary district is a district organized for the purpose of providing public education for all grades up to and including grade 8 and for preschool programs and kindergartens. An elementary district may be inactive if the district attaches to a high school district under the provisions of 20-6-701 to form a K-12 school district.

(b) A high school district is a district organized for the purpose of providing those public educational services authorized by this title for all grades beyond grade 8, including postsecondary programs, except those programs administered by community college districts or the Montana university system. A high school district with an attached elementary district may provide the educational services for an elementary district through the procedures established in 20-6-701 through 20-6-703.

(3) An elementary district is known as "District No....., ... County" and a high school district, except a high school district where a county high school is operated, is known as "High School District No....., ... County". A district is a body corporate and, as a body corporate, may sue and be sued, contract and be contracted with, and acquire, hold, use, and dispose of real or personal property for school purposes, within the limitations prescribed by law. Unless the context clearly indicates otherwise, the trustees of elementary districts and high school districts have the same types of powers, duties, and responsibilities authorized and imposed by the laws of Montana.

(4) As used in this title, unless the context clearly indicates otherwise, a county high school is a high school district that has not unified with an elementary district under 20-6-312.

(1) The board of county commissioners shall maintain a permanent record that plainly and definitely describes the boundaries of each district within the county. The county superintendent shall keep a transcript of the record in the superintendent's office and is responsible for keeping the record current.

(2) If the county superintendent determines that the boundaries of any elementary district or high school district are in conflict or are incorrectly described, the superintendent shall change, harmonize, and describe the boundaries accurately and shall make a report of the boundary adjustments to the board of county commissioners. When the board of county commissioners approves a district boundary report submitted by the county superintendent, the boundaries are the legal boundaries and description of the district within the county. 20-6-104. Moratorium on creation of new district — exceptions. (1) Except as provided in subsections (2) and (3), a school district may not initiate the creation of a new elementary district or a new high school district.

(2) Pursuant to the provisions of 20-6-326, the trustees or the electors of an existing elementary district may initiate the creation of a new high school district solely for the purpose of expanding into a K-12 district.

(3) The moratorium in subsection (1) does not apply to a district that results from the procedure for the dissolution of a K-12 school district pursuant to 20-6-704.

History: En. Sec. 56, Ch. 633, L. 1993; amd. Sec. 2, Ch. 285, L. 1995; amd. Sec. 15, Ch. 219, L. 1997; amd. Sec. 2, Ch. 194, L. 2007.

20-6-105. Transfer of territory from one district to another — hearing on effects of proposed transfer — burden of proof — standard of proof — appeal to district court. (1) Except as provided in 20-6-214, 20-6-215, 20-6-308, and 20-6-322, a petition to transfer territory from one school district to another may be presented to the county superintendent if:

(a) the petition is signed by 60% of the registered electors qualified to vote at general elections in the territory proposed for transfer;

(b) the territory to be transferred is contiguous to the district to which it is to be attached, includes taxable property, and has school-age children living in it;

(c) the territory to be transferred is not located within 3 miles, over the shortest practicable route, of an operating school in the district from which it is to be transferred; and

(d) the board of trustees of the school district that would receive the territory has approved the proposed transfer by a resolution adopted by a majority of the members of the board of trustees at a meeting for which proper notice was given.

(2) When a petition to transfer territory has been filed, an additional petition to transfer that territory may not be filed for 1 full fiscal year unless the county superintendents have agreed in writing.

(3) The petition for a transfer of territory must be delivered to the county superintendent and must:

(a) provide a legal description of the territory that is requested to be transferred and a description of the district to which the territory is to be transferred;

(b) state the reasons why the transfer is requested; and

(c) state the number of school-age children residing in the territory.

(4) If both the trustees of the receiving and transferring school districts have approved the proposed territory transfer in writing, the county superintendent shall grant the transfer.

(5) For any petition that meets the criteria specified in subsection (1) and contains the information required by subsection (3) but that has not been approved in writing by the board of trustees of the school district that would transfer the territory, the county superintendent shall:

(a) not more than 40 days after receipt of the petition, set a place, date, and time for a hearing to consider the petition; and

(b) give notice of the place, date, and time of the hearing. The notice must be posted in the districts affected by the petition for the transfer of territory in the manner prescribed in this title for notices for school elections, with at least one notice posted in the territory to be transferred. Notice must also be delivered to the board of trustees of the school district from which the territory is to be transferred.

(6) The county superintendent shall conduct a hearing as scheduled, and any resident, taxpayer, or representative of the receiving or transferring district must, on request, be heard. At the hearing, the petitioners have the initial burden of presenting evidence on the proposed transfer's effect on:

(a) the educational opportunity for the students in the receiving and transferring districts, including but not limited to:

(i) class size;

(ii) ability to maintain demographic diversity;

(iii) local control;

(iv) parental involvement; and

(v) the capability of the receiving district to provide educational services;

(b) student transportation, including but not limited to:

(i) safety;

(ii) cost;

(iii) travel time of students; and

(iv) whether there are isolated pupils in the territory proposed for transfer; and

(c) the economic viability of the proposed new districts, including but not limited to:

(i) the existence of a significant burden on the taxpayers of the district from which the territory will be transferred if the transfer is approved and on the taxpayers of the school district to which the territory is to be transferred if the transfer is rejected;

(ii) the significance of any loss in state funding for the students in both the receiving and transferring districts;

(iii) the viability of the future bonding capacity of the receiving and transferring districts, including but not limited to the ability of the receiving district and the transferring district to meet minimum bonding requirements;

(iv) the ability of the receiving district and the transferring district to maintain sufficient reserves; and

(v) the cumulative effect of other transfers of territory out of the district in the previous 8 years on the taxable value of the district from which the territory is to be transferred. In cases in which the cumulative effect of other transfers of territory out of the district in the previous 8 years is equal to or greater than 25% of the district's taxable value, the following additional factors must be considered and weighed in the decision:

(A) the district's rate of passage of discretional levies placed before the voters over the previous 8 years;

(B) the district's reduction or elimination of instructional staff or programs over the previous 8 years; and

(C) any increase in district taxes over the previous 8 years and the likely increase in district taxes if the transfer is granted.

(7) After receiving evidence from both the proponents and opponents of the proposed territory transfer on the effects described in subsection (6), the county superintendent shall, within 30 days after the hearing, issue findings of fact, conclusions of law, and an order.

(8) If, based on a preponderance of the evidence, the county superintendent determines that the evidence on the effects described in subsection (6) supports a conclusion that a transfer of the territory is in the best and collective interest of students in the receiving and transferring districts and does not negatively impact the ability of the districts to serve those students, the county superintendent shall grant the transfer. If the county superintendent determines that, based on a preponderance of the evidence presented at the hearing, a transfer of the territory is not in the best and collective interest of students in the receiving and transferring districts and will negatively impact the ability of the districts to serve those students, the county superintendent shall deny the territory transfer.

(9) The decision of the county superintendent is final 30 days after the date of the decision unless it is appealed to the district court by a resident, taxpayer, or representative of either district affected by the petitioned territory transfer. The county superintendent's decision must be upheld unless the court finds that the county superintendent's decision constituted an abuse of discretion under this section. The county superintendent shall notify the department of revenue of the approval of a petition to transfer territory from one school district to another.

(10) Whenever a petition to transfer territory from one district to another district creates a joint district or affects the boundary of an existing joint district, the petition to transfer territory must be delivered to the county superintendent of the county in which the territory proposed to be transferred is located. The county superintendent shall notify any other county superintendents of counties with districts affected by the petition, and the duties prescribed in this section for the county superintendent must be performed jointly. If the number of county superintendents involved is an even number, the county superintendents shall jointly appoint an additional county superintendent from an unaffected county to join them in conducting the hearing required in subsection (6) and in issuing the decision required in subsection (8). The decision issued under subsection (8) must be made by a majority of the county superintendents.

(11) A petition seeking to transfer territory out of or into a K-12 district must propose the transfer of territory for both elementary and high school purposes. In the case of a proposed transfer out of or into a K-12 district, a petition that fails to propose the transfer of territory for both elementary and high school purposes is invalid for the purposes of this section.

(12) If a petition to transfer territory is granted under this section, for the 3 years immediately following the transfer:

(a) the taxable value of territory transferred must be divided equally between the school district from which the territory is transferred and the school district to which the property is transferred;

(b) when certifying taxable values pursuant to 15-10-202, the department of revenue shall include half of the certified value of the transferred territory in each school district's certified taxable value;

(c) each school district shall calculate the mills required for its district operational levies, as defined in 20-6-106, based on the certified taxable value provided under subsection (12)(b) of this section; and

(d) when levying taxes for district operational levies pursuant to 20-9-142, the county commissioners shall fix and levy one-half of the number of mills for each district's operational levies on the full taxable value of all property within the transferred territory.

(13) (a) When a petition to transfer territory is granted for a school district that has paid a reconciliation payment to another school district under 20-6-108:

(i) the school district to which the territory is transferred shall budget and impose a levy for 3 consecutive years following the transfer to generate revenue equal to the most recent reconciliation payment it received from the district from which the territory is transferred; and

(ii) the school district imposing the levy shall deposit the revenue in its tuition fund and pay the district from which the territory is transferred an amount equal to the revenue raised in subsection (13)(a)(i) for 3 consecutive years following the transfer, with at least half of the annual payment made by December 31 and the remainder made by June 15 of the same fiscal year.

(b) The school district from which territory is transferred shall deposit the received payment in its flexibility fund or allocate it among its budgeted funds as determined by the trustees.

(b) The term does not include countywide school levies.

(3) "Isolated pupil" means a pupil who is enrolled and admitted in a nonresident district contiguous to the pupil's resident school district under conditions specified in 20-5-321 and who is unable to access onsite services of a resident school district.

(4) "Reconciliation payment" means payment provided for in 20-6-107 from a resident school district to reimburse a school district of attendance for educating an isolated pupil of the resident school district.

20-6-107. Qualification for reconciliation payment — petition to qualify. (1) A school district that has enrolled and admitted an isolated pupil is qualified for a reconciliation payment as provided in this section when the isolated pupil is a resident of a contiguous school district that has a taxable value of at least $100 million and a taxable value per-ANB that is greater than 1.5 times the taxable value per-ANB in the school district of attendance.

(2) On payment of a processing fee of $100 to the county superintendent of the county in which the resident school district of an isolated pupil is located, a school district that meets the requirements of subsection (1) may annually petition to qualify for a reconciliation payment calculated pursuant to 20-6-108. To qualify for a reconciliation payment in the subsequent fiscal year, the school district shall file a petition with the county superintendent no later than June 1. The petition must include supporting evidence for the qualification of the school district of attendance for a reconciliation payment, including the number of full-time equivalent isolated pupils who were enrolled and admitted to the school district of attendance and receiving onsite instruction in the current school year.

(3) On receipt of a petition for a reconciliation payment, the county superintendent shall undertake a reasonable inquiry to assess the validity of the petition and eligibility for the reconciliation payment. The county superintendent shall exercise their best judgment and make a determination based on available and credible evidence, documentation, and applicable laws and policies. The county superintendent shall afford deference to the petitioner's assertions, ensuring that the evaluation process remains fair, transparent, and consistent with established criteria. The county superintendent may utilize resources and expertise from the office of public instruction, the department of revenue, and the department of transportation to verify the credibility of the evidence presented and to better ascertain the facts surrounding the petition.

(4) The county superintendent shall complete the inquiry and communicate the findings and determination, including a designation of the number of full-time equivalent isolated pupils enrolled in the school district of attendance, to the petitioner and the resident school district within 30 calendar days from the date of receipt of the petition. If further information or clarification is required to make an informed determination, the county superintendent may request additional documentation or engage in dialogue with the petitioner within this timeframe.

(5) An affected school district that disagrees with the county superintendent's determination may appeal to the district court by filing a verified petition with the court clerk and serving a copy of the petition on the county superintendent. The petition must clearly outline the objections of the school district to the basis of the county superintendent's determination and the objective criteria set forth in 20-6-106 through 20-6-109. Filing and serving the petition stays the county superintendent's decision until the court reaches a final determination on the matter. The court shall schedule a hearing at the earliest possible convenience. The court shall review the record and determine whether the county superintendent's decision constituted an abuse of discretion. The proceedings must be summary and informal, and the court's decision must be considered final.

(3) The resident school district shall calculate and impose levies on all of its taxable value sufficient to generate the amount of the reconciliation payment. The reconciliation payment must be incorporated into the tuition budget of the district of residence. The amount of the reconciliation payment must be calculated by:

(a) multiplying the number of full-time equivalent isolated pupils of the resident school district in the prior year as approved by the county superintendent pursuant to 20-6-107(4) by the mill value per-ANB determined pursuant to subsection (4) of this section; and

(b) multiplying the result of subsection (3)(a) by the number of mills reported by the school district of attendance under subsection (2).

(4) The mill value per-ANB for the resident school district under subsection (3)(a) must be calculated by the office of public instruction and reported by May 1 with the information required in 20-9-369(1)(a) to the resident school district and to the school district of attendance based on the certified taxable value of the resident school district for the prior school fiscal year divided by the resident school district's budgeted ANB in the prior school fiscal year.

(5) Revenue generated from the reconciliation payment levy imposed on the resident school district pursuant to subsection (4) must be deposited in the tuition fund of the resident school district and used solely for reconciliation payments to the school district of attendance.

(6) By December 31, the resident school district shall pay at least one-half of the reconciliation payment provided for in this section to the school district of attendance. The remaining obligation must be paid by June 15 of the same fiscal year.

(1) A school district with an enrollment of isolated pupils comprising 5% or more of its budgeted ANB shall establish an advisory council dedicated to fostering open dialogue and collaboration on matters that impact isolated pupils and other nonresident pupils from the areas in which isolated pupils reside. The council shall serve in an advisory capacity as a vital forum for listening to and voicing the concerns and insights of parents, guardians, and community members regarding the educational experiences of isolated pupils.

(2) The board of trustees of the school district of attendance shall appoint members to the advisory council following a public notice process that invites community participation and expressions of interest. The size of the council, the terms of service, and specific responsibilities must be outlined by district policy. (a) first class, if it has a population of 6,500 or more;

(b) second class, if it has a population of 1,000 or more but less than 6,500; or

(c) third class, if it has a population of less than 1,000.

(2) The population of an elementary district must be determined by the county superintendent on the basis of the best available population information for the district.

(3) The county superintendent shall establish the classification of each elementary district in the county on the basis of the population determined for the district and the district classification criteria prescribed in this section. Whenever the population of an elementary district increases or decreases requiring an adjustment of the district classification according to the criteria prescribed in this section, the county superintendent shall declare the district's classification to be changed in accordance with the determined population, except that the classification of an elementary district may not be changed more than once every 5 years.

(4) Whenever the county superintendent changes an elementary district's classification with the result that a larger number of trustees is required on the elementary board of trustees, the increased number of trustee positions must be filled in the manner provided for in 20-3-302.

Part 3
High School Districts

20-6-301. High school district classification. The classification of a high school district must be the same as the classification of the elementary district (20-6-201) where the high school building is located. If there is more than one elementary district in which operating high school buildings are located, the classification of the high school district must be the same as the classification of the elementary district described in 20-6-201 in which the operating high school building that was first constructed is located. Whenever the classification of such elementary district is changed, the classification of a high school district must be changed accordingly and the county superintendent shall adjust the number of additional high school district trustee positions in accordance with the method prescribed in 20-3-354 for the determination of the number of additional trustee positions required for a high school district. An increased number of trustee positions must be filled by the appointment of the county superintendent, and those positions are subject to election at the next regular trustee election. When the number of positions is decreased, the next additional high school trustee positions that become vacant under any circumstances may not be filled until the number of trustee positions has been reduced to the number required by law.

(1) Any county high school may be unified with the elementary district where the county high school building is located to establish a unified school system under a unified board of trustees. The territory of an existing joint high school district must remain a part of the joint high school district.

(2) A proposition to unify a county high school with the elementary district where the county high school building is located must be introduced whenever:

(a) the trustees of the county high school and the trustees of the elementary district individually pass resolutions requesting the county superintendent to order an election to consider a unification proposition; or

(b) not less than 20% of the electors of the high school district where the county high school is located who are qualified to vote under the provisions of 20-20-301 petition the county superintendent to order an election to consider a unification proposition.

(3) When the county superintendent has received the trustees' resolutions or a valid petition, the county superintendent shall, within 10 days after the receipt of the last resolution or petition and under the provisions of 20-20-201, order the county high school to call an election to consider a unification proposition. The trustees of the county high school shall call and conduct an election in the manner prescribed in this title for school elections. An elector who may vote on the unification proposition must be qualified to vote under the provisions of 20-20-301. The ballot for a county high school unification proposition must be substantially in the following form:

"OFFICIAL BALLOT
COUNTY HIGH SCHOOL UNIFICATION ELECTION

Shall.... County High School be unified with District No....., ... County to establish a unified school system under a unified board of trustees?

☐ FOR the unification of the county high school.
☐ AGAINST the unification of the county high school."

(4) When the county superintendent receives the election certificate from the trustees of the county high school, the county superintendent shall issue an order declaring the unification of the county high school with the elementary district identified on the ballot as of the next July 1, if a majority of those electors voting at the election have voted for the unification proposition.

(5) If a majority of those electors voting at the election have voted against the unification proposition, the county superintendent shall order the disapproval of the unification proposition.

(1) Whenever a county high school is unified with the elementary district where the county high school building is located, the following transactions must be completed on or before the July 1 when the unification becomes effective:

(a) The county high school trustees, who do not have the capacity to govern the high school district upon unification, shall surrender all minutes, documents, and other records of the county high school to the trustees of the high school district.

(b) The county superintendent shall order the establishment of additional high school trustee nominating areas in the manner prescribed in 20-3-352 and 20-3-353, if requested to do so by a majority of the outlying elementary districts located in the high school district. When the county superintendent establishes the areas, the county superintendent shall appoint additional high school district trustees from each area, who shall hold office until a successor is elected at the next regular school election and qualified.

(c) The county treasurer, after allowing for any outstanding or registered warrants, shall transfer all end-of-the-year fund cash balances of the county high school to similar funds established for the high school district. All previous years' taxes levied and collected for the county high school shall be credited to the appropriate fund of the high school district.

(2) All county high school bonds outstanding at the time of unification shall remain the obligation of the county or that portion of the county against which the bonds were originally issued. The high school district is responsible for the maintenance of the debt service fund for the bonds. It is the duty of the board of county commissioners and the trustees of the high school district to perform the duties prescribed in the school budgeting and bond redemption provisions of this title for the redemption and interest payments of the county high school bonds in the same manner and by the same means as though the county high school had not been unified.

20-6-326. Procedure for expansion of elementary school district into K-12 school district — trustee resolution. (1) An existing elementary district that is not part of a unified school system or governed by a joint board with a high school district may expand into a K-12 district under the procedures outlined in this section only if the elementary district's ANB, as calculated under the provisions of 20-9-311, is at least 1,000.

(2) The expansion to a K-12 district may be requested by the trustees of an existing elementary district through passage of a resolution that includes the information outlined in 20-6-105(3) and requests the county superintendent to order an election to allow the electors of the elementary district to consider the proposition of expanding the elementary school district into a K-12 district. The trustees of an existing elementary district with an ANB of at least 1,000 may not pass a resolution for expansion more than one time within a 5-year period.

(3) (a) If the proposition for the expansion is approved by the electors of the elementary district and the trustees issue a certificate of election as provided in 20-20-416, for a period of 2 years from the date of the certification of the election the elementary trustees have the authority to propose to the electors of the elementary district:

(i) a transition costs levy pursuant to 20-9-502; and

(ii) a general obligation bond pursuant to Title 20, chapter 9, part 4, for the purpose of building, altering, repairing, buying, furnishing, equipping, purchasing lands for, or obtaining a water supply for a school to accommodate high school students.

(b) The bond limitations pursuant to 20-9-406 imposed on a district proposing a bond under subsection (3)(a) must be calculated on the limits for a K-12 district with the high school ANB calculated by dividing the ANB of the elementary district by 9 and multiplying the result by 4.

(c) A bond approved under subsection (3)(a) becomes a bond of, and may not be issued until the creation of, the K-12 district formed pursuant to subsection (4).

(d) A district that issues a bond under this subsection (3) is eligible for facility reimbursements and advances pursuant to 20-9-366 through 20-9-371 that, until the new high school has enrolled students in all grades and has established an actual ANB for budgeting purposes, must be based on an estimated high school ANB calculated by dividing the ANB of the elementary district by 9 and multiplying the result by 4.

(e) Until the county superintendent orders the creation of a new high school district and attachment of the expanding elementary district to form a new K-12 district pursuant to subsection (4), the existing high school district remains intact for all purposes.

(4) If elementary electors approve a bond pursuant to subsection (3), on July 1 following the approval of the bond the county superintendent shall order the creation of a new high school district with identical boundaries to the expanding elementary district and the immediate attachment of the expanding elementary district to form a K-12 district. The county superintendent shall send a copy of the order to the board of county commissioners and to the trustees of the districts affected by the creation of the district. The trustees of the expanding elementary district must be designated as the trustees of the new K-12 district.

(5) Prior to the first school fiscal year in which the K-12 district will enroll students in a particular high school grade, the K-12 trustees shall prepare operating budgets for the new high school according to the school budgeting provisions of this title, except that:

(a) the ANB for any inaugural grades for the high school program of the K-12 district must be estimated by the trustees and may not exceed the number resulting from dividing the highest budgeted ANB of the elementary program in the preceding 3 fiscal years by 9 and multiplying the result by the number of grades in which the high school will enroll students for the first time in the ensuing school year;

(b) the number of quality educators for the high school program must be estimated by the trustees and may not exceed the number resulting from dividing the ANB estimated under subsection (5)(a) by 10;

(c) the taxable value for budgeting purposes of both the elementary and high school programs of the K-12 district must be based on the taxable value as most recently determined by the department of revenue;

(d) the general fund budget adopted by the trustees must be based on only the basic entitlement, the total quality educator and qualified staff payment, and the budget components derived from ANB counts; and

(e) the district's BASE aid for the upcoming year must be based on the general fund budget adopted by the trustees for the upcoming school year.

(6) Until the first school year in which the K-12 school district enrolls high school students in all grades and for a period of time not to exceed 6 years following the creation of the K-12 district:

(a) the high school district shall provide high school instruction to high school students of the K-12 district in any grades in which the K-12 district is not enrolling students;

(b) the K-12 district shall be responsible for providing transportation for its students enrolled in the high school district pursuant to subsection (6)(a), may establish a transportation budget for this purpose, and may receive state and county reimbursements under Title 20, chapter 10; and

(c) the K-12 district shall pay the high school district 20% of the per-ANB maximum rate established in 20-9-306 for each of its students enrolled in the high school district with one-half of the amount due by December 31 of the year following the year of attendance and the remainder due no later than June 15 of the year following the year of attendance. The K-12 trustees shall establish a tuition fund and levy to fund these payments.

(7) (a) Bonded indebtedness of the high school district that is outstanding as of the date of creation of the K-12 district must remain secured by and be the indebtedness of the original territory against which the bonds of the high school district were issued and must be paid by tax levies against the original territory.

(b) Bonded indebtedness of the high school district that is issued by the high school district following the creation of the K-12 district is secured by the territory of the high school district as of the date of issuance of the high school district bonds and must be paid by tax levies against the territory of the high school district. However, if bonds of the high school district were approved at a bond election conducted before the creation of the K-12 district, all bonds of the high school district issued by the high school district under the bond election authority must remain secured by and be the indebtedness of the territory of the high school district as of the date the bond authority was approved by voters and must be paid by tax levies against that territory.

(c) Bonded indebtedness of the K-12 district is secured by the territory of the K-12 district as of the date of issuance of the K-12 district bonds and must be paid by tax levies against the territory of the K-12 district.

(d) Bonded indebtedness of the elementary district that is outstanding as of the date of creation of the K-12 district must become upon the date of creation of the K-12 district the bonded indebtedness of the K-12 district and must be secured by the territory of the K-12 district and paid by tax levies against the territory of the K-12 district. The debt service on the bonds must be allocated to the elementary program of the K-12 district.

(e) Bonded indebtedness of the high school district or the K-12 district that is subsequently affected by a later reorganization of the high school district or the K-12 district is governed by the provisions of Title 20, chapter 6, part 4.

(8) When a K-8 district expands to a K-12 district as provided for in this section, a principal, teacher, or other certified employee of the original high school district who has a right of tenure under Montana law must be given preference in hiring for a vacant position in the new K-12 district for which the employee is qualified with the required certification endorsements.

20-6-411. Bonded indebtedness to remain with original territory except when assumed by election. Whenever district boundaries are changed in any manner prescribed in this title, the existing bonded indebtedness against any district or territory affected by a change of boundaries remains the indebtedness of the original territory against which the bonds were issued and must be paid by levies on the original territory, except when districts are reorganized with the mutual assumption of bonded indebtedness or when a district is annexed with a joint assumption of the annexing district's bonded indebtedness. (2) If any cash remains to the credit of the district after paying its debts, the cash must be transferred by the county treasurer to the credit of the district or districts assuming its territory. 20-6-422. District annexation. (1) As used in this section, the following definitions apply:

(a) "Annexing district" means the district to which another district is being attached through an annexation procedure.

(b) "District to be annexed" means the district that is being attached to another district through an annexation procedure.

(2) A district may be annexed to a contiguous district when one of the conditions of 20-6-421 is met in accordance with the following procedure:

(a) An annexation proposition may be introduced in the district to be annexed by either of the two following methods:

(i) the trustees may pass a resolution requesting the county superintendent of the county where the district is located to order an election to consider an annexation proposition for their district; or

(ii) not less than 20% of the electors of the district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent of the county where the district is located requesting an election to consider an annexation proposition for their district.

(b) The resolution or petition must state whether the annexation is to be made with or without the joint assumption of bonded indebtedness of the annexing district by the district to be annexed and the annexing district.

(3) Before ordering an election on the proposition, the county superintendent of the county where the district to be annexed is located must first receive from the trustees of the annexing district a resolution giving the county superintendent the authority to annex the district. The resolution must state whether the annexation is to be made with or without the joint assumption of bonded indebtedness of the annexing district by the district to be annexed and the annexing district. The resolution from the annexing district and the resolution or petition from the district to be annexed must agree on whether or not there will be joint assumption of bonded indebtedness. Without agreement, the annexation proposition may not be considered further.

(4) When the county superintendent of the county where the district to be annexed is located has received the resolution authorizing the annexation from the annexing district and the resolution or valid petition from the district to be annexed, the county superintendent shall, within 10 days and as provided by 20-20-201, order the trustees of the district to be annexed to call an annexation election.

(5) The district to be annexed shall call and conduct an election in the manner prescribed in this title for school elections and subject to subsections (6) and (7). Any elector qualified to vote under the provisions of 20-20-301 may vote.

(6) (a) If the district to be annexed is to jointly assume the bonded indebtedness of the annexing district, the ballots must read, after stating the annexation proposition, "FOR annexation with assumption of bonded indebtedness" and "AGAINST annexation with assumption of bonded indebtedness".

(b) When the trustees in the district conducting the election canvass the vote under the provisions of 20-20-415, they shall determine the number of votes "FOR" and "AGAINST" the proposition.

(c) The proposition is approved in the district if a majority of those voting approve the proposition.

(7) If the district to be annexed is not to jointly assume the bonded indebtedness of the annexing district, the ballots must read, after stating the annexation proposition, "FOR annexation without assumption of bonded indebtedness" and "AGAINST annexation without assumption of bonded indebtedness". The annexation proposition is approved by a district if a majority of those voting in a district approve the proposition.

(8) After the county superintendent of the county where the district to be annexed is located has received the election certification provided for in 20-20-416 from the trustees of the district conducting the annexation election and if the annexation proposition has been approved by the election, the county superintendent shall order the annexation of the territory of the district voting on the proposition to the district that has authorized the annexation to its territory effective July 1. The order must be issued within 10 days after the receipt of the election certificate. For annexation with joint assumption of bonded indebtedness, the order must specify that there will be joint assumption of the bonded indebtedness of the annexing district by the owners of all taxable real and personal property in the territory of the district to be annexed. The county superintendent of the county where the district to be annexed is located shall send a copy of the order to the board of county commissioners of each county involved in the annexation order and to the trustees of the districts involved in the annexation order.

(9) If the annexation proposition is disapproved in the district to be annexed, the annexation proposition fails and the county superintendent of the county where the district to be annexed is located shall notify each district of the disapproval of the annexation proposition.

(d) Any two or more school districts may reorganize to form a single K-12 school district.

(e) The reorganization must be conducted as provided in this section.

(2) (a) A reorganization proposition may be introduced, individually, in each of the districts by either of the two following methods:

(i) the trustees may pass a resolution requesting the county superintendent of the county where the district is located to order an election to consider a reorganization proposition involving their district; or

(ii) not less than 20% of the electors of an individual district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent of the county where the district is located requesting an election to consider a reorganization proposition involving their district.

(b) (i) When two or more districts reorganize under subsections (1)(a) through (1)(c), the resolution or petition must state whether the reorganization is to be made with or without the joint assumption of the bonded indebtedness of each district by all districts included in the reorganization. The resolution or petition from each district must agree on whether or not there will be joint assumption of bonded indebtedness. Without agreement, the reorganization proposition may not be considered further.

(ii) When two or more districts reorganize under subsection (1)(d), any bonded indebtedness of a district remains an obligation of the original territory of the district.

(3) When a county superintendent has received a resolution or a valid petition from each of the districts included in the reorganization proposition, the county superintendent shall, within 10 days after the receipt of the last resolution or petition and as provided by 20-20-201, order the trustees of each district included in the reorganization proposition to call a reorganization election to be held no later than December 31 preceding the school year in which the reorganization is to become effective. If the districts involved in the reorganization proposition are located in more than one county, the county superintendents in both counties shall jointly order the district to call a reorganization election.

(4) Each district, individually, shall call and conduct an election in the manner prescribed in this title for school elections and subject to additional requirements of subsections (5) and (6). Any elector qualified to vote under the provisions of 20-20-301 may vote.

(5) (a) If the districts to be reorganized are to jointly assume the bonded indebtedness of each district involved in the reorganization, the ballots must read, after stating the reorganization proposition, "FOR reorganization with assumption of bonded indebtedness" and "AGAINST reorganization with assumption of bonded indebtedness".

(b) When the trustees in each district conducting an election canvass the vote under the provisions of 20-20-415, they shall determine the number of votes "FOR" and "AGAINST" the proposition.

(c) The proposition is approved in the district if a majority of those voting approve the proposition.

(6) If the districts to be reorganized are not to jointly assume the bonded indebtedness of each district involved in the reorganization, the ballots must read, after stating the reorganization proposition, "FOR reorganization without assumption of bonded indebtedness" and "AGAINST reorganization without assumption of bonded indebtedness". The reorganization proposition is approved by a district if a majority of those voting in a district approve the proposition. Otherwise it is disapproved.

(7) (a) After the county superintendent of each county where a district involved in the reorganization proposition is located has received the election certification provided for in 20-20-416 from the trustees of each district included in a reorganization proposition, the appropriate county superintendent shall determine if the reorganization proposition has been approved in each district. If each district has approved the reorganization proposition, each county superintendent shall, within 10 days after the receipt of the last election certificate, order the reorganization of the districts effective July 1 of the ensuing school fiscal year. The order must:

(i) for reorganization with the joint assumption of bonded indebtedness, specify that there will be joint assumption of bonded indebtedness between the owners of all taxable real and personal property in each district forming the reorganized district;

(ii) specify the number of the reorganized district;

(iii) for a reorganization under subsection (1)(d), order any boundary changes necessary to create the K-12 district; and

(iv) establish an interim board of trustees for the reorganized district as provided in 20-6-424. The trustees shall serve until their successors are elected at the next succeeding regular school election and qualified.

(b) Each county superintendent shall send a copy of the order to the board of county commissioners of each county where a district involved in the reorganization proposition is located and to the trustees of each district incorporated in the reorganization order.

(8) If any district included in the reorganization proposition disapproves the reorganization proposition, the reorganization of all districts fails and the appropriate county superintendent shall notify each district of the disapproval of the reorganization proposition.

As used in this title, unless the context clearly indicates otherwise, the term "school" means an institution for the teaching of children that is established and maintained under the laws of the state of Montana at public expense. The trustees of a district shall designate the grade assignments for the schools of the district, but for the purposes of this title each school is known as:

(1) an elementary school when it comprises the work of any combination of kindergarten, other preschool programs, or the first eight grades or their equivalents. A middle school is a school comprising the work of grades 4 through 8 or any combination of grades 4 through 8 that has been accredited as a middle school under the provisions of 20-7-102. When an accredited junior high school is operated by the district, grades 7 and 8 or their equivalents may not be considered as elementary grades.

20-6-502. Opening or reopening of elementary school. The trustees of any elementary district may open or reopen an elementary school of the district when the opening or reopening has been approved in accordance with the following procedure:

(1) The parents of at least two pupils who would attend the opened or reopened school petition the trustees of the district to open or reopen a school. The petition must identify the school, state the reasons for requesting the opening or reopening, and give the names of the children who would attend the school.

(2) If the trustees approve the opening or reopening of a school, they shall send the petition with a copy of their approval resolution to the county superintendent. The county superintendent shall review the petition to determine if the average number belonging (ANB) of the school would be two or more. If the trustees plan to open or reopen the school during the current school fiscal year, the trustees shall include the proposed opening date in the approval resolution and shall request that the process outlined in this section be expedited.

(3) The county superintendent shall present the petition, the trustees' approval, and the county superintendent's findings on the probable ANB to the board of county commissioners for their consideration. The board shall deny the opening or reopening of any school if the county superintendent's enrollment estimate for the school is less than two ANB. In all other cases, the board may approve or disapprove the requested opening or reopening of the elementary school.

(4) (a) If the board approves a school opening or reopening, the county superintendent shall send a copy of the approval, along with the petition, the trustees' approval, and the county superintendent's estimate of the probable ANB, to the superintendent of public instruction. Except under the circumstances described in subsection (4)(b), the trustees shall apply to the superintendent of public instruction for approval to open or reopen the school by June 1 prior to the beginning of the school year in which they intend to open or reopen the elementary school. The superintendent of public instruction shall approve or disapprove the requested opening or reopening of the elementary school by the fourth Monday of June. If the opening or reopening is approved, the superintendent of public instruction shall approve or adjust the ANB estimate of the county superintendent for the school and the ANB amount must be used for budgeting and BASE funding program purposes during the ensuing school fiscal year. An ANB amount may not be approved for the ensuing school fiscal year for an opening or reopening school when the request for the school has not been received by the superintendent of public instruction by June 1.

(b) (i) If the opening or reopening is approved and the trustees want to open or reopen the school during the current school fiscal year, the trustees shall submit a budget request to the superintendent of public instruction for that portion of the fiscal year in which the school will be in operation prior to the ensuing school fiscal year. The superintendent of public instruction shall approve or adjust the budget request and shall fund the budget for the portion of the school year in which the school will be in operation.

(ii) Before a school may open or reopen during the current school fiscal year, the school must be classified as an isolated school in accordance with the provisions of 20-9-302, except that the dates in that section for the submission and approval of the application for classification do not apply and the application must be made at the same time that the application for opening or reopening the school is made.

Any elector qualified to vote under the provisions of 20-20-301 may vote on the proposition. If a majority of the electors voting at the election approve the proposition, the trustees shall apply to the superintendent of public instruction for approval to open a junior high school. If a majority of the electors voting at the election disapprove the proposition, a junior high school shall not be opened by the joint board of trustees.

(3) The application to the superintendent of public instruction for the approval to open a junior high school shall be submitted by June 1 following the election approving the opening of the junior high school. The application shall contain such information as is required under 20-6-503 for an application to open a high school.

(4) The superintendent of public instruction shall investigate the application for the opening of a junior high school and shall approve or disapprove the opening of the junior high school before the fourth Monday of June preceding the first year of intended operation. If the opening is approved, the joint board of trustees may open the junior high school.

(5) At any time the trustees of the elementary district and the trustees of the high school district shall cease to form a joint board of trustees under the provisions of 20-3-361, the junior high school shall be closed and the districts shall assume the provision of an educational program for the junior high school pupils of their respective districts.

(a) a bond issue has been authorized for the purpose of constructing, purchasing, or acquiring the site or building;

(b) the cost of constructing, purchasing, or acquiring the site or building is financed without exceeding the maximum general fund budget amount for the district and, in the case of a site purchase, the site has been approved under the provisions of 20-6-621; or

(c) money is otherwise available under the provisions of this title and the ballot for the site approval for the building incorporated a description of the building to be located on the site.

(2) Except for land that is granted to or held by the state in trust or land acquired by conditional deed under the provisions of 20-6-605, the trustees may, upon approval by the electorate, accept as partial or total consideration for the exchange of the land a binding written agreement by a public or private entity seeking the exchange to use the property to provide a service that benefits the school district. (1) Whenever the trustees of a district determine that a site, building, or any other real or personal property of the district is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the district, the trustees may sell or otherwise dispose of the real or personal property in accordance with this section and without conforming to the provisions of 20-6-603. If a decision to sell or dispose of property is made, the trustees shall adopt a resolution to sell or otherwise dispose of the district real or personal property because it is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the district.

(2) The resolution may not become effective for 14 days after the notice required in subsection (3) is made.

(3) The trustees shall provide notice of the resolution in the manner required for school elections in 20-20-204.

(4) A taxpayer may appeal the resolution of the trustees, at any time prior to the effective date of the resolution, to the district court by filing a verified petition with the clerk of the court and serving a copy of the petition upon the district. The petition must set out in detail the objections of the petitioner to the adoption of the resolution or to the disposal of the property. The service and filing of the petition stay the resolution until final determination of the matter by the court. The court shall immediately fix the time for a hearing at the earliest convenient time. At the hearing, the court shall hear the matter de novo and may take testimony as it considers necessary. Its proceedings are summary and informal, and its decision is final.

(5) The trustees of a district that has adopted a resolution to sell or otherwise dispose of district real or personal property and, if appealed, has been upheld by the court shall sell or

dispose of the real or personal property in any reasonable manner that they determine to be in the best interests of the district.

Whenever the trustees acquire land by deed conditioned upon the use of the land for the conduct of school or related activities or whenever land has been used by the trustees at the will or sufferance of the land's owner or claimant and the district has constructed buildings or made other improvements on the land, the owner or claimant may repossess the land if it ceases to be used as specified by deed or, if not specified, for the conduct of school or related activities. However, the owner or claimant shall first notify the trustees in writing of the intent to repossess the land, and the trustees shall have 1 year after receipt to remove any buildings or improvements placed upon the land by the district. The trustees' failure to remove the buildings or improvements within that time constitutes a forfeiture of the buildings or improvements. Before the owner or claimant has the right to give notice of repossession, the district's intention to permanently cease using the land must have been established by resolution of the trustees and a vote of the district's electors.

(1) Except as provided in subsection (4), each elementary district with the same district boundaries as a high school district shall attach to the high school district for the purpose of establishing a K-12 school district.

(2) For the purposes of this title, unless the context clearly indicates otherwise, "K-12 school district" means a high school district with an elementary district that has been attached to the high school district under the procedures provided in this section, with the high school district remaining an organized district under the provisions of 20-6-101 and other provisions of law and the elementary district becoming an inactive district under the provisions of 20-6-101.

(3) The attachment of an elementary district to a high school district to form a K-12 school district must be conducted under the following procedure:

(a) The trustees of each district shall pass a resolution requesting the county superintendent to order an attachment involving their districts.

(b) When the county superintendent receives a resolution from each of the districts, the county superintendent shall, within 10 days after receipt of the last resolution, order the attachment of the elementary district to the high school district to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the order to the board of county commissioners, the trustees of the districts included in the attachment order, and the superintendent of public instruction.

(4) This section does not apply to a school district receiving federal impact aid funding, as provided in 20 U.S.C. 7701, et seq., if creation or continuation of a K-12 district has resulted in or will result in the loss of federal impact aid funding.

(4) The retirement obligation and eligibility for retirement guaranteed tax base aid for a K-12 school district must be calculated and funded as a high school district retirement obligation under the provisions of 20-9-501.

20-6-704. Dissolution of K-12 school district. (1) Except as provided in subsection (2), in order to dissolve a K-12 district under the provisions of this section, the trustees of a district shall submit for approval to the electors of the K-12 district a proposition dissolving the K-12 district for the purpose of annexing or reorganizing the K-12 district's elementary or high school program with a contiguous school district or districts in an ensuing school fiscal year under the provisions of 20-6-422 or 20-6-423.

(2) If the trustees of the school district determine that the creation or continuation of the K-12 district has resulted in or will result in the loss of federal funding for the elementary or high school programs and that it is in the best interest of the district to dissolve into the original elementary district and high school district that existed prior to the formation of the K-12 district, the trustees may dissolve the district under the following procedure:

(a) The trustees of the district shall pass a resolution requesting the county superintendent to order a dissolution of the district.

(b) When the county superintendent receives the resolution from the district, the county superintendent shall, within 10 days, order the dissolution of the K-12 district into the original elementary district and high school district, to take effect on July 1 of the ensuing school fiscal year. If a portion of the dissolving K-12 district will not be annexed or reorganized with another district or districts, the resolution or petition must contain a description of the manner in which the property, funds, and financial obligations, including bonded indebtedness, of the K-12 district are to be apportioned to the district or districts whose territory is not annexed to or reorganized with another district.

(4) After the county superintendent receives the certificate of election provided for in 20-20-416 from the trustees of the K-12 district and from each district included in a reorganization proposition, the county superintendent shall determine whether the dissolution and annexation or reorganization proposition or propositions have been approved. If the K-12 district has approved the dissolution proposition and each district involved in a reorganization has approved the reorganization proposition, the county superintendent shall, within 10 days after the receipt of the election certificate, order the dissolution of the K-12 district into the original elementary district and high school district, to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the dissolution order to the board of county commissioners, the trustees of the district included in the dissolution order, and the superintendent of public instruction.

(5) Whenever a K-12 district is dissolved, the following provisions apply:

(a) The trustees of the district whose territory is not annexed or reorganized on dissolution of the K-12 district are responsible for the execution of remaining financial obligations of the K-12 district and for the apportionment between the elementary and high school programs of any obligations not identified in the resolution required under subsection (3).

(b) The provisions of 20-6-410 apply for tenure teachers in the dissolution of a K-12 district.

20-6-807. Governing board — initial board — elections — terms. (1) Subsections (2) through (5) apply to a public charter school not governed by the local school board.

(2) The governing board of a public charter school district must be composed of 7 members. The boundaries of the charter school district consist of the legal description of the campus of the charter school. A majority of the governing board members must be qualified electors of the county in which the public charter school is located. Members must:

(a) be qualified electors in the county in which the public charter school is located or a contiguous county but need not be qualified electors of the located school district; and

(b) possess documented knowledge or experience in the mission or focus of the public charter school.

(3) An applicant for a proposed public charter school shall identify the members of the initial governing board of the charter school district of which the charter school is a part in the proposal submitted to the board of public education. The initial governing board is responsible for preoperation of and initial operation of the public charter school.

(4) At the regular school election in the first year of operation of a public charter school, members must be elected by the qualified electors of the located school district in the same manner as local school boards, except as provided in subsections (2) and (5), in an election conducted by the local school board in the school district in which the public charter school is located. Any elector qualified to vote in the located school district under the provisions of 20-20-301 may vote.

(5) Members of governing boards serve for terms of 5 years, and the terms of members must be staggered to ensure continuity on the governing board.

(6) If the governing board of a public charter school is the local school board, the governing board shall establish and appoint members of an advisory board to provide recommendations and insight regarding the public charter school's operations. Members of the advisory board must include members with knowledge or experience in the mission or focus of the public charter school.

20-6-808. Enrollment. (1) (a) A public charter school must be open to any student residing in the state.

(b) A school district may not require a student enrolled in the school district to attend a public charter school.

(c) A public charter school may limit admission to students within a given age group or grade level.

(d) A public charter school may be organized for a special emphasis, theme, or concept as stated in the school's proposal.

(e) A public charter school shall enroll all students who wish to attend the school unless the number of students exceeds the capacity of a program, class, grade level, or building.

(f) If capacity is insufficient to enroll all students who wish to attend the school, the public charter school shall select students through a lottery.

(2) (a) A public charter school shall give enrollment preference to students who are residents of the located school district.

(b) A public charter school may give enrollment preference to:

(i) students who were enrolled in the public charter school the previous school year and to siblings of students already enrolled in the public charter school. An enrollment preference for returning students excludes those students from entering a lottery.

(ii) children of members of a public charter school's governing board and full-time employees, limited to no more than 10% of the school's total student population.

(3) This section does not preclude the formation of a public charter school for the purpose of serving students with disabilities, students of the same gender, students who pose a sufficiently severe disciplinary problem to warrant a specific educational program, or students who are at risk of academic failure. If capacity is insufficient to enroll all students who wish to attend such a school, the public charter school shall select students through a lottery.

(4) If a student who was previously enrolled in a public charter school enrolls in any other public school in this state, the student's new school shall accept credits earned by the student in courses or instructional programs at the public charter school.

(5) A school district shall provide or publicize to parents and the general public information about public charter schools as an enrollment option within the district to the same extent and through the same means that the district provides and publicizes information about noncharter public schools in the district.

(6) The board of public education may not restrict the number of students a public charter school may enroll. The capacity of the public charter school must be determined annually by the governing board in consideration of the public charter school's ability to facilitate the academic success of its students, to achieve the objectives specified in the charter contract, and to ensure that its student enrollment does not exceed the capacity of its facility or site.

History: **En. Sec. 8, Ch. 510, L. 2023.**

20-6-809. Charter school performance and renewal. (1) The performance provisions within the charter contract must be based on a performance framework that clearly sets forth the academic and operational performance indicators, measures, and metrics that will guide the board of public education's evaluations of each public charter school. The performance framework must include indicators, measures, and metrics for, at a minimum:

(a) student academic proficiency;

(b) student academic growth;

(c) achievement gaps in both proficiency and growth between major student subgroups;

(d) attendance;

(e) recurrent enrollment from year to year;

(f) postsecondary readiness;

(g) financial performance and sustainability; and

(h) governing board performance and stewardship, including compliance with all applicable laws, regulations, and terms of the charter contract.

(2) Each public charter school shall set annual performance targets designed to help each school meet applicable federal, state, and board of public education expectations.

(3) (a) The contract performance framework must allow the inclusion, with the board of public education's approval, of additional rigorous, valid, and reliable indicators proposed by a public charter school to augment external evaluations of its performance that are consistent with the purposes of this part.

(b) The board of public education shall collect and analyze data from each public charter school it oversees in accordance with the performance framework.

(c) Multiple schools operating under a single charter contract or overseen by a single governing board of a charter school district shall report their performance as separate, individual schools. Each school must be held independently accountable for its performance.

(4) (a) The board of public education shall monitor the performance and legal compliance of each public charter school district and each public charter school, including collecting and analyzing data to support ongoing evaluation according to the charter contract. The board of public education has the authority to conduct or require oversight activities that do not unduly inhibit the autonomy granted to public charter schools and the supervision and control of a public charter school's governing board but that enable the board to fulfill its responsibilities under this part, including conducting appropriate inquiries and investigations consistent with the intent of this part, and to adhere to the terms of the charter contract.

(b) The board of public education shall annually publish a performance report for each public charter school within the performance framework set forth in the charter contract and 20-6-810. The board may require each public charter school it oversees to submit an annual report to assist the board in gathering complete information about each school, consistent with the performance framework.

(c) In the event that a public charter school's performance or legal compliance appears unsatisfactory, the board of public education shall promptly notify the governing board of the perceived problem and provide a reasonable opportunity for the school to remedy the problem.

(d) The board of public education may take appropriate corrective action or exercise sanctions short of revocation in response to apparent deficiencies in public charter school performance or legal compliance. The action or sanctions may include, if warranted, requiring a governing board to develop and execute a corrective action plan within a specified timeframe.

(5) (a) A charter may be renewed for successive 5-year terms, although the board of public education may vary the term based on the performance, demonstrated capacities, and particular circumstances of each public charter school. The board may grant renewal with specific conditions for necessary improvement to a public charter school.

(b) No later than June 30 of each year, the board of public education shall issue a public charter school performance report and charter renewal application guide to the governing board of any public charter school whose charter will expire the following year. The performance report must summarize the public charter school's performance record to date, based on the data required by this part and the charter contract, and must provide notice of any weaknesses or concerns perceived by the board concerning the public charter school that may jeopardize renewal if not promptly rectified. The public charter school shall respond to the performance report and submit any corrections or clarifications within 90 business days.

(6) The renewal application guide must, at a minimum, provide an opportunity for the governing board of the public charter school to:

(a) present additional evidence, beyond the data contained in the performance report, supporting its case for charter renewal;

(b) describe improvements undertaken or planned for the public charter school; and

(c) detail the public charter school's plans for the next charter term.

(7) The renewal application guide must include or refer explicitly to the criteria that will guide the board's renewal decisions, based on the performance framework set forth in the charter contract and consistent with this part.

(8) (a) No later than February 1, the governing board of a public charter school seeking renewal shall submit a renewal application to the board of public education pursuant to the renewal application guide. The board of public education shall rule by resolution on the renewal application no later than 30 business days after the filing of the renewal application.

(b) When considering charter renewal, the board of public education shall:

(i) base its decision on evidence of the school's performance over the term of the charter contract in accordance with the performance framework set forth in the charter contract;

(ii) ensure that the data used in making renewal decisions is available to the school and the public; and

(iii) provide a public report summarizing the basis for each decision.

The protocol must specify responsible parties, transition and closure timelines, and a delineation of the respective duties of the governing board of the public charter school and the board of public education.

(b) The board of public education shall oversee the closure and work with the governing board of the public charter school to ensure a smooth and orderly closure and transition for students and parents.

(c) In the event of a public charter school closure for any reason, the nonrestricted distributable assets of the public charter school must be distributed first to satisfy outstanding payroll obligations for employees of the public charter school, then to creditors of the public charter school, then to public school districts to which students previously attending the closed charter school are returning on a prorated per-pupil basis, and then to the state general fund. 20-7-101. Accreditation standards — process for adoption. (1) (a) Accreditation standards, as defined in 20-1-101, for all schools must be adopted by the board of public education upon the recommendations of the superintendent of public instruction. The superintendent shall develop recommendations in accordance with subsection (2). For an accreditation standard that requires implementation by school districts, the recommendations presented to the board must include an economic impact statement, as described in 2-4-405, prepared in consultation with the negotiated rulemaking committee under subsection (2).

(b) For accreditation standards addressing academic requirements, program area standards, or content and performance standards, the economic impact statement under subsection (1)(a) must include an analysis of the ability of school districts to implement the standard within existing resources, including time. The intent of this subsection (1)(b) is to ensure that school districts have the capacity to adhere to required accreditation standards within a basic system of free quality public elementary and secondary schools.

(2) The accreditation standards recommended by the superintendent of public instruction must be developed through the negotiated rulemaking process under Title 2, chapter 5, part 1. The superintendent may form a negotiated rulemaking committee for accreditation standards to consider multiple proposals. The negotiated rulemaking committee may not exist for longer than 2 years. The committee must represent the diverse circumstances of schools of all sizes across the state and must include representatives from the following groups:

(a) school district trustees;
(b) school administrators;
(c) teachers;
(d) school business officials;
(e) parents;
(f) taxpayers; and
(g) for content and performance standard revisions, representatives of Montana Indian tribes, as required under 20-1-503.

(3) Prior to adoption or amendment of any accreditation standard, the board shall submit each proposal, including the economic impact statement required under subsection (1), to:

(a) during a regular legislative session, the joint appropriations subcommittee on education; or

(b) during the legislative interim, the education interim budget committee established in 5-12-501, for review at least 1 month in advance of a scheduled committee meeting.

(4) Unless the expenditures by school districts required under the proposal are determined by the appropriate committee under subsection (3) to be insubstantial expenditures that can be readily absorbed into the budgets of existing district programs, the board may not implement the standard until July 1 following:

(a) under subsection (3)(a), the current legislative session; or

(b) under subsection (3)(b), the next regular legislative session and shall request the superintendent of public instruction include a request in the superintendent's budget that the same legislature fund implementation of the proposed standard.

(5) The provisions of this section may not be construed to reduce or limit the authority of the education interim committee to review administrative rules, including accreditation standards, within its jurisdiction pursuant to 5-5-215.

(6) Standards for the retention of school records must be as provided in 20-1-212.
